Dear Jim :

Enclosed are copies of some pages that I have just found in my "junk" while cleaning out some stuff. Who knows what else might be lurking in these boxes in my office !!

I have no idea as to where they came from or when, but they look like another mini-goldmine .

They have the Name, Rank and ASN of every KIA that we had in the 30th. Most all of these names are in the Roster, but the addition of a Rank and ASN will be a big addition. But it means going through the whole roster and matching them up. A long and tedious task.

Written in on the right side is the date of death of most of them.

Some of the items did not copy well, and the copy that I have is not much better, so you can just omit these items that are not very legible.

You can keep this copy for your Source File.

Yours in Old Hickory Friendship,

Frank W. Towers
