

Since this list was set up for final revision, many men have been reported as P.O.W. and a number as "liberated". A supplemental list is enclosed with as much information as we have on April 23rd, regarding our missing men. Reference # 1

We have tried to include on this list the names of all men we have heard about and whose names, company, rank and next-of-kin are known to us. We know that there are many names that should be on this list, even from this immediate district, and we do hope that those who receive this list will send us complete information regarding any men of the 106th who should be included, so that we can all have as complete a list as possible.

This list will be sent to the short wave listening posts, who have done such a splendid service for many of us in the past. However, we doubt that they can be expected to receive much information in the near future.

On April 9th, when the disturbing reports regarding our prisoners started coming to all of us through the press and over the air, we wrote to the Adjutant General's office and received a very prompt reply. We enclose a copy of the reply, and we believe that this letter will give all of you much good, sound information from "headquarters".

On April 9th we also wrote to the Provost Marshal's office, particularly with reference to the delay experienced by many in receiving shipping tags and other information, and on April 14th approximately 150 telegrams were sent to Hon. Henry L. Stimson. On April 27th we received a reply to our telegram from Major General Archer L. Lerch from the Provost Marshal General's office. Copy of this reply is enclosed.

On April 9th we handled with the Red Cross in Washington with reference to the attention our prisoners of war were receiving. A copy of the Red Cross reply is enclosed.

About a week ago, many of us were impressed with George Fielding Elliott's suggestion regarding the best steps to take with respect to the mistreatment of our prisoners and we contacted our Senators, urging that immediate attention be given this matter. Perhaps some good was accomplished.

We believe that all of our efforts with the Red Cross, Provost Marshal and Adjutant General may have helped, and at least we feel that the letters, copies of which we enclose, that we received from these sources contain some worthwhile information. We are truly convinced that all missing men who have not been heard from must surely be prisoners of war and will soon be liberated. We urge those who may be waiting for the good news to have faith and courage - our boys will all return to us before long.

A few weeks ago, our Pittsburgh group had the opportunity of listening to Cedric Foster and asking him some questions. He surely knows the story of the 106th and we are asking him to consider editing a book regarding the experiences our men have had. Do you think this would be a good idea, and would you want a copy of same if published? We enclose a copy of one of Cedric Foster's broadcasts, dealing with our Division. Incidentally, Mr. Foster expects to fly to the Pacific theatre of the war and will undoubtedly have some very interesting information for his listeners.

General Alan W. Jones, who trained our Division and was with it until injured in the Ardennes, is back in the States. His home address is: 3532 Quebec St., N.W., Washington, D. C. We do believe that he would appreciate hearing from the next-of-kin of the men he was so proud of.

If you detect any errors in this list, please advise us so that they may be corrected. It has been almost impossible to answer all of the mail we have received, but we have done our best and will continue.

The cost of preparing and mailing this list with enclosures has been approximately 75¢, so if you care to do so, you may forward stamps or coins to cover.

Perhaps this is the final list that we will publish. We do appreciate the cooperation you have given us in the past and hope that you have received good news. We are very much interested in our Division and will be glad to issue supplements to this list, if they are in order, to the end that all of us can have the most complete data possible with regard to this grand outfit.
