

Evansville, Ind., Feb. 15 (AP)—
The Hoosier boat-building boom underway at Jeffersonville and Kokomo has spread to Evansville.

Rep. John W. Boehne, Jr., said Saturday the Navy department had authorized him to announce a ship yard would be built here for complete assembly of 300-foot boats.

The type of vessels to be constructed in this Ohio river city was not disclosed. An unlimited number will be built, Rep. Boehne said.

"CAMP ATTERBURY."

(MANY residents of Franklin and Johnson county were considerably upset today because the War Deparement apparently has chosen "Camp Atterbury" as the title of the local army camp.

Few realized that such a figure as Brig. Gen. W. W. Atterbury had existed. Some persons, however, remembered him as the Pennsylvania railroad president. Some remarked that a search of records failed to show that Gen. Atterebury had any military connection except as director of construction of a troop railway in France.

Most of those who were "upset" by the name, however, were persons who had perhaps selfishly hoped the War Department would use their suggestions in deciding on a title for the camp. Naming the camp has been quite a game here recently, with virtually everyone proposing a monicker for the cantonment.

There is one consolation, however, and perhaps the War Department was quite justified in its selection because of this factor:

No one will have an opportunity to say that any town or county near the camp was "favored" by the use of a name reflecting some geographical location. At least, the people of Johnson county have the satisfaction of knowing the camp won't be called "Camp Bartholomew," and the people of Bartholomew county cannot complain that the camp will be called "Camp Johnson" or "Camp Franklin."

As we see it, the War Department averted a nice little "sectional dispute" by its decision to call it "Camp Atterbury."

There is nothing to some of the rumors going the rounds of the workingmen who would like to get jobs on the camp project-the Camp Atterbury project, if you please. Persons close to it there are no age limits for workmen, as has been rather widely gossipped, and no physical examination required, as also talked around. All you have to be is old enough, young enough and physically fit to do a day's work. But neither is there any reason to think that a job on the camp will keep you out of the draft. One of the men connected with a labor organization established at Edinburg said seven carpenters were taken off the job at the Clinton ordnance works the week before last to be inducted into military service.

Churchmen Talk Camp Problems

Rantoul Minister Leads Discussion

CStressing the social relationship between community leaders and army camp officiers, the Rev. Robert Skadden, pastor of the First Baptist church of Rantoul, Ill, discussed with Franklin ministers and church leaders last night problems facing/communities adjacent to army camps and service centers.

camps and service centers.

Meeting at the home of the Rev.
James Whibourn, five Franklin ministers including, Dr. O. Tevis Martin,
Rev. Heward Stone, Rev. Richard
Lentz, and Rev. J. Frank Lansing
heard Rev. Skadden discuss the role
of churches in furnishing army
camp recreation centers and providing housing facilities for parents
visiting the camp area.

Official government reports rank

visiting the camp area.

Official government reports rank. Rantoul, a city originally populated by 1.600 inhesisants and since grown to 5.000, as the best equipped city in the United States to cope with army camp problems. An outstanding leader in Rantoul's army service campaign was Rev. Skadden who was called to Franklin especially to instruct community and church leaders on methods used in handling army camp problems.

Emphasizes City Needs.

Emphasizes City Needs

Emphasizes City Needs
Emphasizing the need of small
church recreation centers to replace
the larger army service headquarters. Rev. Skadden explained how
homesick boys in the camps can become accustomed to the army atmosphere by spending lesiure time
playing ping-pong, shuffleboard,
Chinese checkers, and other games
easily arranged in church basements.

The speaker warned Franklin cit-

The speaker warned Franklin cit-

ments.

The speaker warned Franklin citizens not to become discouraged at the cutset when camp construction workers pour into the city seeking new homes, church, and school facilities. Preliminary preparations for proper housing facilities will seem insignificant as the town mushrooms into a large city.

Rev. Skadden explained a slight difference between conditions existing in Rantoul, which is directly adjacent to Chanute Field, and Franklin, approximately eight miles from the base of Camp Atterbury. Nevertheless, the speaker warned that moral problems within a 20-mile radius of the camp must be methead-on since schleirs are permitted in town without an official weekend leave when the camp is loncated as close as Camp Atterbury will be to Franklin.

VIEWS ON THE NEWS.

In the last few days the Hattiesburg paper has carried a couple of items of significance for as who will soon be living within an area affected by an army camp, although we may not be affected as much as Hattiesburg has been.

One deals with the fact that the January payroll had just been expended. Guess how much it was—\$2,701.000. That included \$225,000 for civilians working for the Government.

The Camp Atterbury payroll may never be that high, but will be well over a million dollars a month when the soldiers move in. What it will be while construction is under way is more or less a guess, but a million a month would be a conservative estimate.

It's no wonder the merchants and bankers in the area are trying to get the payroll staggered so it won't all come at once.

LOCAL GUARDS TO 'STREAMLINE'

38th Division Will Be One of 18 to Be Organized, Says Stimson.

The Columbus national guardsmen will become part of a streamlined division, according to announcement of Secretary of War
Henry F. Stimson that 18 national guard divisions, including the
38th which incorporates personnel
of Columbus' Company C and former Headquarters battery, will be
streamlined. The 38th has been
stationed at Camp Shelby.

Stimson said the 18 divisions
would be shaped into "powerfel,
fast-striking triangular divisions"
as a move to weld the American
Army into the most effective fighting machine possible.

Camp Atterbury, to be located
northwest of Columbus, is designed to house a streamlined division and attached troops.

Streamlining of the national
guard divisions will be followed
in the reorganization along the
same lines of a total of 27 divisions of the organized reserve.

Only Three Regiments.

Reorganization from the old
square to the triangular type division entails a change from two infantry brigades of two regiments
each into a total of three regiments.

"Reorganization of this division
manpower to the triangular orgaization, which was extensively tested and tried during the Louislana
and North Carolina maneuvers last
summer and fall is considered a
natural and logical step toward
welding the army into the most
effective machine possible," Stimson said.

National Guard divisions and
their home states affected by the
order include:

Calls up Reserves.

Thirty-second, Michigan and Wisconsin; 23rd, Illinois; 34th, Iowa,
Minnesota, North and South Dakota; 35th, Nebraska, Kansas and
Missouri; 38th, Kentucky, West
Virginia and Indiana.

At the same time, Stimson called
up for March 25 three divisions of
organized infantry reserves, the
7th, 82nd and 90th—all famed for
their records in World war I. An
executive order authorizing the
summons was signed by President
Roosevelt on Feb. 6.

As it relates to Hoosiers, the
move to triangularize the 18 divisions apparently affects every
former National Guardsman now
in service with the 38th division.
This would inc

Dig On Site Of Hospital Units

(Big 17½-ton tractors of a Chicago excavating firm today had started grading and digging work on the site of hospital buildings in the Camp Atterbury area.

Excavating started in a corn field just off Road 252 on the Middleton estate by the Seward-McDougal-J. G. Lain Co. of Chicago, which has a sub-contract with the Consolidated Construction Co. of the same city.

South of the Johnson county line, clearing of land was begun Friday by the Birmingham Construction Co. of Birmingham, Mich., who has the contract for sewage disposal plant and water supply.

More materials are being unloaded daily and activity has picked up noticeably in the area, particularly around construction firm offices already set up.

ARMY NAMES NEW CAMPS; OUTSTANDING SOLDIERS HONORED

Washington, D. C., Feb. 21—(P).—The army announced today the names chosen for some of its new training camps. Camps designated and their location are:

Camp White, Medford, Ore.; Camp Atterbury, Columbus, Ind.; Camp Gruber, Cookson Hills, Okla.; Camp Carson, Colorado Springs, Colo.; Camp Campbell, Clarksville, Tenn., extending into Kentucky, and Camp Hood, Killeen, Tex.

The names honor:

Maj. Gen. George A. White, late commander of the 41st division. Brig. Gen. William W. Atterbury, director of transportation of the AEF in World war I. Brig. Gen. Edmund L. Gruber, established the field artillery firing center at Fort Sill, Okla. Brig. Gen. Christopher [Kit] Carson, famous Indian scout, hunter, and soldier. Maj. Gen. William B. Campbell, colonel of the Tennessee volunteers in the Mexican war, governor of Tennessee from 1851 to 1855. Confederate General John B. Hood, organized and led the famous Texas brigade in the Civil war.

SOON TO BE IN **DEFENSE AREA**

Local Territory Expected to Be So Designated Within Few Days.

It is only a matter of a few days before the area around Camp Atterbury will be designated officially as a defense area, according to R. Earl Peters, head of the Indiana division of the Federal Housing administration.

Mr. Peters informed Franklin civic leaders Monday that a measure authorizing establishment of a defense area in territory surrounding the camp was now in Washington awaiting the President's signature and that as soon as Mr. Roosevelt signs it, the area will be declared a defense position and thus qualify for federal aid and for a higher position in the priorities graduations.

Whether the area around the new camp will be a special defense area or whether it will be a part of the Indianapolis area is not known.

Usually 25-Mile Radius.

of the Indianapolis area is not known.

Livally 25-Mile Radius.

Defense areas usually are set up in a 25-mile radius of the industries or sites involved in the war or defense program. It is reported that the 25-mile radius from the aumy camp would not be from the outer boundaries of the entire camp territory, but from the cantonment area alone—the part where buildings are to be built and troops concentrated. This 25-mile limit would include Columbus, Franklin, Edinburg, Shelbyville and possibly Indianapolis, but not Seymour, which has petitioned for inclusion in the defense area.

olis, but not Seymour, which has petitioned for inclusion in the defense area.

Meanwhile work on the army camp was going ahead today and Michael Pontarelli of the firm of Pontarelli and Son of Chicago, which has part of Section B of the camp construction, said that his firm planned to get work started within the next few days.

Materials Coming In.

Mr. Pontarelli said some machinery and materials are now in transit to the army camp site. He said his company probably will have around 200 men on the job. The company has the contract on waters and gas distribution, sewers and grading, but the grading work has been subcontracted to another Chicago firm.

Pontarelli and Son bid on Section B along with the Rock Road Construction company of Chicago and the latter company will do the road work under Section B.

Mr. Pontarelli has been staying at the Belvedere hotel here since last Friday.

RENT DIRECTOR TO BE NAMED

OPA to Appoint One in Local Area, Is Word Received Today.

Received Today.

While numerous complaints against increased rents are being made in both Columbus and Franklin, word comes from Indianapolis that a director will be appointed soon in Indianapolis by the Office of Price Administration to fix rents in all defense areas in the state.

So far defense officials in Indiana have not been advised about the methods to be used in fixing rents, but it is certain that special attention will be directed to Columbus, Franklin and Edihurg, owing to their proximity to the new Camp Atterbury.

Members of the Franklin fair rents committee have been swamped with complaints the last few days that rents there are being beosted on a few days' notice and that families have been ordered to vacate at once.

Numerous Complaints Here.
Numerous Complaints Here.
Numerous Complaints also have been made here recently against hiked rents. In some cases rents have been increased \$10 in the last three months. Residents of these properties have been asking that something be done to prevent these increases, which they call unreasonable.

Some companies who are working on the new army camp have

these increases, which they call unreasonable.

Some companies who are working on the new army camp have warned that if rents should become too high in towns surrounding the camp they will build temporary dwellings to house part of their workmen.

As to the federal action to be taken in connection with rent fixing, it is explained that the general plan will be based on a fair rent theory, and that some date in the past will be chosen as the basis for fixing the rents. There may be added to the rent charged on that date increases to care for higher maintenance costs or taxes.

To Define Area First.

Before rents are fixed the OPA is expected to define a defense rents are rents are fixed the OPA is expected to define a defense rental area. There will be a waiting period of 60 days to permit the passage of rent control law by the state or ordinances by the local communities. If this is not done it is expected that the fear of federal action will result in voluntary establishment of fair rent schedules. It has not been decided how the OPA will enforce its orders. It may resort to court injunctions against landlords, triple damage suits by tenants who have been overcharged, or criminal prosecutions.

Day by day the state road past Camp Atterbury shows increasing "Trailer Court" activity. The Edinburg is nearly ready for tenants; the Hartman camp has numerous trailer occupants; trailers are parked along some of the farm houses; and the railroad spur entering the camp between Edinburg and Amity makes the cantonment seem very real. Somehow or other, however, we can't seem to feel the camp connected with "Columbus, ana"-as per all the publicityespecially in view of the tire situation. But, one of these days we may be surprised!

NAMES GIVEN 7 ARMY CAMPS

Atterbury in List of New Training Centers Receiving Titles.

The War department has officially announced the names of seven new army training camps, including the local Camp Atterbury.

Word of the name of the local camp was made known two weeks ago and was confirmed at that time.

The other camps are Camp White, Medford, Ore.; Camp Gruber, Cookson Hills, Okla.; Camp Butner, Durham, N. C.; Camp Carson, Colorado Springs, Col.; Camp Campbell, Clarksville, Tenn., extending into Kentucky, and Camp Hood, Killen, Tex.

Each camp has been named in honor of a distinguished army general officer whose life or record of achievement has been identified with the state in which it is located.

Pennsy Workmen Staying In City

"Special Pullmans" House Crew Of 25

€Between 20 and 25 Pennsylvania railroad employes have been living in "special Pullman" cars strung along a siding in front of the local station the past few days while working on communication lines between Indianapolis and Columbus.

Half a dozen or more bunk and dining cars are on the siding to serve as living quarters for the gang during preparations for the pickup in business expected by the Pennsylvania because of the construction of Camp Atterbury.

Old poles along the communication line which follows the Pennsy right-of-way are being replaced in some instances. Cross-arms are being replaced and other repairs made. Later, additional telegraph wires are expected to be strung to provide extra facilities in view of the boom in business expected shortly when materials begin to arrive in freight shipments of unprecedented size.

The crew of workmen is the same one which was located here during the 1937 flood, when tracks in this county were washed out and other damage done by high water.

Meals are prepared and served at a long table filling one of the cars. Other cars contain bunks and various housing facilities.

COURT AWARDS **NEAR APPRAISAL**

Owners of 25 Martin County Tracts Gain Less Than 50 Cents Acre.

Condemnation suits on 25 tracts of land in Martin county acquired by the government for the Burns City ammunition dump, were tried this week before Judge Robert C. Baltzell in federal district court at Evansville and the owners were awarded a total of 31,412 more for the 2,304 acres involved than had been offered under the government appraisals.

This figures an increase of less

had been offered under the government appraisals.

This figures an increase of less than 50 cents an acre over the prices originally offered the owners on the options. In comparison, judgments awarded by a federal court at New Albany recently for acquisition of land for expansion of the Jefferson Proving grounds ran considerably above the federal appraisals. Out of this increase lawyer fees and minor court costs must be paid by the owners.

The suits are of special interest here because of government acquisition of land for the new Camp Atterbury. Further condemnation proceedings have been recommended against several owners of land on the Atterbury site who have been dissatisfied with appraisal prices set by the government and these cases will go into federal court before Judge Baltzell, unless the owners agree to sell. A number of owners have signed options and their cases are being removed from the condemnation suit.

Awards Near Appraisal. Awards Near Appraisal.

Awards Near Appraisal.

The Burns City condemnation suit was filed last May 28 and originally included 90 tracts of land. Before the case went to trial last week, 54 agreements as to value were made and during the trial 11 additional agreements as to value were made and during the trial 11 additional agreements as to value were made with owners. On the 25 tracts which went to trial, the jury awarded \$55,402 to the owners. The court appraisers had placed a value of \$88,810 on the 25 tracts last November.

The amount sought by the land owners was \$132,144 and the federal appraisal totalled \$53,990.

In each case the land owners filed exceptions. The land owners were represented by Frank Hatfield and Son, Joe Shatfield, attorneys of Evansville. The government altorneys were E. Howard Caughran, U. S. districtly Ewing E. Wright of Osgood, special assistant to the U. Sattorney, Ewing E. Wright of Osgood, special assistant to the U. Sattorney general, and D. James Snodgrass, special attorney, department of Justice.

Although there is reason to expect that some of those demountable houses may be put up in the area surrounding Camp Atterbury, rather doubt that Columbus will get any of them. In view of the tire situation, it is more reasonable to believe they will be put up at Edinburg and such points nearer the camp. However, the city is watching the progress of a prefabricated house, now under construction here, with more than passing interest, and it is likely that if this one stands the test of local conditions, many more of them will be built. The chief difference between the demountable and the prefabricated type is that the demountable house is intended to be put up, then taken down and moved elsewhere, while the prefabricated house is intended to stay where built.

Whether or not it has anything to do with rumors that the camp near here will be a permanent army post, we see that Arlington avenue in Indianapolis will be widened south from Washington street to a point on this side of Beech Grove and connect with Road 31. This will make a direct highway from Fort Harrison past Camp Atterbury to Fort Knox, Ky. Such a military highway has been talked for several years, long before it was known that there might be a post between the Harrison and Knox. Incidentally, it would permit the rapid movement of troops to all other points in Southern Indiana's considerable "arsenal of democracy."

for the car.

Thinks It Unnecessary.

W. T. Barbre, representing the Bartholomew Research institute. local taxpayers organization, informed the councilmen that the taxpayers with whom he had talked were in favor of providing the community with adequate protection but that there was no need for going to the additional expense if it was not needed.

Mr. Barbre said that he had tried to visualize the coming situation, and that he could not see that the city and county would be overrun with new people. Columbus, he said, is 17 miles from the main entrance to the camp. Edinburg: and Franklin are much closer, while Martinsville, Shelbyville and Greenwood are just as near to the entrance as Columbus. The influx of newcomers, in his opinion, will be spread over the several communities and Columbus will not be overly burdened.

He also pointed out that the state police had promised to give the communities all possible police protection during the emergency.

Against Buying Car.

He expressed the opinion that two new full timed deputies for the sheriff's office "is out of the question."

question.

the sheriff's office "is out of the question."

The councilmen expressed themselves as opposing a \$1.100 appropriation for purchase of a new car for the sheriff's office. They were of the belief that the county should provide the sheriff with additional expense money for a car and that he buy his own vehicle.

With regard to the appropriation requests for deputies salaries and salary increases. Mr. Barbre advised the officials of a state tax board opinion setting out that increases could not be made which were not provided for in the 1942 budgets. With regard to the appropriations for new salaries no explanation was given. The state board pointed out that a suit is pending in a court at Wabash to settle the question. The councilmen indicated that they would go ahead and make the appropriations subject to the state board's approvals.

KIWANIS PLANS JOINT MEETING

Books National Authority on Venereal Disease for Monday Night.

The Kiwanis club will hold an inter-club meeting here Monday night with members of the other service clubs, city officials, medical society, superintendent of schools and ministerial association as guests.

The club has also invited the Kiwanis clubs of Shelbyville, Franklin and Greensburg and the Franklin city officials.

Dr. L. E. Burney of Kansas City, considered one of the fore-most authorities in the United States on venereal diseases, will be the speaker.

He will discuss venereal diseases.

The talk is considered timely in view of the large transient population expected to move in on the community during the Camp Atterbury construction and occupation.

Dr. Burney is being sent here through the courtesy of the surgeon general of the U. S. Public Health service in Washington.

POLICE POST AT CAMP PLANNED

State Troopers to Be Quartered Temporarily Near Atterbury.

The Indiana state police are considering establishment of a temporary police post in the vicinty of Camp Atterbury for the duration of the construction period, it was learned here today.

The location under consideration for the post is at the junction of Roads 31 and 252, north of Edinburg.

Lieut, Leo Moore of the state police was here today conferring with Army officials on the matter. Other conferences had been held.

In event the post is established, it is likely that the radio messages from the temporary post will clear through the Columbus police radio system. The city has offered its cooperation to the state police.

Establishment of the state police post at the edge of the camp would mean that this locality would be well fortified for the construction period.

The city of Columbus has added two police patrolmen and the sheriff's office is planning to put on two more full time deputies.

Additional police are being put to work at Edinburg and Franklin.

OLE' MAN MUD PLAGUES CAMP

Work Moves Ahead at Slower Pace—Continue Work on Foundations.

Work was going ahead on Camp Atterbury at a slowed pace today as workers battled mud to start laying of sewer lines and construction of more foundations in the hospital group.

Most of the snow which drifted high on some of the camp roads yesterday had melted today, but the side roads were still treacherous and several trucks were stalled in ditches after trying to miss deep ruts.

Work around the hospital group buildings foundations was being continued, but there was little grading done today, owing to the muddy ground. Water stood in many places and ran in a steady stream from ditches in the hospital site.

A wooden form for one of the abutments to the new bridge to be constructed over Sugar Creek on Road 252, a short distance west of where that road leaves Road 31, was being constructed today. A wooden float has been constructed out into Sugar Creek to facilitate work on the new bridge. The float is anchored with cables to the old iron bridge to the north.

Religious Director to Speak.

Edinburg, March 10—On Wednesday night instead of the usual prayer service at the Christian church, the Rev. H. G. Haney, director of religious work carried on by the Christian churches in all the army camps, will speak in preparation of the local church's work at Camp Atterbury.

The speaker is a former classmate of the Rev. Glenn O. Mills, and members of the Nineveh church have been invited to join in the meeting. The Rev. G. F. Powers also will have a part in the service.

vidual owners.

"Perhaps it's not as nice as having a home on a foundation. but it beats trying to find apartments for your family and try-ing to pay for them while moving around on defense jobs," said one trailer resident, who has been on the road with his family for two years.

Worry About Tires, To some of the men as trailer means that they can afford to take their families with them. Otherwise they would be sep-

arated.

One of their few worries at the present is tire rationing. They don't use the tires on their trailers much, just enough to get from one job to another, but the fact that their homes are dependent on tires makes them a little uneasy.

A number of trailer families include children of school age. Those below high school attend the Taylorsville school, while the older ones are starting in Co-lumbus high school.

The Driftwood camp is one of two trailer camps now housing trailers in southern end of the Atterbury area. The other is the Pruitt camp on the old fairgrounds site at the east edge of Edinburg.

A new camp is being built west of Edinburg on Road 31 by Otis Freese, but does not yet have any trailers. The camp is not entirely completed, but part of it appears ready for occupancy.

HEALTH SET-UP HERE IS PUSHED

District Office Prepares to Handle Problems Arising from Camp.

Dr. John Winebrenner, in charge of the glocal district office of the Indiana state board of health, announced today that his organization is being perfected to handle the public health problems in Bartholomew and five other neighboring counties in the Camp Atterbury

The health office was opened here

The health office was opened here recently to help the local communities in meeting health problems expected to appear during the camp construction and occupation. Public health nurses and school nurses from Bartholomew, Decatur. Brown. Shelby and Jackson counties met with Dr. Winebrenner here Tuesday for a general discussion of the articipated problems. He outlined the problems which had been present in other defense and cantenment areas and explained that similar problems could be expected. similar problems could be expected Columbus Hardly Touched.

here.
Columbus Hardly Touched.
"Franklin and Edinburg already are ercountering problems, while Columbus has scarcely been touched." he said. "As the camp project develops, Columbus will definitely have its health problems. As you know, employment on the project had hardly gotten under way."

Among those attending the meeting here were Mrs. Mabel Bobbit and Mrs. Nellie Strait of Shelby county: Mrs. Irma Flagg, Miss Grace Ewing and Mrs. Rona Whelan of Columbus; Miss Phyllis Parkinson of Jackson county: Mrs. Catherine Lory and Miss Gosborn of Brown county, and Mrs. Hattle Papaka of Decatur county.
Since the opening of the state office in the Bassett building recently, practically all of the time has been devoted to organization work, but Dr. Winebrenner indicated today that definite steps for the protection of public health in this locality were to be taken almost immediately.
Dr. Winebrenner announced the

CONTRACTS ARE REPORTED LET

Four Divisions Awarded is Word-Open Other Bids Today.

Bids Today.

Bids were to be opened today on Section A2 of Camp Atterbury project, the last section to be let through the Corps of Engineers. The bids were to be opened in federal court at Louisville and it was believed that contracts would be let within a few hours, if the low bids were found satisfactory. It was reported here today that contracts on Section A1, which has been divided into four divisions, have been awarded to the low bidders. These bids were opened Thursday at Louisville.

The low bidders were reported as follows: A. W. Kutsche and company of Detroit, division Ala: Thompson Construction company and H. L. Fisher corporation of Albany, N. Y., division, 14b, and Farnell Blair of Decatur, Ga., divisions 1Ac and 1Ad.

Reports on Bids Differ.
Two different sets of figures have been received, here on the other set gave the figure as \$2.084.000. Under the larger figure; the government has saved almost a million dollars by re-advertising for bids on Section A1. If the smaller figure is correct the saving has been almost two million dollars, by the War department.

The figures has not been announced by the War, department and could not be checked officially

today.

May Run \$4,000,000.

If the savings on the four divisions of Section A2 is as great, the War department will be from almost two million to almost four million dollars to the good through its delay in awarding these sections, which represent the most expensive part of the camp contracts.

tracts.

Rain again last night added to the mud in the construction area of Camp Atterbury, but one construction official said today that it was better to have the rain now than later, when the major part of the construction gets under way.

of the construction gets under way.

It is believed now that within the next three or four weeks construction will be booming. By that time the new companies which get the contracts on Sections A1 and A2 will have moved into the camp area.

COUNCIL WILL MEET MONDAY

Is Expected to Authorize Condemnation Action on Wolf Property.

The regular meeting of the city council is scheduled to be held at 7:30 o'clock Monday night at the city hall.

At the meeting the council is expected to decide what action should be taken to acquire a strip of real estate adjoining the city hall, which is sought for the site of a recreation center for Camp Atterbury soldiers.

The property sought is owned by Mike Wolf, who has declined to sell.

The city owns all the property needed with the exception of a small strip across the back of the lot.

It is considered likely that the city council will pass a resolution authorizing the city attorney to institute proceedings to secure the property.

The council is also expected to give further consideration to the proposed ordinance calling for annexation of a large section of land between Twenty-fifth street and the Road 31 by-pass.

Other routine business will be brought up.

WILL GIVE PLAY AS OCD BENEFIT

Little Theater Group to Present 'Melodramer' Here Friday Night.

With proceeds to go to the Recreawith process to go to the Recreation committee of the county Civilian Defense council, the Columbus Little Theater group will present an old-fashioned melodrama Friday night at Crump's theater.

The play is entitled "Pure as the Driven Snow, or A Working Girl's

Turning over of the proceeds to

Driven Snow, or A Working Girl's Secret."

Turning over of the proceeds to the recreation committee, which was formed here recently to handle arrangements for the U. S. O. building to be erected, will be the first local contribution to that organization. The organization is designed to aid in offering recreation and entertainment for the soldiers which will be stationed at Camp Atterbury.

Members of the cast for the play, which is slated to recall early days of the stage and movie house "flickers," was announced today.

The play is being directed by Mrs. John Reynard.

A Villain to Hiss.

The hero and heroine will be Miss Martha Ann Marr as Purity Deane and Robert Cole as Leander Longfellow. The much-hissed villian will be Norman Klayer as Mortimer Frothingham.

The cast also includes Sydney Showalter as John Logan; Miss Marjorie Lewis as Mrs. Zamah Logan; Mrs. Hugh Jones as Mrs.

Hewlitt; Miss Ruth Ritzenthaler as Alison Hewlitt; Mrs. William Lienberger as Imogene Pickens; William Lienberger as E. Z. Pickens; Chadwick Miller as Jed Lunn; Mrs. Ben Kroot as Nellie, the cloak model; Mrs. Fraith Hogue.

Incidental music for the production and between acts will be furnished by an orchestra under the direction of G. Chester Kitzinger.

The Little Theater is being assisted in the ticket sale by the service clubs of the city, including Rotary club. Kiwanis club, Exchange club and Junior Chamber of Commerce.

The lower floor seats will be reserved. The reservations may be made at the St. Denis hotel after 1 o'clock Wednesday afternoon.

FAILS TO ACT ON U.S.O. PROJECT

Council Discusses Center But Fails to Take Definite Move.

At the regular meeting of the city council last night several matters were discussed but definite action was taken.

The councilmen discussed—a some length the steps necessary to acquire a strip of property at the rear of the site of the old fire station on Fifth street, which is sought for the location of a U S. O. recreation center for Camp Atterbury soldiers.

The property sought is owned by Mike Wolf of this city, who has declined to sell.

Officials, however, have given up hope that Mr. Wolf will reconsider and that the matter may be settled without the necessity of condemnation proceedings.

Merchants Approve Site.

The council received a communication from the local Merchants association headed by Clem Thompson, endorsing the Fifth street location as the logical site for the recreation center.

A communication from Dr. John Ferree of the state department of health, approving the sanitary features of the proposed \$350,000 water plant improvement, was read to the council. The state board's approval was given on condition that a ground water supply be used.

The councilmen spent some time discussing the water plant program.

Defer Annexation.

discussing the water plant program.

Defer Annexation.

The north side annexation program was also talked but action was deferred. The council has under consideration an ordinance calling for annexation of an area of approximately 400 acres located between Twenty-fifth street and the Road 31 by-pass.

A petition was received, requesting a street light in the crossalleys between Gilmore and Maple, Twenty-first and Twenty-second streets.

A request was received from the

streets.

A request was received from the King taxi company, seeking authority to cut the curbing and make a driveway at 903 Franklin street.

Several other matters are pending before the city officials, including the removal of the interurban tracks from Washington street, but no final decisions have been made.

HURD MEN FIND FRANKLIN O. K.

Rents and Housing Facilities Satisfactory—Employes to Move There.

Employes of the Charles Hurd firm of architects and engineers on the Camp Atterbury project, which has its company offices in the Franklin armory, find Franklin housing facilities and rents the most satisfactory encounted "in a long time," according to word from that city.

At the present time about half the employes in the Hurd office are commuting between Franklin and Indianapolis each day, while the others are residing in Franklin, Columbus and Edinburg.

Eventually, according to persons connected with the Hurd office, all the employes will be living in Franklin.

ing in Franklin.

The Hurd company had its offices in the Columbus armory during the camp survey last summer and fall and at that time practically all the employes lived in Columbus

Find Fair Rents.

Find Fair Rents.

A spokesman said employes of the Hurd organization have found Franklin's housing conditions above the average and rents generally quite fair.

"The situation with regard to housing facilities and rents is the best we have found anywhere in a long time," the spokesman said.

More employes each week are finding it impractical to drive back and forth between Franklin and Indianapolis, Edinburg and Columbus. As a result, Franklin is becoming the residential headquarters for the majority of the employes, and, eventually, it is believed probable that all except a very few will be living there.

The Hurd company still has no office hours, it seems. According to The Franklin Star, lights often burn late into the night at the armory there. Local persons can recall the many nights the company was burning midnight oil here during its work on the survey job.

PLAN FRANKLIN TRAILER CAMP

Plans are being made for the first trailer camp at Franklin to help handle trailers which move in for the Camp Atterbury construction.

A petition signed by 15 Franklin persons was presented to the city council of that city Tuesday night asking that Mrs. Esther Murphy of Franklin be granted the right to establish a camp, The petition was referred to the city and state health boards for approval.

The site on which Mrs. Murphy would establish a trailer court is a triangular lot in east Franklin, just across the street to the south from the new Franklin high school building.

TRAILERS MAY **GET TIRE HELP**

WPB to Try Wooden Type-Several Can Use Same Tires If Needed.

Where are trailerites going to get new tires for their trailers? 'Tis a knotty question for prac-tically all of the trailer owners who are moving into the Camp Atterbury area. Most figure they will get along, but now the WPB is coming to their aid and is planning experimental rodunds for use on trailers in defense areas.

new trailers are sold without tree. May Pass 'Em Around.

The sax time the trailer residence to the sax time the trailer residence to the sax time the trailer owner to borrow tires from a neighbor trailer owner. That is what some of the men now working on Camp Atterbury have suggested. They've decided that if the next defense project isn't too far away those with tires will move their tires off and bring them back for some trailer owner who doesn't have tires. Then he too can move along to the same defense job.

But it the governments plan works out this won't be necessarily not be necessarily to be not be not

trailer where it was supposed to go.

The trailer housing section of WPB's lumber and building materials division got interested, observed a satisfactory test on a heavily-loaded 7,200-pound trailer, and decided to arrange for an experimental control of the companies, industrial scientists and independent inventors are working to find something to replace rubber tires. It is possible that a rubbriless tire may be devised, WPB says, but outside of the wood-and-steel substitute nothing so far has proved practical.

tical.

Rope tires, asphalt tires, leather tires, fabric tires have been proposed and rejected. Old casings wrapped around new tires have been suggested. Another idea is sections of solid rubber inside casings.

NEW FLAGPOLE IS DEDICATED

C. L. Cummins Speaks at Ceremonies at Ceco Plant.

"We have a job to do and let us remember that every ounce of material and effort wasted is a help to our enemies," C. L. Cumhelp to our enemies." C. L. Cummins, president of Cummins Engine company, told employes in a talk at the flagstaff dedication program at the Fifth street Ceco plant Thursday afternoon.

"If we all do our part, we will end this war much quicker than otherwise," he added.

In his short talk Mr. Cummins pointed out that not since the war days of 1917 and '18 has the American flag meant so much.

pointed out that not since the wardays of 1917 and '18 has the American flag meant so much.

"That flag which you see at
the top of the pole is the only
spark of hope in the eyes of the
civilized world today," he said. "Today it is flying on battlefronts
in various parts of the world.

"Many of our boys who worked here are fighting under that
flag. Many working today will be
on the battlefront fighting under
it tomorrow. And we have a battlefield of our own, right here at
home. Our materials are going to
many fields of battle to help our
armed forces. It is up to us to
give our every effort to help them."

The new flagstaff, located on

The new flagstaff, located on the west side of the main office building at the Cummins plant, was put up through the combined efforts of the Diesel Workers union, Concession fund organization and the company.

The committee in charge of arrangements was composed of Sam Jones, Jeffrey VanNorman and William Fox. Don Miller presided at the program.

Captain W. S. Arrasmith who is here on the Camp Atterbury project officiated for the flag raising, and music was furnished by the Columbus high school band under direction of Russell Goucher.

A large crowd attended the cere-

Another Draft Call In; More Numbers Listed

draftees to be inducted into the publican. Army next month. The men to be taken in this call will be notified by mail within the near future and their names announced by the selective service board.

This call is in addition to the one received recently. The names of men to go in the recent call were announced last Wednesday. The men in this group already have been given their final physical examination by Army doctors and will go directly into the Army.

The men who will go out next month, however, have not been given their final examinations and will receive them on the day of induction. Those rejected will be sent home, while the others will go into the Army.

The local draft calls are being speeded up considerably. Three groups already have been inducted so far this month and a fourth group, those men announced last Wednesday, will leave at the end of the month.

This is All, Folks.

The final group of order numdetermined in Tuesday's drawing are published today. The list is incomplete because some

WELFARE FOLK TALK PROBLEMS

Camp Atterbury Is Topic of District Meeting at Franklin.

Welfare problems expected to arise as a result of the construction of Camp Atterbury were discussed at a meeting held yesterday at Franklin, attended by welfare workers from Bartholomew, Johnson, Brown, Shelby, Morgan and Decatur counties.

Representatives from the various counties explained the problems which have already begun to show up in their respective communities as a result of the camp.

The Bartholomew county welfare department was represented by Mrs. Dorothy Wallace, Miss Imogene Sharpnack, Mrs. Virgil Miller, Paul Lawson, Mrs. Harley Callon, Mrs. Fred Sulton, Mrs. Marlin Stewart, Mrs. Donald Wagner, Mrs. Ward Gossman, Miss Henrietta Pruitt and James Acher.

Topics discussed included housing, trailer camps, child welfare service, recreation, and the relation of the local welfare departments to other active social agencies working within the camp area.

SET TO START LAND BUYING

War Department Believed Ready to Start Negotiating for Rest of Camp.

Plans for War department acquisition of the remainder of the land for Camp Atterbury, the major portion in Bartholomew county, are rapidly taking shape and it appeared today that negotiations for purchase of the land will be started within the next few days.

Start of negotiations will bring some relief to many farmers in the county who are inside the camp boundaries and who have been waiting for the War department to act.

Practically all of the persons in that portion of the condemned 7,200-acre area from which residents are to be out by next Tuesday have moved. Persons on 1,729 acres of the condemned section moved from their homes prior to Feb. 15.

Only seven Bartholomew county tracts, totalling 800 acres, are in the condemned part of the camp and four families are affected by the March 24 moving order. All these families have completed moving arrangements, and almost all homes in the cantonment area now stand vacant. A few farmers are still moving out farm equipment, but for the most part farmyards and barns are empty, gates stand open and rings of straw on the ground indicates where strawstacks once stood.

The four Bartholomew county families affected under the Tuesday date are those of Oscar Snepp, the Rev. Ralph Records, Aubrey Coy and Levi Records.

Churches Invite Construction Men

Hope For Strangers To Join In Worship

♠Edinburgh, March 21. — The three Protestant churches are uniting in an invitation to all workers in Camp Atterbury to attend church on Sunday.

The organ prelude of fifteen minutes of music by Mrs. Ben G. Breeding will precede the morning service at the Presbyterian church.

The scriptural text of the sermon to be given by the Rev. Arthur H. Keeney is taken from Revelation 21, "I Heard a Great Voice Out of Heaven."

The Christian Endeavor and Tuxis groups will meet Sunday evening at 6:30 at the church. The congregational meeting will be held Wednesday evening, April 1, and all departments are asked to get 1eports in order. The mid-week prayer service will be held Wednesday at 7:30 and the lesson will concern "The Death of Jesus Christ."

The Christian church will begin a week of prayer services Sunday, March 22, and everyone is invited to attend. The service Sunday will be the sixth in a series of pre-Easter sermons by the Rev. Glenn O. Mills, and the subject of the morning sermon is, "Christ's Testament of Love." The mixed choir will sing by special request, "My Task," by Ashford, under the direction of Mrs. Owen Breeding.

The Rev. G. J. Pickett, who will open a week of nightly sermons, will address the senior congregation of the Methodist church at 10:30 and his subject is, "The Touch of Christ, or the Secret of His Presence." Miss Mary Woodsides has prepared an interesting message for the junior church. The evening services will begin promptly each evening at 7:30 o'clock.

GROUP TOURS SOCIAL CENTER

5 from Here Attend Camp Recreational Meeting in Indianapolis.

Five representatives of Columbus attended the Camp Atterbury recreational meeting yesterday in Indianapolis, during which the problems of serving the soldiers who will be stationed at the camp were discussed.

Those from here who attended the meeting, which was held in the Army, Navy and Marine Service Men's club in Indianapolis, were Mayor Fred C. Owens, A. E. Schumaker, the Rev. W. F. Badgett, Walter E. Simmen and Aaron Tross.

Representatives also were present from Indianapolis, Franklin and Edinburg. The group was shown through the club and the activities were explained. The meeting started at 5 o'clock and was followed by lunch served at the club.

Speakers included Gen. Robert H. Tyndall, director of the Marion county Civilian Defense council, and Capt. Joseph Lovett, representing the special service at Fort Hayes, Columbus, Ohio.

Carpenter Strike Rumor Given No Credence In City

Lower-Than-Scale Wage Reported As Potential Irritant

Chere were no reports or rumors in Prankin today of an impending strike in the Camp Atterbury area by carpenters among the 2,000 ormore workmen employed in rush construction of the \$31,000,000 Army cantonment.

From Columbus came a rumor of prospects of a work stoppage, but J. E. Moore, business agent of the carpenters' union there, emphatically denied it Sunday

No one in Franklin connected officially or unofficially with the camp project had heard anything about a potential strike, a checkup re-

The rumor said that the strike might come about because only one contracting firm in the area is paying the \$1.42½ cents an hour carpenter union scale. The others were respected to be saying \$1.30.

Expect Many Workmen.
Meanwhile, Franklin made plans
play host to dozens of additional
orkmen as the A. F. Biair conruction firm of Decatur, Ga., got
t to start large-scale work on conruction of 500 or more barracks.

Additional rooms, apartments and houses are being sought for the expected influx this week or early next week-expected to be by far the heaviest influx of the construction period thus far Blair plans to hire between 7,000 and 10,000 men at the peak of construction. A large effice building of frame construction is being completed for the Blair time on the Erake schoolhouse road on the peak of the second property of the Blair time on the Erake schoolhouse road on the Erake schoolhouse road

The Birmingham Construction Co. has work well under way on the sewage disposal plant south of the Johnson county line on the old Levi Records farm. Morris Prosser, Franklin excavating crntractor, is closing a considerable amount of excavating work in preparation for construction of trickling filters.

Pipe Water Acros

The water supply system asso is taking form, with construction and excavating activities visible east of Road 31 and a short distance north of Edinburgh. Water is to be piped under Road 31 flowing west to the cantonment area.

Barricading of roads leading into the construction area did not materialize until Sunday morning, but guards and barricades were stationed in time to prevent a flow of sightseer traffic through the area, thus avoiding a slowdown in work particularly in the hospital area

It could **not** be established toda just how the area engineers ha arranged for essential traffic to be admitted to the area.

Prepare to Move 500 Graves from Camp Site

Plans for removing approximately 500 bodies from cemeteries in the cantonment area of Camp Atterbury were announced today by John R. Walsh, project manager.

Mr. Walsh said approval of the site for a new cemetery for all the bodies had been received to-day from Col. Henry Hutchings, Jr., district engineer at Louisville, and now waited only final court approval.

The new cemetery site consists of approximately seven acres and is located on the land of Nate Wells just outside the camp area about two miles north of Edinburg. The tract lies on the south side of a public lane leading to the Barnett camp from Road 31 and is about one-fourth of a mile west of Road 31.

The new site is across the lane from the Freeman cemetery and will be just as wide as the Freeman cemetery.

To Copy Original Lay Out.

Bodies in the cantonment area, the part now condemned, will be moved to the new cemetery. Each cemetery from which the graves are moved will be laid out in the new cemetery, with the graves in exactly the same relation as in the

original cemetery, Mr. Walsh said.

He also explained that the War department will bear all costs connected with re-interment. He

Plans for removing approximate-said that in each case the stone ly 500 bodies from cemeteries in marker, and all ornaments will be the cantonment area of Camp moved to the new site.

He also explained that persons who wish to re-bury bodies taken from the cemeteries inside the cantonment area in a cemetery beside the planned site may do so, but must pay the cost of moving and burial. The War department will pay for taking the body out of the ground in either case.

Persons who wish to move bodies to other cemeteries than the one prepared by the government should contact the real estate department at the Columbus arm-

Those who wish to be present at the time the bodies are exhumed from the cemeteries and at the time of burial in the new cemetery may do so, Mr. Walsh said.

Five Burial Sites Affected.
Graves in five burial sites in the cantonment area will be moved. These sites are the Pisgah Methodist church cemetery, which contains the bodies of two Revolutionary war soldiers; the Harriett Creek Burial association cemetery northwest of the Pisgah Christian church; the Knapp cemetery on Road 252; five graves on the Ira Prichard property north of Road 252 and one body in the Prichard

GUARD PLAN FOR CAMP IS SET UP

Local War Veterans and Others Experienced May Apply for Positions.

War department officials are rapidly getting the guard organization set up for Camp Atterbury, but more guards are needed and local men who have the necessary qualifications may apply for the jobs through the Corps of Engineers office at the Columbus arm-

The roads into the cantonment area have been closed and guards stationed at the barricades. Persons who have jobs in the area and others who must enter from time to time are being given passes.

Men who wish to apply guards must be between 20 and 55 years of age (veterans excepted), must be of sound health, must be at least five feet, eight inches tall (veterans excepted) and well proportioned.

Must Know Use of Guns.

They must show that they are experienced in use of small arms weapons. This experience might be attained in an organized police department, in the Army, Navy, Mapartment, in the Army, Navy, Marine Corps, Coast Guard, National Guard, which required regular target practice or actual service use of small arms weapons.

At least two years' experience as

a guard or related position which required guarding or protection of life or property also will qualify persons for the camp guard posi-

Also needed are officers of the guard. These men must have had experience in supervising guard work.

The positions are under civil service rules and regulations, but

are temporary.

CAMP WORKER IS HURT SERIOUSLY

It from Tractor.

Earl Ritchey of Indianapolis, 39, was injured last weekend in the second serious accident on the Camp Atterbury construction project.

Ritchey, an employe of the Consolidated Construction company, which is building the hospital unit, was injured whiue unhooking a truck from a caterpillar tractor on the road leading east from the Grover Hughes farm inside the camp area.

As he unhooked the tractor, the truck began to move and rolled completely over his body. The wheels passed over his hips and fractured his pelvis.

He was taken in a Franklin ambulance to St. Vincent hospital in Indianapolis.

In the first major accident on the camp project, a worker for the Calumet Paving company was killed while employed on construction of the railroad spur.

BUS SERVICE TO CAMP IS SOUGHT

Merchants Seek Transportation for Workers and Soldiers.

A movement to obtain bus service between Camp Atterbury and Columbus was inaugurated yesterday afternoon at a meeting of the Columbus Merchants association division of the Chamber of Commerce, held at the Chamber.

A committee headed by C. J. Cerney, manager of the Montgomery Ward store, was appointed to investigate the possibilities for getting the service, and the group went to work at once.

Other members of the transportation committee are
Frazee, Jr., of Gause cafe;
Schumaker of Coca Cola Bottling
company; Philip (Sap) Essex of
the Columbus Bar; and Harley
Lockman of the Indiana
Rail-

The committee will meet at 5:30 o'clock this afternoon to draft plans for obtaining the service. Service Already Needed.

It was pointed out that bus service to the camp is already needed, and that the need will increase after it is completed and occupied by the soldiers. Accordoccupied by the soldiers. According to reports reaching the committee, this has been the experience around other army camps. At the present time there is Greyhound and Suburban line service, but the only stop made is in Edinburg.

transportation will welcome suggestions with regard to the camp bus service and will assist any reliable concern or individual who is interested in procuring the necessary franchises, Mr. Cerney pointed out.

Apartments Full, Only Rooms Left

Couples Turned Away By Chamber Secretary

The first major rush for room, apartment and house accommodations in Franklin is under way this week, and added to the request for living quarters is a plea for board in the homes where rooms are taken, the Chamber of Commerce reported today.

ported today.

After weeks of slow movement of construction workers and contractor employes for Camp Atterbury into this city as temporary residents, the speed accelerated this week with the arrival of the A. F. Blair company of Decatur. Ga., which has the biggest contract of the construction setup.

Though work has barely started among the Blair employes, the demand for living accommodations has spurted sharply, and Fred C. Lockwood, secretary of the Greater Franklin Chamber of Commerce, reports a heavy rush.

Tuesday, by actual count, 15 couples seeking apartments or houses were turned away by the Chamber secretary because he had no more houses or apartments on his list. Some of the couples are believed to have found recently vacated quarters or apartments not listed on the Chamber rolls.

The demand for room and board is growing, also. Foremen are asking the Chamber for lists of available rooms with beard for groups of 20 or 25 men working in squads or divisions of the construction project.

From figures in the C. of C. office, it would appear there are plenty of rooms left but few, if any, apartments cr houses. The Chamber listed 826 rooms, 597 of them in Franklin and the remainder elsewhere over the county. Of the Franklin rooms, 464 are left—at least, landlords who listed them have not had the rooms taken off the roll.

Twenty-six houses and apartments already have been rented through the C. of C. service, Mr Lockwood said.

MAN BURIED AT KANSAS

Edinburg, Mar. 25.—Burial of Howard Louis Lee, 51, who died Saturday at his home in Indianapolis, was made yesterday afternoon in the Kansas cemetery, southwest of here. Rites were conducted at the J. C. Wilson mortuary in Indianapolis at 1 o'clock. A brief service was held at the grave.

The deceased was born in Shelby county and spent his early life in this community. For 30 years he had resided in Indianapolis, He was a fireman on the New York Central railroad and belonged to the Brotherhood of Firemen and Enginemen who conducted services on Monday morning.

Beside the widow, survivors are his mother, Mrs. Addah Lee; a daughter, Mrs. Mary L. Clark; four sisters Miss Nora Lee, Mrs. Grace Berry, Mrs. Thelma Baskerville and Mrs. Hazel Blackhern, and a grandson.

5 THEATERS IN PLANS OF CAMP

Field House, Club Rooms and Other Facilities to Be Built.

soldiers who move Camp Atterbury will not lack for entertainment, athletics or recrea-

As now planned, the camp will include four medium-sized theaters, a large theater, field house, club rooms and social centers.

The War department has not re-

vealed information on the size of the theaters, but the usual medium-sized theaters at the newer-Army camps seat as many as 1,000 per-sons. The Army camp theaters are equipped with the latest type film projectors and sound equipment, and timely pictures are shown. Two complete shows are usually

presented each night and there are matinees on Sundays and legal

matinees on Sundays and legal holidays.

Field House 181 by 133.

Price of admission to the camp theaters is normally 20 cents for adults, but the soldiers are offered special coupon books, which bring the cost of admission down to around 14 cents. There is no federal amusement tax on the camp theaters.

theaters.

The field house, or sports arena, which will be constructed by the Farnell Blair company, will be 181 feet by 133 feet and will have a suspended roof. It will be big enough for all types of sports events and may be used for other

events and may be used for other type gatherings.

The club rooms and social cen-ters will be spread over the can-tonment area. In addition each camp section will have space for sports facilities such as horse shoe pitching courts and baseball dia-monds. monds.

There also will be chapels (churches) throughout the camp area. Five chapels were included in the original plans for Section A1 and a like number is believed planned in Section A2.

SHOWERS MAY FALL TONIGHT

After almost a week of fair weather, which has speeded construction on the Camp Atterbury project, brought bikes onto streets in droves and given most all a touch of spring fever, the weatherman forecast, showers and thunderstorms for tonight.

However, the warm weather is slated to continue.

The mercury at 1 o'clock this afternoon stood at 73 degrees in the shade, the same as yesterday's high. The low last night was 35.

The coolest day since last Saturday—the first day of spring—was Sunday, with a high of 58. The highest temperature recorded since last fall was 78 on March 16.

400 MORE PUT But Threatening Skies Prevent Further Expansion-Rural Housing Fills Up. An estimated 400 more mer have been put to work this week on the Camp Atterbury construction job, but cloudy skies today and drops of rain threatened to cause another slow-up in, the project. The influx of construction workers has slowed down again during the last two days, although many still are trickling mins to come once the read of the first two days of the week. Harry Hartman, owner of Driftwood camp, now has all 14 of his cottages rented and 32 trailers in camp. "I could have rented 50 cottages Sunday if 17d had them," Mr. Hartman said today. The Pruitt trailer camp in the old fairgrounds site at the east side of Edinburg has 39 trailers and there are five trailers parked along the seast side of Edinburg has 39 trailers and there are five trailers parked along the seast side of Food 31 at Edinburg has 50 trailers parked along the seast side of Edinburg as 30 trailers and there are five trailers parked along the seast side of Edinburg has 50 trailers parked along the seast side of Food 31 at Edinburg that the best side of Edinburg are trailed with the seast side of Edinburg and the Prefer Living fout. Freefer Hiving fout. Many of the construction workers prefer living in cottages or summer camps rather to staying in rooms in towns, owing to the hot weather to come. As a result many of the river camps in the vicinity of Edinburg are rapidly filling with camp workers. Franklin has found, as has Columbus, that the big demand for living quarters at the result of the camp workers don't want to pay the rent being asked in Edinburg. The average rent for a sleeping room in Edinburg is reported the rent being asked in Edinburg residents think they had better get as much rent as they can because as one resident put it, "They're going to tear this town up." "Iney're going to continue." It begins to look as if he might be right. Streets are being pounded by the big trucks, the quitting hour traffic is a problem, the parking situation is none too good and still the rush has only started. Several man were being called to started. Several men were being called to work through the union offices at Edinburg today, but most of them were working previously and had been laid off. All the new men being called at the carpenters union office were from neighboring towns, office were from neighboring towns, blooming Columbus, Shelboville, Bloomington and Indianapolis locals. eals. (Continued from page 1.)

the carpenters and common laborers union offices and the A. Farnell Blair employment office, waiting for calls, to work. The Blair company is setting up its new big construction office inside the camp area and a telephone switchboard is being installed.

Hospital Buildings Sided.

Concrete block sides of several of the hospital group buildings have been put up and the buildings are ready for roofs. These large buildings are being built by the Consolidated Construction company which hired a number of additional men this week.

There has been no further information revealed on the differences in the carpenters' pay on the camp project, but two of the companies are paying \$1.42½ an hour. These companies are the Consolidated and the Birmingham Contracting company, which is building the sewage disposal plant and water supply system. The floors of two of the large trickling filters for the sewage plant have been poured and forms started for the sides.

The railroad tracks for the spur into the camp area have been laid on towards Sugar Creek west of Road 252 and the field just west of Road 31 where the tracks cross has been prepared for putting in switches.

Several of the camp construction companies are having photographs of their workers taken for identification in getting in and out of the camp area, but for the most part men are now entering on their own company badges.

the camp is no longer needed the camp area might be resold by the government.

According to testimony revealed today in a record of hearings released by a House committee in Washington, this would not be possible without special legislation by Congress.

The record, covering testimony on the sixth supplemental national defense appropriation bill for fiscal 1942, showed that the question of whether the land might go back into private cultivation was raised by Rep. Louis Ludlow (D-Ind) in connection with a "new Terre Haute project."

J. Edward Williams, acting head of the lands division of the Department of Justice, told Ludlow the titles obtained by the government in buying land for camp sites are full titles and contain no clauses authorizing reconveyance.

Williams said he understood a bill was being drawn to provide that the land "can be reconveyed at not less than the price paid by the United States, plus any enhancement to it which might be caused by the erection of improvements."

Water Supply Satisfactory.

The Camp Atterbury water supply, being used by the workers on the camp construction job, is now satisfactory for temporary use, Dr. John E. Winebrenner, head of the local district office of the Indiana State Board of Health, said today.

The water supply, however, is not adequate for present construction needs and as the camp's permanent water supply system will not be completed until later a number of new wells are being drilled to supply the construction workers.

The water supply is one of the major problems connected with the camp construction, as adequate water must be provided for an estimated 15,000 to 20,000 workers to be employed on the campmore water than needed for the city of Columbus—as well as water to be used for mixing concrete and in other construction.

Companies Haul Water. During the time the well water supply was being made safe for

CAMP JOB FAILS, MAN ENDS LIFE

Orleans War Veteran Takes
Poison After Trying to
Get Work Here.

Funeral services were held yesterday at Orleans for Willard Brown, 46-year-old World war veteran, who, despondent because he could not obtain work Monday at Camp Atterbury, ended his life by taking poison.

After having told the driver of a Charlestown-Seymour bus on which he was riding, and Seymour city police, that he had taken the poison Brown became violently ill and died at 3 a. m. Tuesday at Schneck Memorial hospital in Seymour, 15 minutes after his admission.

Deputy Coroner S. F. Tower, following an inquest conducted early Tuesday morning, returned a verdict of suicide. The body was removed to Orleans.

Mr. Brown, a native of Seymour, where he had lived until he was

Mr. Brown, a native of Seymour, where he had lived until he was leight years old, told police he was discouraged because, he was out of work and unable to get a job at Charlestown, where he had gone six times in futile attempts to secure employment.

He told them he had borrowed a truck and had driven to Columbus and Edinburg, Monday, in an effort to get work at the new Army camp. Unsuccessful, he drove back to Seymour and left the truck, purchasing a round-trip ticket on the bus line to Charlestown.

The man had ridden to Charlestown in the bus and then boarded it on the return trip. He took the poison while returning to Seymour.

ZACHARY MEETS WITH OFFICIALS

Confers With Mayor and Defense Director on Building Site.

James Zachary of the federal recreation facilities administration paid a visit to Columbus this afternoon, to check on the progress being made by the city in procuring a site for a U. S. O. recreation building for the soldiers of Camp Atterbury.

Mr. Zachary was in conference this afternoon with Mayor Fred C. Owens and Marion H. Amick, Bartholomew county civilian defense director.

The city has not completed negotiations or plans for acquiring the rear section of the lot on Fifth street adjoining the city hall, which is owned by Mike Wolf.

Mr. Zachary stated that plans for the construction of recreation centers at Edinburg and Franklin, which will also be for the use of Camp Atterbury soldiers, are progressing.

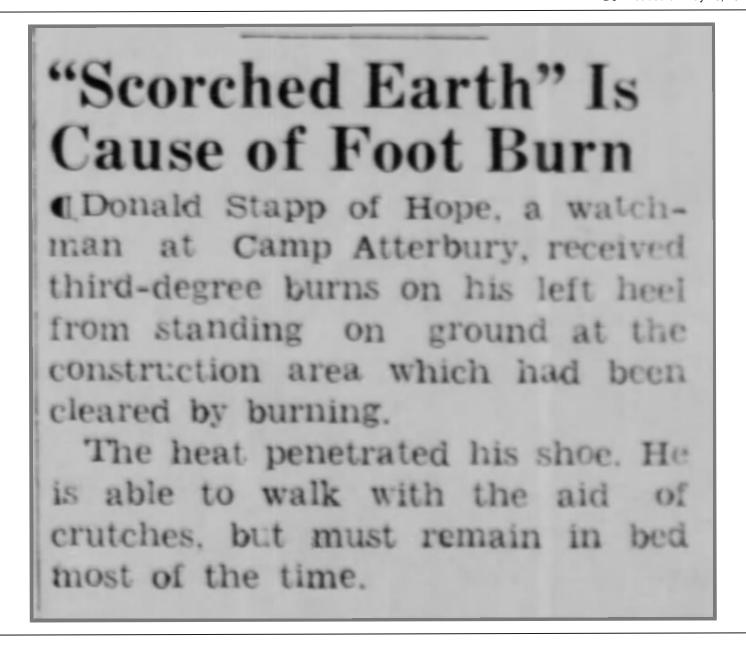

Both communities have agreed to provide building sites and their applications for buildings are reported going through the federal channels.

Congress May Act to Revert Camp Land to Crops After War Is Over

Congress may be asked to adopt legislation authorizing reconveyance of land bought by the government for military camp sites back into private hands for agricultural purposes after the war, it developed today

There is no existing legislation making such a move possible, according to a record of hearing released by a House committee in Washington vesterday

Rep. Louis Ludlow, Indiana Demback for private cultivation purfor it was past.

Rep. Ludlow was told that the titles obtained by the government 70,000 acres of farmland "almost as in buying land for camp sites are full titles and contain no clauses authorizing reconveyance.

Want Old Homes Back

The developments were of particmany other persons have raised the question as to whether land for Camp Atterbury will remain idle as the property of the government after the need for army camps is gone. Many farmers who have vacated or are to vacate the area have secret hopes of getting their old places of the land for war food production back some day.

Rep. Ludlow was told by J. Edceratic congressman, raised the ward Williams, acting head of the question in connection with a Hoos- lands division of the Department of ier defense project, apparently hav- Justice, that he understood a bill ing been the recipient of queries was being drawn to provide that from voters in his district who won- the land "can be reconveyed at not dered if they might have their land less than the price paid by the United States, plus any enhanceposes after the government's need ment to it which might be caused by the erection of improvements."

Ludlow had asserted that some fertile as land in the valley of the Nile" is being taken in Indiana for defense projects. He said that to some people it is a matter beyond comprehension why the governular interests in Johnson county be- ment would take very fertile land cause virtually every farmer and producing prize farm crops when sub-marginal land was available at one-fifth the cost.

> landowners in Johnson county the surveyed area for Camp Atterbury registered protests at the start of the survey, pointing to the value purposes, but to no avail.

Priority Ratings Only For Housing Defense Workers

Area Designation Not To Open Doors To All Types Of Structures

Designation of Franklin and the rea around Camp Atterbury as a lefense area does not open the door o high priorities ratings for all types of construction and remodel-

Priorities assistance will be given only those builders and remodelers who definitely plan to use the ir housing facilities to aid in the habillitation of defense workers and those connected with the army camp, it developed in a talk with attaches of the Indianapolis office of the Federal Housing Administration following receipt of a letter from the National Housing Agency in Washimton disclosing the news that this ron disclosing the news that this

A builder or remodeler is "out of luck" if he wants to do the work for himself or his own family. Priorities assistance goes only to those who conscientiously intend to build rental housing units or remodel presently established homes into living quarters for construction workers and cann attacks.

Meeting To Explain.

However, it has been learned that a number of local builders have in mind projects which would alleviate to some extent the housing shortage, and it is considered probable that many will be able to qualify for priorties on building materials.

In order to give builders, financiers and contractors a detailed picture of what may be obtained, representatives of the FHA. headed in this state by R. Earl Peters, are planning to come to Pranklin for a meeting at which the program possibilities will be explained in full

The meeting was requested by The Evening Star as a means of getting the housing programs rolling in, the face of a critical need, what with all available houses and apartments filled and a generous demand for living facilities growing day by day.

No Elaborate Buildings

It is nery that oreferbe nousing, however, will be somewhat restricted from a standpoint of elaboration or ornamentation. Word corness that an order from the Federal Works Administration for Middle West defense areas provides that public works construction will consist only of materials absolutely necessary in building.

Though it apparently affects public works construction only, the FWA order eliminates plastering and leaves heating and plumbing pipe work exposed as a means of cutting down the cost and the quantity of material used.

Though houses in this defenue area will doubtless be built in accordance with zoning ordinances building codes and State Board of Health requirements, it is logical 'c assume that they will be quite plair and unadorned and that they will be built strictly along lines of necessity.

Mauxferry Opens Again To Traffic Drainage Pipe Work Closed It On Friday Replacements of drainage pipes bridge construction, and preliminary road widening measures are features of a \$30,000 federal aid project in connection with improvement of the Mauxferry road south of Franklin as an "access highway" to the Camp Atterbury area which r is in a process of construction now. county surveyor Lowell Griffin explained today. Franklin, Needham, and Nineveh tewnship residents who found the Mauxferry route closed to traffic day. The county surveyor explained that drainage pipe replacements near the Ed Pierce farm forced road engineers to enforce detours. Also the Pennsylvania Railroad has advanced construction of a spur through the camp area and for sev-

vanced construction of a spurthrough the camp area and for several days now traffic on the Mauxferry road has been detoured a
short distance from the camp entrance around by route 31.

Approximately 70 men are working daily to prepare the old road for
a blacktop resurfacing which is
scheduled to begin not earlier than
May 15. Mr. Griffin cited a state
highway specification which fermerly required all county roads built
with government funds and in addition all state roads constructed
partly by county work crews to be
resurfaced not earlier than May 15
since the blacktop tar hardens too
fast during the early spring months,
making it difficult for highway
workers to get a smooth job completed.

workers to get a smooth job completed.

Mr. Griffin announced simultaneously that tar patchwork on county roads and the Mauxferry route will start Tuesday in preparation for the May date which will find construction crews ready to complete resurfacing.

With the Camp Atterbury boundaries finally fixed. Mr. Griffin pointed out that the county will probably resurface a short two mile strip of county highway connecting the east Nineveh and Mauxferry roads. At first the county was reluctant to make any improvements near the camp area, but now that a luctant to make any improvements near the camp area, but now that a final survey has been completed by Army engineers, all county routes outside the area will be improved to some extent. Mr. Griffin stated.

Camp Influx Comes in Week end Waves; Business Pickup Becomes Evident.

up Becomes Evident.

The influx of construction workers for the Camp Atterbury job has lagged during the last few days, but another rush is expected this weekend.

A number of trucks, reported to have been enroute here from Camp Chaffee, Ark., for the A. Farnell Blair company, are said to have been held up, but are expected within the next few days. Many workers from the Camp Chaffee project also are expected here within a short time.

Each weekend and the first two days of the week more prospective camp workers drift in, but by the end of the week those who are staying have found places to live, while many have returned to their homes or gone on, planning to come back later.

Edinburg Housing Acute.

While room inquiries here have dropped off, the housing situation at Edinburg steadily becomes more acute. Many persons there who formerly rented homes or apartments have been forced to buy property because they cannot afford to pay the high rents being asked.

Some downtown stores sites which have been vacant, are being turned into sleeping quarters. Edinburg restaurant owners also are having trouble preparing enough food for the construction workers and often run out before the crowds are taken care of.

Restaurants in both Columbus and Franklin have experienced increases in business during recent days. A number of construction workers take their lunch buckets to restaurants and have them filled so that they can eat their noon meal on the construction site.

The rain and cold weather brought work to almost a standstill yesterday on many parts of

The rain and cold weather brought work to almost a stand-still yesterday on many parts of the camp construction. It also resulted in a number of workers getting their cars stuck in the mud.

mud.

Some left their stalled cars at the camp and rode to town with others who were lucky enough to have parked on harder ground.

NINEVEH TO LAUNCH APRIL FARM BUREAU

The April scries of eight Farm Bureau meetings will be launched Wednesday night at Union Christian church when the Nineveh organization, now combined with Blue River township, will convene.

Blue River township recently abandoned its Bureau unit, consolidating with Nineveh because the Camp Atterbury evacuation order removed not only a large number of members from the township, but also forced vacation of the Pisgah church, meeting place for many years of the Blue River group.

Mrs. Paul Flinn of the Triple-A office here will be a speaker at the meeting, and motion pictures on soil conservation will be shown.

MAKE NO BONES.

CDOWN in Hattiesburg, Miss. they make no bones about the vice conditions prevailing because of Camp Shelby. The Hattiesburg American, daily newspaper serving that area, prints frequent stories on the situation, The latest is a writeup of a meeting of the Hattiesburg Community Council, which recently adopted resolutions calling attention to the prevalence of vice in that neighborhood and urging county law enforcement officers to help rid the county of prostitutes, whiskey dealers and gambling games.

Whether Hattiesburg citizens started their campaign against vice too late in the game, or whether they fought against it before it got a firm foothold and were unsuccessful in their efforts is not known. At any rate, the conditions there are described by none less than the prosecuting attorney as "bad." When a prosecuting attorney confesses for publication that the conditions are "bad." they must be bad.

The prosecutor was quoted as saying that vice conditions in Hattiesburg are bad but that he, as prosecutor, cannot make out search warrants and make arrests. He promised to do his part as a law enforcement officer if citizens will furnish information and if the proper county officials will make the arrests.

Franklin people have been talking about recent references to the possibility of vice conditions being "bad" here with the advent of Camp Atterbury. Some think the problem is being over-emphasized, that the expected conditions just won't materialize.

Better overemphasize than underestimate. Then, if the condition fails to materialize, nothing will have been lost. But if we minimize the danger of the situation now, much can be lost if and when the thing strikes.

If we're going to make detailed preparations for air raids, emergency fire-fighting and civilian first-aid, we must make as careful—if not more careful—preparations for combatting vice conditions. For vice will come with the army camp, regardless of how much we reassure ourselves that the soldiers will be just like "our own boys." And we're faced with the possibility of vice in our community to a much greater degree than air raids.

Urges Makeshift "Defense Busses"

School Transports Suggested In Crisis

Four possibilities for transportation of defense workers, including a suggestion for converting school busses into passenger coaches, was proposed today by the Indiana State Chamber of Commerce.

The proposal, which would affect the Camp Atterbury transportation situation along with situations at other defense projects and industries, was suggested in a special bulletin.

The bulletin proposed use of passenger cars owned by workers on a "share expense" plan; conversion of passenger cars into busses; increase in licensed busses, and use of school busse,

The bulletin expresed the opinion that the best prospect now appears to lie in the use of traditional busses and staggered shifts.

Thus far in the Camp Atterbury construction work, the transportation problem has not been a serious one, but it is expected to increase with the passing of time and the boost in employment.

Most workers now employed on the cantonment site drive their own cars or have arrangements with fellow workers to ride to and from the job each day.

It was reported that about 700 autos containing construction workers went past guards at the area barricades each day last week.

Asks to Run Busses to Camp, Shelby and Back

Petition for operation of a bus line from Columbus to the Army camp and neighboring towns has been filed with the Public Service commission at Indianapolis by Ar-thur Givens, local truck operator, and a hearing will be held in the near future.

Arthur Givens Files Petition
With Public Service
Commission.

Petition for operation of a bus

WAR WARES ARE

been filed with the Public Service commission at Indianapolis by Arthur Givens, local truck operator, and a hearing will be held in the near future.

The petition was filed after Columbus merchants at a recent meeting took steps toward getting a bus line started from here to Camp Atterbury.

The proposed Givens route, which would be operated as the Given Bus Lines, runs over Road 31 from Columbus to the campentrance, thence to Franklin and on Road 44 to Shelbyville, south through Hope on Road 9 to the Road 46 junction and then west into Columbus on Road 46.

Tenporary Permits Issued.
Mr. Givens said today he was making plans for obtaining busses, but that the schedule would have to be worked out later and would depend on the working shifts at the camp.
Two temporary permits already have been issued for bus lines in connection with the camp. These have been issued for bus lines in connection with the camp. These have been issued for bus lines in connection with the camp. These have been issued for bus lines in connection with the camp. These have been issued to Ray I. Allen, operating between Martinsville and Edinburg over Road 322, through the camp area, and Wilson-Kidewell, Inc., of Seymour operating and the camp entrances.

The Martinsville-Edinburg line, operating as the Camp Atterbury bus line, started its service last Monday, running a regular rounditrip schedule between the two towns and the camp.

School Busses Suggested.
The Indiana State Chamber of Commerce yesterday in a speciabulletin listed four possibilities for meeting the transportation problem of defense workers in key defense areas of the state.

These problem of defense workers in key defense areas of the state.

These possibilities include conversion of school busses into possibilities for meeting the transportation problem of defense workers in key defense areas of the state.

Prepare to Move 500 Graves from Camp Site

ly 500 bodies from cemeteries in marker, and all ornaments will be the cantonment area of Camp Atterbury were announced today by John R. Walsh, project manager.

Mr. Walsh said approval of the site for a new cemetery for all the bodies had been received today from Col. Henry Hutchings, Jr., district engineer at Louisville, and now waited only final court approval.

The new cemetery site consists of approximately seven acres and is located on the land of Nate Wells just outside the camp area about two miles north of Edinburg. The tract lies on the south side of a public lane leading to the Barnett camp from Road 31 and is about one-fourth of a mile west of Road 31.

The new site is across the lane from the Freeman cemetery and will be just as wide as the Freeman cemetery.

To Copy Original Lay Out.

Bodies in the cantonment area, the part now condemned, will be moved to the new cemetery. Each cemetery from which the graves are moved will be laid out in the new cemetery, with the graves in exactly the same relation as in the original cemetery, Mr. Walsh said. He also explained that the War department will bear all costs connected with re-interment.

Plans for removing approximate- said that in each case the stone moved to the new site.

He also explained that persons who wish to re-bury bodies taken from the cemeteries inside the cantonment area in a cemetery beside the planned site may do so, but must pay the cost of moving and burial. The War department will pay for taking the body out of the ground in either case.

Persons who wish to move bodies to other cemeteries than the one prepared by the government should contact the real estate department at the Columbus armory.

Those who wish to be present at the time the bodies are exhumed from the cemeteries and at the time of burial in the new cemetery may do so, Mr. Walsh

Five Burial Sites Affected.

Graves in five burial sites in the cantonment area will be moved. These sites are the Pisgan Methodist church cemetery, which contains the bodies of two Revolutionary war soldiers; the Harriett Creek Burial association cemetery morthwest of the Pisgah Christian church; the Knapp cemetery on Road 252; five graves on the Ira Prichard property north of Road 252 and one body in the Prichard

Extra Allotment Eases Local Tire Situation

The truck tire situation in Co- tubes for trucks of the lumbus and Bartholomew county is going to be relieved to a considerable extent as the result of an additional allotment awarded this locality by the state rationing board.

The county rationing board today received notification of the following truck and passenger car tire and tube quotas for the month of fleet of trucks on the camp job

Passenger cars-23 tires, 69 tubes and 115 retreads.

Trucks and busses-74 tires, tubes and 67 retreads.

The above figures are about the same as the March allotment. However the board was notified of an additional allotment of 40 truck tires and 15 passenger car fires, to be used in filling requests which could not be handled in March.

Gets Allotment for Blair. "With these additional tires it will be possible for us to fill the requests of most of the eligible applicants," remarked A. W. Goshorn, member of the board.

of an allotment of 150 tires and allotment just received.

Blair company, one of the large contractors on the Camp Atterbury project. Issuance of purchase certificates for the Blair tires constitutes a big job and will be handled by the local board.

The Blair firm is using a large

No Word On Defense Workers. Although press releases have indicated that the passenger car retreads would be for defense workers as well as those who could qualify under the existing regulations, the local rationing board has received no such instructions.

The April passenger car ment for the county includes 115 retreads. If workers in defense industries and on defense projects are made eligible, as the press releases have indicated, the local board will doubtless have a run of new applicants in the near future.

The rationing board was working at top speed today issuing tire The local board was also notified purchase certificates under the new

WORKER INFLUX IS UP A LITTLE

But Increase Not as Big as Last Week-2,200 Now at Work.

The worker influx for the Camp Atterbury project picked up some the first three days of this week, but has not been as heavy as that of the previous week.

Requests for rooms have not been as numerous as at the first part of last week, although many are still seeking houses and apartments to rent through the offices of the Columbus Chamber of Commerce.

Persons who have apartments, houses or light housekeeping rooms to rent may list these with the Chamber offices.

The influx at Franklin and Edinand Lordon and Lordon

2,200 Now Employed.

It is estimated that approximately 2,200 persons are now employed on the camp project, including those at work on construction, surveys and doing clerical work.

B. A. Poole, chief sanitary engineer, and Dr. George Brother, both of the central office of the state board of health, were in Columbus yesterday and met with War department officials at the armory, concerning housing conditions in connection with the camp

Edinburg is pretty well alled up with camp workers, but room-forrent signs are still being displayed.
Shelbyville also is opening its
doors to the construction workers
and expects to be aided in sharing
the camp boom through the bus
line which is slated to run from Columbus to Franklin and Shelby-

ville.

A recent ad in The Edinburg
Courier read: "Rooms for rent, One
hundred single rooms with bath \$4
per week and up." Those interested were advised to call a Shelbyville telephone number.

WPA GRANT FOR CAMP IS MADE

VanNuys Announces \$378,-787 Set Aside for Atterbury Improvements.

Senator VanNuys of Indiana announced today in Washington that President Roosevelt has approved a WPA grant of \$378,787 for improving facilities, buildings and grounds at Camp Atterbury.

There was no immediate information available here this afternoon on the grant, but part of the funds will be used for maintenance of roads in the camp area.

It recently was announced that the WPA would be employed at defense projects in the state, improving grounds and buildings, and that WPA camps might be erected at certain defense projects. However, there has been no public announcement on plans for a WPA camp at Atterbury, although there have been reports that a CCC camp might be established in the camp area. CCC workers have been assisting in clearing the cantonment area and in doing some of the salvage work, such as removing fences.

Says 30,000 Soldiers To Be in Atterbury

Another Army spokesman, whose identity remains a secret, has placed the number of troops to be housed at Camp Atterbury at approximately 30,000.

Recently an officer from Fort Hayes, Columbus, Ohio, told an U. S. O. meeting at Indianapolis that approximately 29,000 troops would be moved into the camp. The more recent spokesman, who set the figure at 30,000, ad-

dressed the Rotary club at Greensburg this week and discussed civic problems to arise at Greensburg as a result of the cantonment.

At the personal request of the speaker, his identity was withheld from publication in the Greensburg Daily News' account of his speech. The paper, in a special editor's note, explained that it was withholding the officer's name "for military reasons."

Tank Destroyer Units.

The speaker said one triangular division and awilliary, forces total

division and auxiliary forces totalling around 30,000 men would be moved into the new camp. It will be an infantry division, he said, with tank destroyer battalions, which, when each basic training schedule is completed will give the Army another 25,000 finished troops, packing three times the fire

power of World War 1 divisions.

He declared that when the tremendous influx of camp workers and others comes it not only will create a serious housing, police, hospital and amusement problem in the immediate Columbus area but is is one which every community within a radius of one hun-dred miles will be called on to assist in solving. The same condi-tions will hold true when the camp is finished and the "soldier factory" goes into full "produc-tion," the speaker said.

Thousands on Leave. He urged Greensburg city offi-cials, civic organizations and individuals to cooperate with government in the handling

(Continued from page 1.)

these men in the interest of the nation's welfare.

During camp leaves, he said, thousands of men will be turned loose on 24 and 48 hour leaves to find diversion from the "humdrum" of the army camp in surrounding cities and towns. These men, the speaker said, are no different from those in civilian life except that they wear the uniform of the United States Army. They will not necessarily merit special courtesies but the morale of the men will be built up if citizens of the community give them consideration.

It would be a fine thing, the speaker said, if citizens would make it a point to make the acquaintance of the men in uniform and, perhaps, invite them to their homes for a dinner or a few hours of social recreation. Civic groups could cooperate in this respect by having the men in the ranks and some of the official personnel as guests at occasional dinners and parties.

No Higher Price to Be Offered, Say Land Buyers

the Bartholomew county area to be purchased for Camp Atterbury that a second land appraisal will be made if persons refuse to sign options was denied today by John R. Walsh, project manager.

Mr. Walsh said that the offer now being made to the land owners is the one and only offer that will be made.

He declared that negotiations are moving ahead satisfactorily, but that some landowners have been of the opinion that they would be offered a second price if they refused to sign an option the first time they are contacted.

Some speculation has resulted from the fact that at the present time there is a group of appraisers working in the Johnson county area of the camp. However, it is understood that these men have been employed by the Department of Justice and are making preparations to appear as witnesses for the government in the forthcoming condemnation trial in the Indianapolis division of federal court for the Southern district of Indi-

View Condemned Land. The land which these men are viewing is that included in the condemned section of the camp,

A rumor being circulated through, which consists of the cantonment area, and is that of persons who have not signed options. This land will be included in the forthcoming condemnation trials.

> It is expected that some of the cases will come up for trial early next fall.

> In a statement today concerning the re-appraisal rumors, Mr. Walsh explained the court procedure followed in handling the land acquisition. He said that if the owner rejects the present offer the Land Acquisition office is forced to recommend that condemnation proceedings be filed. If such action is taken, Judge Robert C. Baltzell of the U.S. district court is required to appoint commissioners to review the land and make a report to the court at the time of the trial on condemnation.

> > Final Action Soon.

The figures arrived at by the commissioners are not given to the landowners and they will not be given an opportunity to accept these figures, unless they are ruled, as a result of the trial, to be the fair purchase price.

It is expected that within the next few days the final declaration of taking on the cantonment

(Continued on page two.)

(Continued from page 1.)

area, already condemned, will be filed in federal district court at Indianapolis and at that time payment will be turned over to the court by the War department for at least a percentage of the value of the land taken by condemnation. Of this money paid into court, the landowner, if his title is good, can draw a part. The amount of this part is determined by the court and generally has been from 50 to 75 percent in other land acquisition cases. However, in some instances it has run as high as 90 percent.

Fewer Owners Call.
Negotiations for purchase of the Bartholomew camp land south of the Kansas road and including the town of Kansas have been in progress now for a little more than a week.

The number of people calling at the armory to talk with negotiators has decreased the last few days and part of the negotiators have started contacting the landowners at their homes. Many of those who called at the office at the start of negotiations asked for time in which to decide whether or not to sign options and these people are now being contacted by the land negotiators.

As yet no suit has been filed for acquisition of the Bartholomew county area, but it is believed likely that within a short time a condemnation suit will be filed in district court against all land in the camp area, except that already in condemnation.

GOTTA SHINE

Odd Camp Job is Cleaning Windows — 400,000 Panes in Blair Section.

Another odd job in the Camp Atterbury project is the cleaning of windows.

As the barracks and other buildings are erected the new window panes must be scraped clear of paint and stickers and washed.

One man who is attempting to obtain a contract for this work from the A. Farnell Blair company, which will build about three-fourths of the barracks, estimates that there will be about 400,000 panes to be cleaned in the Blair section of the project.

This window cleaner is from Philadelphia and had a contract with Blair at Camp Chaffee. He hires his own men and puts them to work cleaning the windows as fast as the buildings go up.

fast as the buildings go up.
On one camp job, his outfit cleaned more than 1,000,000 panes.

"That's 4 million corners that have to be dug into and the paint gotten off the panes," he explained.

Asked if it isn't hard to estimate the cost of such a contract he was quick to reply, "Yes, I lost \$4,000 one job, because the men only worked about half as fast as I'd figured."

Asked To Accept 4-Party Service

Phone Firm Appeals To Edinburgh Folk

Edinburgh, April 2. — New telephone subscribers here are being asked to accept four-party service because of recent War Production rulings to conserve scarce materials.

Fred Preston, manager of the local Indiana Bell Telephone Company branch, said the WPB requires phone firms to employ party line service in the event materials can be conserved by so doing.

The WPB order also prohibits replacement of wall and desk type phones with other types of phones and prohibits installation of extension phones in residences.

"New training camps, such as Camp Atterbury in this area, are requiring telephone facilities and equipment." Mr. Preston announced. "The use of four-party service instead of an individual line by new subscribers will help make the facilities available go as far as possible to provide service for those who need it."

MORE CHECKS ARRIVE HERE

Camp Landowners Will Be-Contacted in Order They Signed Options.

More government checks for payment of landowners in the condemned section of Camp Atterbury have been received by the real estate department at the Columbus armory.

Owing to the large number of checks, Ralph W. Fraker, closing agent, said today that the checks would be delivered as nearly as possible in the order in which the options were signed.

Mr. Fraker said that the individual landowners whose checks have arrived will be contacted as soon as the real estate department can arrange for closing the deals. He asked that persons not call at the armory concerning the checks until they are contacted.

The closing details for payment of owners of land in Johnson county will be handled through the courthouse at Franklin, while those in this county will be handled through the local courthouse.

May Shift Camp Mail Center To Franklin Office

Edinburgh's Postal Facilities Not Up To Greater Volume

CBecause facilities at the Edinburgh post office are being described as imadequate to handle the greatly increased volume of mail, it was reported here teday that Franklin's post office soon will become receiving and dispatching head-quarters for the majority of letters and packages to and from

Space requirements are limited and the personnel of the Edinburgh office is inadequate to take care of the volume at present, though the number of workmen and the number of contractor offices are still

With ample room in its fouryear-old building, the Franklin post office is in a position to take care of the increased mail volume, although it would be necessary to hire additional clerks

At present, volume of mail coming into and going out of Franklin is noticeably higher because of the increased population and the establishment of headquarters for various firms connected with the army

No Leisure Time Now Thirty-tive or forty sacks of mailsexclusive of packages, is a normal one-day recept here now. In the past, clerks at the post office had things rather leisurely except during certain rush hours and at the Christmas seaon. Now, however, it keeps all them on the jump most of the time while they are on duty in order to keep the situation junder control

The Franklin post office now has 21 regular employes, including city and rural carriers, with three extras used part time. This is the largest force of clerks and employes ever on duty here

Incidentally, it was learned the postal receipts here have doubled during approximately the eight years Henry E. White has been postmaster, indicating the expansion and growth of population and industry here in that period.

Franklin is a second-class post office and a considerable liberease in receipts would be necessary to advance it to a first-class sposition. There had been hopes that it might be boosted to first-class rating when the soldiers arrived at Camp Atterbury, but this bubble suddenly was burst Tuesday when the Post Office Department announced members of

fective yesterday.

Thirty thousand men in Camp

Rail Traffic Soars as Camp Materials Roll in

Traffic on the Indianapolis-Louisville line of the Pennsylvania railroad is moving toward an alltime peak as carloads of materials for Camp Atterbury roll in, adding to the increased traffic of troop trains and war plant production.

Many carloads of freight, made up of materials and machinery, have been unloaded at the camp siding, Edinburg and Franklin since work on the project started two months ago. The shipments, however, are still far below the expected peak.

One railroad official commented that material "is coming in like rain."

Seventy carloads of freight were reported received for the camp in one day.

Through Edinburg by Truck.

Most of the freight is shipped to the camp siding or to Edin-

Traffic on the Indianapolis-Louis-burg, from where it rolls through lie line of the Pennsylvania rail-Edinburg streets by truck out to ad is moving toward an all-the cantonment area.

The heavy machinery is unloaded at Franklin because it cannot safely pass over the iron bridge across Sugar Creek on Road 252. This bridge is being replaced with a new structure.

The big increase in freight is causing the Pennsylvania line to increase its rail facilities and a rail-laying unit is working on a 10-mile stretch south of Seymour at present, replacing the 100-pound per foot rails with 131 pound rails.

The track from Seymour to Rockford is of the 131-pound type and original plans called for use of this weight track all the way between Indianapolis and Louisville. However, owing to uncertainties of materials it may not be possible to complete the strengthening project immediately.

TO OPEN GRAVE REMOVAL BIDS

Proposals to Be Received Tomorrow at Louisville Engineers' Office.

Bids on the work of moving approximately 500 bodies from five cemeteries in part of the Camp Atterbury area will be opened at 10 o'clock tomorrow morning at Louisville and the work of moving the bodies is slated to get under way within five days after letting of bids.

The bodies will be moved to the new cemetery site obtained by the War department in a large field adjacent to the Freeman cemetery on the west side of Road 31, north of Edinburg.

New burial vaults will be required for each body and grave markers, tombstones and monuments will be transferred to the new cemetery, with each of the old cemeteries retaining its identity in the new cemetery. In the case of unmarked graves, which are not identified, special markers will be erected and labeled, "Unidentified Body."

Most of the cemeteries to be moved have not been used for many years. In many the vaults have collapsed and the graves sunk, Tombstones and markers have been removed, broken or stolen. Weeds have grown up in the cemeteries and graves have levelled off until it is almost impossible to tell where the burials have been made.

Fences 'Frozen'

The government late last night "froze" sale of all salvaged fencing in the cantonment area of Camp Atterbury, according to announcement made today by Charles W. Long, assistant project manager.

Mr. Long said that the order banned further sale of the fencing, which has been much sought after, owing to scarcity of new fencing. It is presumed that the government plans to use the fencing itself or plans to sell it later at auction.

One house which is in the way of construction is still for sale and there are several outbuildings available, but no more garages.

Persons who wish to buy the remaining salvage properties may contact Mr. Long at the Columbus armory.

More Landowners To Be Paid Soon For Camp Acres

Checks Received As Plans Are Made To Record More Deeds

Il Though several weeks have elaposed inice the real estate department of the Camp Atterbury project record-dithree deeds and paid three Johnson county landowners for the first topperty to be actually purchased by the government, it was indicated oddsy that more deeds may be filled at the local recorder's office next week.

More government checks for payment of landowners have been reserved, according to word from Columbus, and are expected to be delivered in the order in which options

A rumor that a second land appraisal will be made if persons refuse to sign options was denied at Columbus by John Walsh, project manager, who said that the offer now being made to land owners is the one and only offer that will be made.

Speculation has resulted from the fact that at present a group of appraisers is working in the Johnson county area. It is understood, how-ever, that they are employed by the Department of Justice to make preparations to appear as witnesses to the government in the fortification of the government in the fortification of the proper section of the proper section of the property of t

Trailer Influx Continues.

Meanwhile, the initius of workers on the construction project continues, with more trailers moving in every day. There are 43 trailers at the Elmer Pruitt camp just east of Edinburgh, and many children there are attending the Mt. Auburn school, northeast of Edinburgh. Children from the Drift-wood trailer camp on Road 31, south of Edinburgh, are attending the Taylorsville school.

A large amount of salvage material in the Army camp construction area, including seven houses, has been sold and rapidly being cleared out of the area. Only property which is in the way of construction is being sold at present. A number of larger homes not in the way of proposed buildings will be remodeled and used as officers' homes.

Freliminary work where barracks and other structures will be erected is almost completed and large-scale and other structures will be erected is almost completed and large-scale short time. Great quantities of material have been rolling in. Warm weather the past few days has asided construction work and has specule up employment. TRANSPORTATION PROBLEM. Greensburg News.

If Greensburg is to be of any service to Camp Atterbury—is to help out in housing, in furnishing any labor or help in any way—the very first thing it needs is some means of transportation.

This city is about 30 miles from this camp and might help to meet some of its needs.

After the camp is occupied, in the opinion of one speaker, soldiers on leave will visit Greensburg and other nearby cities seeking recreation and amusement, diversion from their duties.

This, too, would furnish a bus line with additional passengers.

COUNCIL WILL MEET TONIGHT

Consideration to Be Given Proposal for Removal of Traction Line.

Regular meetings of the city council and board of public works and safety will be held tonight at the city hall.

One of the principal items of business at the council session will be a discussion of the proposition of the Indiana Railroad company relative to removal of the traction line inside the city.

The railroad has offered to give the city the steel rails, copper and other materials to be salvaged, if the city will remove the line and resurface the streets.

At tonight's meeting the council is scheduled to pass a resolution agreeing to furnish a site for the Camp Atterbury recreation center in Columbus.

Members of the council asserted several weeks ago that they would provide a site but it was never made a matter of record.

Negotiations for securing a piece of property owned by Mike Wolf to the rear of the Fifth street location formerly occupied by Fire Station No. 1 are still in progress.

The Fifth street site has been approved by the local recreation committee for the U.S.O. center.

PLAN TO START ROAD PROJECT

WPA Intends to Put 50 to Work This Week at Camp Atterbury.

Plans are going forward to get the WPA road building project at Camp Atterbury under way this week if possible.

Don C. Dennis, WPA engineer out of the Indianapolis office, spent yesterday in Columbus checking the labor situation, pre-paratory to assignment of men to the camp project.

Work in the \$378.000 WPA proj-

Work in the \$378,000 WPA proj-Work in the \$378.000 WPA project will consist of the reconstruction of roads within the camp area which are not to be built under War department contracts.

The WPA will also do work on the camp feeder roads located on the Johnson county side of the project.

"We intend to start with about 50 men on the project, but how large the force will ultimately become is difficult to predict," Dennis asserted, explaining that there was a tremendous amount of work to be done.

From Several Counties.

From Several Counties.

In forming a nucleus staff for the start of the project, workers are to be transferred from county projects in the vicinity of the camp. This will probably necessitate the securing of men not only from Bartholomew county, but also from Johnson, Decatur, Shelby and others close by.

At the present time there are only 100 men working on WPA projects in the county. Sixty are on the city projects and 40 on the county road projects.

Projects in other counties are reported to be short-handed and it is indicated that some difficulty may be encountered in getting ample help for the camp work. Although the demand on local projects may be heavy for the camp work, the WPA is hopeful of keeping the local projects active as far as is possible.

The Rock Road Construction company of Chicago has the contract with the War department for the building of the principal roads in the cantonment area,

MORE TRAILERS ARE MOVING IN

Hartman's Camp Turned into Village of 350 Population.

The trailers are coming into the Driftwood camp of Mr. and Mrs. Harry Hartman so thick and fast that they've momentarily lost count of them.

Harry Hartman so thick and assistant they've momentarily lost count of them.

Mrs. Hartman said today that she was getting them all on the register as fast as possible and that she guessed 'there are about 100 now.' There were 60 trailers at the camp last Thursday and since, then they have come in five and six a day. Three arrived in one 10-minute period last night and five more this morning.

In addition, all 14 of the cabins at the camp, which is located on Road 31 north of Columbus, are full, with two families living in some of the larger ones, Five tents also have been pitched in the camp by workers who will 'rough it' dusing the Camp Atterbury construction period. The camp has been turned into a regular little town, with an estimated population of 350 persons. Mr. and Mrs. Hartman are not just sure now many more they can handle, but are positive they couldn't do all the work connected with the camp now if it weren't that the residents of the trailers pitch in and help.

The trailers also are rolling into the Pruitt camp just east of Edinburg and that spot has become a regular suburb of Edinburg, with approximately 150 persons living three.

There are more than 50 trailers in the camp there. There are an av-

regular suburb of Edinburg, with approximately 150 persons living there.

There are more than 50 trailers in the camp there. There are an average of three persons to a trailer, but one of the houses on wheels is the home of a family of five, including three children, the oldest of which is 16.

Thes trailers come from all parts of the middlewest and all the southern states are represented.

Trailers For Sale.

And there will be more trailers, if the trailer salesmen have their way. Trailers for sale line Road 31 in the vicinity of Edinburg. Some of the salesmen believe that after falling to find apartments or light housekeeping rooms in the area around the camp, many of the workers with families will be interested in trailers.

Also on display along Road 31 at Edinburg is a portable house, especially designed for defense project workers. This house can be moved on a truck and its sponsors advertise that it can be assembled by two men in two hours.

The house is 16 by 8 feet, and consists of 10 sections. Additional sections also can be bought and added, making as many rooms as desired.

INDIANAPOLIS TO FETE SOLDIERS

10,000 from Camp Atterbury Expected to Visit Capital Each Weekend.

Indianapolis is mapping plans to care for its share of the soldiers who are expected to roll into town each weekend from Camp Atterbury.

The capital city will have to gear itself to entertain more than 10,000 soldiers from Camp Atterbury each weekend, starting in August, Mrs. Dorothy Buschmann, director of the Service Men's club, told the Indianapolis City Recreation department staff yesterday.

A meeting at Indianapolis, at-

tended by Weaver W. Pangborn, field representative of the national recreation association, was held to arrange for a new system of entertaining service men-the use of

community centers.

Explaining the effect of the influx of men from Camp Atterbury, in addition to the several hundred from Fort Harrison and the Indianapolis Naval armory, Mrs. Buschmann said Indianapolis will have to support the program.

She cited the need of churches

organizing entertainment, hotels donating dance floors and mass dances being arranged in the streets.

She suggested that the community centers organize cadette units with the centers themselves servas auxiliary service men's ing clubs.

OFFICIALS WAR ON WILD WOMEN

Allyne Lothery Is in Court Today on Prostitution Charge.

With local authorities continuing their campaign of cracking down on prostitutes as soon as they arrive in Columbus, a second woman was sentenced in court here today.

Mrs. Allyne Lothery. 21, of Horse Cave, Ky., pleaded guilty to a charge of being a common prostitute when arraigned before Judge George W. Long in circuit court this afternoon.

On her plea she was fined \$5 and costs, amounting to \$15 and was sentenced to 30 days in the Woman's prison.

Judge Long suspended the sentence during good behavior when the woman announced her intentions of returning to Kentucky and remaining there.

On Monday Mrs. Blanch Wheeler was given a 108 day sentence in city court on charges of intoxication and public indecency. She was taken to the woman's prison at Indianapolis yesterday.

Heflen's Camp to House Camp Atterbury Workers

Heflen's camp, well-known Bartholomew county river resort for many years, has given way to the defense program.

Carl Heflen, proprietor of the camp, revealed today that the establishment will not operate as a resort this summer. Instead, the cabins will be used by company workers on the Camp Atterbury construction project.

Two companies already placed a number of their workers in the camp and have hired carpenters to fix the cabins so that they will be comfortable during the cool weather.

Chance to Do Bit.

"With so many workers looking for places for their families, it seemed that Heflen's had a chance to do its part in the defense program," Mr. Heflen said.

The A. Farnell Blair construction company and the McDonald engineering firm have moved some of their workers into the camp.

number of years as a resort, to job with them.

with dances twice a week. When the boundaries for the camp were fixed Heflen's was included, but it was taken out in the last reduction of the area.

Driftwood camp also is out of the resort picture for this summer as it is now the site of the biggest trailer camp in the Atterbury area.

May Not Run Golf Course.

Harry Hartman, proprietor of the camp, is undecided as yet whether he will operate his golf course this summer, but doubts if it will be possible, owing to the large amount of work necessary to take care of the trailer camp.

The problem of housing is still causing considerable among the Atterbury contractors, owing to a shortage of apartments, light housekeeping rooms and vacant houses.

Most of the companies' permanent personnel, as well as many of the ordinary camp workers, The camp has been operated for have families who travel from job

REPORT RUN ON RUBBERS

Edinburg, April 10—Since the rain of the last few days, Edinburg merchants are almost deluged by Camp Atterbury workmen buying boots, overshoes and artics to keep their feet dry. Raincoats, umbrellas and water repellent clothing also have fast disappeared from the shelves of local stores.

Merchants who have for the last few years, due to mild and snowless winters, had an oversupply of rubber footwear, are becoming anxious about next winter's supply, since now is the time to place orders for that line and they are reminded that they are limited to dozens now, whereas heretofore they bought hundreds.

Most of the construction work on the camp has been halted because of the rain and mud, and the eating places and stores have been filled with the restless men. This morning some of the crews resumed their work.

CAMP RATION BOARD SET UP

Big Load Will Be Taken Off Bartholomew and Johnson County Groups.

A special rationing board to serve Camp Atterbury contractors has been established in the cantonment area of the camp and will take a big load off the local rationing board. Representatives of the various companies were elected to the board at a meeting held at Franklin.

The new board, designed to relieve the amount of work on Bartholomew and Johnson county rationing boards and to prevent subtraction of tires and tubes from the quotas based on those counties' normal populations, will be located with headquarters at the A. Farnell Blair company offices on the construction site.

At the meeting, Mr. Lain of the I. G. Lain company; Mr. New of O'Driscoll & Grove, Inc., and Mr. Condiff of the Blair firm were elected to the newly created board, which will handle tires for contractors in the camp area.

Had Been Handled Here.
Previous to setting up of the new camp board, the Bartholomew county rationing board had handled applications for 134 tires for the camp area and a new application for 100 more tires was received recently.

Special rationing boards previ-

Special rationing boards previously had been established at the Kingsbury, Burns City and Wabash River ordnance projects.

Individuals working on the construction project are expected to get certificates from the tire boards in their home communities, but contractors will be able to apply through the new special board for essential rubber for their motor vehicles.

SEEK TIRES FOR CAMP WORKERS

Board Takes Steps Toward Getting Retreads for Those on Job.

Steps toward putting the new ration board for Camp Atterbury into action have been taken and information is being sought on how many retread tires will be available for cars of construction work-

The ration board was set up this week to take the tire rationing load off boards in Bartholomew and Johnson counties.

All companies on the camp project have been asked to determine as nearly as possible the number of retreated tires now needed by their workers for transportation as well as the number of new tires needed for construction equipment.

May Get Retreads,
Under the tire ration system set
up by the federal government, defense workers will be rationed retreaded tires and many working on
the Camp Atterbury project are expected to ask for retreads before the
camp job is completed.

The transportation of camp workers has been one of the major problems connected with employment, but it is believed that issuing of retreads and setting up of bus lines into the camp area will solve the problem.

I. G. Lain of the I. G. Lain company, which is employed on the camp project, went to Indianapolis yesterday with information of the number of tires needed by camp companies. He is a member of the camp ration board.

Nearly Convinced It's Defense Area

Columbus Gets Word From Paul V. McNutt

€Columbus is just about ready to believe it actually is now in a defense area.

Paul V. McNutt, federal securities administrator, has informed Marion H. Amick, chairman of the Bartholomew county defense committee, that the report is true.

A week ago, Representative Earl Wilson of the Ninth district broke the news to Columbus, just one week after Franklin had been informed by the administrator of the National Housing Agency that this city and other territory in the area surrounding Camp Atterbury were designated defense areas.

McNutt's letter to Amick indicated that James D. Blandford, the National Housing Agency administrator, had made the designation on March 14.

McNutt commented that "this action should greatly facilitate solution of a problem basis to the many aspects of health and welfare in which we are interested." The letter advised Amick to contact D. E. Mackelmann. National Housing Agency. 4th floor. Union Bank of Commerce Building, Cleveland, O., who "will be able to advise you in detail how this designation will benefit Columbus."

5 GET CHECKS FOR CAMP LAND

\$33,162 Is Paid for 322.39 Acres and Improvements in Johnson County.

Five more checks have been paid to landowners who signed options for acquisition of their property for Camp Atterbury and the deeds have been filed in Johnson county recorder's office.

The checks totalled \$33,162 and were distributed among five owners of 322.39 acres of land in Nineveh and Blue River townships of Johnson county.

Ralph Fraker, closing agent for the land acquisition department, completed the transactions with the property owners. Three checks were delivered to property owners in the cantonment area several weeks ago and those delivered yesterday were the first since that time.

time.

A number of other checks have been received by the land department at the Columbus armory and will be delivered as quickly as possible, Mr. Fraker said.

Largest Check \$16,809.

The largest check delivered this week was for \$16,809 and went to Loring L. Hinshaw for a tract of 172,12 acres in Nineveh township, Johnson county. He has been employed recently as a government land appraiser.

Second largest check went to

land appraiser.

Second largest check went to
Harriett M. Solenberg, now of Shelby county, whose check for \$8,566
was in payment for 89,42 acres of
Blue River township land. Mrs. Solenberg, a widow, lived until recentty on her farm along Road 252 between Nineveh and Edinburg.

Another substantial check was

tween Nineveh and Edinburg.

Another substantial check was that which went to William A. and Lottie Russell of Shelby county, near Edinburg, who received \$5,087 in payment for 56 acres of land in Nineveh township.

Two small plots represented the remaining transactions. A check for \$1,500 went to Effie A. and Roy Yoder for two acres of Nineveh township land. This represented \$750 an acre, but the land contained improvements. A check for \$1,200 was given to Joseph E. and Ruby Carter for 2.85 acres of Nineveh township land which also had improvements on it.

More Tracts Are Converted To U.S.

3 Parcels Owned By Same Couple

Deeds were recorded, negotiations completed and checks handed over by the government today at the Johnson county court house for three additional tracts of land in the Camp Atterbury area.

Total amount of money Nvolved in the transaction was \$2,648, all of which went to Mr. and Mrs. Lewis E. Runshe of Edinburgh. Mrs. Runshe was formerly Miss Edna Dragoo.

The Runshes received checks for \$1,173 for five acres of land in one tract; \$1,075 for 13.46 acres in another tract, and \$400 for a small strip of land 14 rods wide in the third tract.

The checks were turned over by Ralph Fraker of Columbus, attorney engaged in closing deals between landowners and the government in the Army camp area.

The recording of deeds boosted to eight the number of tracts in Johnson county which are now fully the property of the government and for which payment has been made in full.

Previously, three tracts were recorded several weeks ago, and on Wednesday and Thursday of last week an additional five tracts were deeded to the government. A sum of approximately \$50,000 already has been expanded for local land in the eight tracts.

PLAN PROGRAM FOR SOLDIERS

The young people of 14 Christian churches in Johnson county are making plans for socials and entertainment for the soldiers to be stationed at Camp Atterbury.

A 4-point project, submitted by the Rev. Burdette Charles of the Union church and adopted by the youth group, calls for parties for men in the service, transportation of soldiers to churches, a drive for good movies and a campaign to erect billboard signs urging church attendance.

Adopting the name, "The Christian Youth Fellowship of Johnson County," the young folk have elected officers and plan to hold frequent meetings in the future.

To complete the organization, a cabinet will be formed with the officers as a nucleus and the other members to be chosen on the basis of one representative from each of the 14 churches in the county of the Disciples denomination.

Basement Is Among Rooms Rented in Edinburgh Influx

CEdinburgh, April 15.—Two hundred rooms, four cabins, three houses and one basement have been rented to newcomers here through the housing bureau established and operated since the Camp Atterbury construction influx began by the Business & Professional Women's club.

The information was divulged in a report given Monday evening at a B. & P. W. meeting by Miss Marjorie Mutz, who reported the organization has functioned successfully thus far.

Mrs. Clarence Henderson reported to the club that 1,759 cards were filled out in the recent civilian defense registration in Edinburgh. There were 422 residents who signified that they would donate to the blood plasma bank, according to the card tabulations, and 44 women stated they had had experience in mass cooking.

A total of 300 hours was required to tabulate the cards, according to Mrs. Henderson's report.

PAID FOR MORE LAND IN CAMP

Runshes Received Checks for 3 Tracts—\$2,648 Involved.

Three more War department checks were delivered yesterday at Franklin to owners of Camp Atterbury land, who signed options for sale of their land to the government.

The checks were for a total of \$2,648, all of which went to Mr. and Mrs. Lewis E. Runshe of Edinburg for three tracts of land. Mrs. Runshe was formerly Miss Edna Dragoo.

Mr. and Mrs. Runshe received checks for \$1,173 for five acres of land in one tract; \$1,075 for 13.46 acres in another tract, and \$400 for a small strip of land 14 rods wide in the third tract. The prices paid for the land include all improvements.

The checks were turned over to the former property owners by Ralph Fraker of this city, closing agent, and the recording of the deeds brought to eleven the number of tracts for which the government has paid the owners.

Five Move Out of Kansas, Leaving Population of 8

By ROBERT J. MARSHALL.

The town of Kansas in Nineveh township is on its last legs, to be swallowed within a short time by the Army camp, and five-thirteenths of its population already has moved—one family.

Kansas, as Val Ulrey, 85-year-old village blacksmith, puts it, got all its growth early, and its population prior to the moving of the Frank Dinn family this week was 13 persons.

The Dinn family, Mr. and Mrs. Dinn and their three daughters who live at home, vacated their general store-filling station this week and moved to Edinburg.

The single filling station pump in front of the store was being dismantled yesterday afternoon and the lightpost taken down.

Mr. and Mrs. Dinn had operated the store for two years and, although it was cracker-box in size, it was the Saturday night social center of the Kansas community.

Their son, John Henry Dinn, was employed on the survey for Camp Atterbury and is now surveying for an Army camp in Illinois.

Kansas proper is a town of five houses, a number of outbuildings, the store, a Christian church and the Ulrey blacksmith shop, which was the town's lone industry. The school, Kansas school No. 2, is located south of the town proper and another church, the Methodist, is located to the east. It was established in 1860 and has an adjoin-

ing cemetery.

Looking north out of Kansas one can dimly see buildings being erected in the cantonment area of Camp Atterbury.

Oldest man in town and also the oldest resident is Ulrey, who observed his 85th birthday Feb. 14, the day the first residents were to move out of the condemned section of the camp.

Ulrey has been ill and in bed since February. He lives alone in a house he remodeled 40 years ago. Next door to the east is his blacksmith shop, ready for operation with its forge and anvil. Horseshoes hang on the wall in neat rows. At the rear is the woodworking and wagon repair shop. It still is full of tools, wagon wheels and an occasional carriage lantern.

In this blacksmith shop Ulrey started in the smithy business in 1878 and continued until his health became bad. His son, Dillard, who lives next door, did the repair work on the wagons.

Streets Just Didn't Develop.
Ulrey was born in 1857 at Dupont, which he still identifies as being down on the Madison rail line. He moved to Kansas when three years old.

His house is on Lot 6 at the corner of Main and Walnut streets. But Kansas never grew and Main street is just the road that runs through the town, while Walnut.

(Continued on page two.)

5 MOVE OUT OF KANSAS, LEAVING POPULATION OF 8

(Continued from page 1)

is a trail that leads to a barn and then nowhere.

He, his wife, father and son, Raymond, plan to move into Edinburg as soon as the government tells them when it wants their land.

Next door to the Dillard Ulrey family live Mrs. Mable Waltz and son, Luther. Mrs. Waltz is employed in Edinburg, but as yet they do not know where they are going to move.

First Move for Couple.

At this point the road through Kansas turns northward past the Christian church and to the house of Mr. and Mrs. Albert Hand. Mrs. Hand, formerly Daisy Bevis, was born in this house 50-odd years ago. The house must be around

100 years old, says Mr. Hand, and he admits that it looks it. He was born near Kansas and when he and his wife move out it will be the first move they've made since their marriage.

"We sure hate to make this one," said Mr. Hand as he looked over the backyards of the little hamlet. "It isn't much, but it was home."

Mr. and Mrs. Hand plan to move to Edinburg.

To the residents of Kansas one of the worst things about moving is that they'll lose their neighbors. Edinburg isn't a big town, but it's not the same as Kansas with its 13 friendly inhabitants.

MODERNIZES OLD CABOOSE.

Camp Claiborne, La. (UP)—The army has streamlined "the little red caboose." In 'the old caboose the brakeman sat in a cupola on a "monkey seat" overlooking the tops of the cars. In the new car built by the 711th battalion the sits in one of the six-foot wide bay windows extending a foot from both sides of the caboose.

Rent that room with a classified.

CONTRACTORS TALK HOUSING

Camp People Discuss Situation at Meeting in Franklin.

A special meeting of representatives of companies engaged on the Camp Atterbury project was held last night in the office of the Hurd company, architect-engineer firm on the project, at Franklin to discuss housing for the workers.

Dr. John Winebrenner, head of the district health office here, met with the company representatives and the housing situation was discussed in detail. During the meeting an attempt was made to determine the number of men to be employed and facilities needed to handle these men.

The contractors pointed out that the project is only getting under way and that the present influx of workers is only the start. Many of them expressed the opinion that a large number of workers will find housing facilities in Indianapolis, as well as in towns closer to the camp project.

The possibility of providing structures for the workers through a federal agency was discussed, but no action taken.

but no action taken.

Work is Slowed.

The camp work has been slowed down considerably by the bad weather, grading delays and shortages of some materials, but is expected to start hitting its stride within the next two weeks. To date plenty of labor has been available for the campwork, but some contractors are still skeptical about finding men when the rush starts. One contractor talks in terms of putting on "500 men a day" when the camp job is ready to start rolling on a big scale.

At the present time it is estimated that from 3,500 to 4,000 persons are doing work connected with the camp, but this number is only an estimate and varies from day to day.

board, and although a number of the camp workers wish to live in rural homes near the camp, the Detroit men prefer the "cities."

As many of the camp workers are arriving in Columbus at night, Robert A. Seward, secretary of the Chamber of Commerce, said a list of rooms would be left at the police station each night so that the officers might aid persons after the Chamber's office had closed.

Offer 'Registration Fees.' A number of the camp workers have been trying to pay for the free room service which is being offered by the Chamber office and a woman reported this week that two men each gave her a dollar as their registration fee. As they were Italians and spoke in broken English she was unable to understand just what they meant. She asked the Chamber office what should be done with the money and was told that the room service is entirely without cost to either the landlords or the renters, and that the money should not be accepted for the rental service.

Any person in or near Columbus is invited to list rooms, houses, apartments or cabins for rent with the Chamber of Commerce office.

Two of the high-ranking Army officers who will be connected with Camp Atterbury were in Columbus this week inquiring about houses for their families. One of them plans to return Sunday and look at available houses here.

EDINBURG

Edinburg, May 16—It's estimated that the population of Edinburg has increased another several hundred persons this week, although no one can venture a guess as to where the extra several hundred are living.

At least 700 more carpenters have reported for work at Camp Atterbury and every bus is bringing in more workers. Without cars, these men find it hard to get much further than Edinburg in their quest for rooms.

Approximately 200 men have arrived from Alabama and a large portion of them are living in or near Edinburg.

It is a common sight to see men walking the street late at night, looking for sleeping quarters.

Two out of every three persons seen on Edinburg streets on rainy days have a handful of buttons pinned to their hats or caps—the insignias of the camp workers.

Most of the men are from the deep south and are surprised to find Edinburg is so large a town. They are well impressed with the country here and the eats, too, but they miss their cornbread.

ROAD 31 TRAFFIC BEGINS TO BOOM

State Police to Increase Pa trol Instead of Using Temporary Barracks.

The growing traffic on Road 31 in the vicinity of Edinburg continues to create a serious haz ard owing to Camp Atterburg construction and state police of ficers are cracking down with a number of arrests for traffic violations.

Already several wrecks have occurred in the vicinity of the Road 31 and Road 252 intersection and as the number of work ers increases the traffic is expected to increase.

The state police department is reported to have given up its idea of setting up a temporary barracks at the Road 252 entrance into the camp, at least for the present.

Extra Men on Patrol.

Instead, additional men will be assigned to patrol the roads bordering the camp area and police cars will continuously be patrolling up and down the camp-congested roads.

Dump trucks are carrying crushed rock from east of Columbus over the by-pass and into the camp area for use on the camp roads and they keep Road 31 hot all day long. In addition, other trucks of all descriptions continue hauling in other equipment, trailers keep coming in and the camp workers have to get in and out—all this, plus the road's regular traffic, which in normal times is among the heaviest in the state

Traffic jams occur each morning as the workers arrive in the camp area and some of those going from here report it takes longer to go from the bridge at Edinburg to their job sites than it does from Columbus to the bridge.

WATER BOYS

Two Atterbury Workmen Bail Water Out of Hole at 75c An Hour.

Rain slowed work on the Camp Atterbury project again today, but to two particular workmen it must have been the last blow, or maybe

they found a pump.
These two workmen, when seen, were dipping 5-feet of water out of a 15-foot ditch three feet wide. One of the workmen stood on a board thrown across the ditch, dipping a bucket into the water and then handing it to his co-work-

on a board thrown across the ditch, dipping a bucket into the water and then handing it to his co-worker to throw out on the ground.

The theory behind the procedure had the two workmen a little confused because they understood the hole was to be filled with dirt anyway. The way they figured it the job would be a lot easier if you just shoveled in the dirt and forgot about the water.

Maybe though there was a good reason for taking out the water in the ditch, which was dug out so that plumbing could be installed i one of the mess halls. Perhaps more work had to be done on the pipe.

Nevertheless, the two workmen, swinging their one bucket at 75 cents an hour, were sure that theirs was a job with a future—for, they explained, every time it rained, the "blankety-blank" hole filled up with water again and maybe they'd still be there trying to empty it after the soldiers had moved into the camp.

The idea of the two men dipping the water out of the ditch sounds a little queer as a pump would do the trick in a jiffy. But pumps are hard items to get, what with priorities and the like.

A shortage of power pumps has been one of the headaches in the camp area and when it rains the dipping starts. However, even if there was no shortage of pumps, it would be difficult to find room for enough pumps to handle all the excavations in the Camp Atterbury area.

In its search for power pumps to keep the rain water out of its larg-

area.

In its search for power pumps to keep the rain water out of its larger excavations, one of the companies has offered to rent pumps from private owners.

To Move Old Nineveh Parsonage from Camp

The historic homestead of the the Rev. John C. Miller bought the Miller family, at present the parinterests of the other heirs in the sonage for the Nineveh Christian Nineveh farm and built the homechurch, will be moved from the stead while he served as pastor of on a lot directly across from the five years, he remained there until Nineveh church, provided by Hugh his death in 1901. Th. Miller of Columbus.

Mr. Miller is the son of the late Rev. John C. Miller, one of the pioneer preachers of the Nineveh church.

The 80-acre tract on which the home now stands and which is being taken for the army camp lies one-half mile south of the Nineveh church and has been in possession of the Miller family for more than 115 years.

Work of moving the building will be started at once. Thus a parsonage will be provided for the church and one of Johnson county's oldest landmarks will be preserved.

The Nineveh church, although it will lose many of its members owing to the camp, will continue to minister to the community in which it is the only church, according to the Rev. G. F. Powers, pastor.

The church was organized in 1832 and is the oldest church of Christian denomination in Johnson coun-

of the Christian church at Madison, as soon as conditions permit.

Assures New Church,

On this farm, the Millers reared their family of three sons and three daughters. Two of the daughters, Laura and Gertrude, never married, but remained at the old Miss Laura died in 1931 and Miss Gertrude in 1933. Miss Gertrude part of the farm willed her to the Nineveh church with the understanding that the farm home be used as a parsonage. The other heirs turned over their interests to the church. On Sunday, June 6, 1937, a program of dedication was held at the farm.

Mr. Powers, who was pastor at the time and has continued in that capacity, and his wife, have occupled the old homestead as a parsonage since its dedication.

In regard to a building fund of \$25,000 established by the family a few years ago, Mr. Powers stated that Hugh Th. Miller, the trustee of the fund, has assured In 1866, while serving as pastor him a new church will be built just

CARPENTERS AT CAMP TO MEET

Session Here Tonight Is Called by Union's Business Agent.

A meeting for all carpenters employed on the Gamp Atterbury construction project will be held at 7:30 o'clock in the Eagles building here.

George Strange, business agent for the union offices at Edinburg, said today that the meeting would be in the form of a get-together for the men and that all of the carpenters were being invited.

Mr. Strange said that he hoped to have between 500 and 600 men present at the meeting.

Steps are still being taken to iron out differences in the wage scale being paid carpenters on the camp project, but as yet there has been no move toward reaching a uniform rate.

The case has been presented to Washington officials and action may be taken through the federal mediation board if the wage differences cause any slow-down in work.

Officers Visit Armory.

Carpenters are still being hired by the companies through the labor union and most of the major companies report that there have been sufficient carpenters available to meet their needs.

Three Army officers visited the Columbus armory yesterday in connection with the Camp Atterbury work. They are Col. George B. Byers of Memphis, Lleut. Col. W. E. Bohlender of Fort Knox, and Lieut. Col. P. J. Hurley of Fort Hayes.

The Corps of Engineers that he armory last weekend.

Work on the camp has been progressing rapidly during the last few days.

Several Barracks Erected.

Several of the barracks have been erected, part of the sewers and water mains have been put down and the hospitall group buildings are well advanced.

Following recent sunny skies, Following recent sunny skies, roads and fields are now back in shape so that motor vehicles and heavy equipment can get around without miring down.

STATE POLICE WAR ON VICE

Crack Down in Defense Areas—Close Watch Kept on Camp Atterbury.

State police, at the urgent request of the War department, are daily making sweeping raids on houses of prostitution in defense plant areas and near Army camps and it is reported that more men will be added to the Seymour district next month to help police the Camp Atterbury area.

The War department recently urged Governor Schricker to clean up "red light" districts by using state police vice squads.

No vice raids by state police have been reported recently in the Camp Atterbury area, but a number of motorists have been arrested for traffic violations near the entrance to the Army camp north of Edinburg. A police car is stationed at the Roads 31-252 junction during the camp rush hours and Road 31 is kept under constant patrol.

The Dunes park region on Lake Michigan, described by police as the "worst spot in the state" has suffered ceaseless raiding recently, and at Clinton, where houses have mushroomed along with the growth of the Wabash river Ordnance plant, state police made a raid Saturday night.

SURVEY SHOWS PEAK OF 19,500 WORKERS

(Continued from page 1.)

ment have been made and they show the following anticipated employment between now and the first of August, when the camp is slated to be completed:

May 1-8,500 men employed.

May 15-12,200 men employed.

June 1-16,000 men employed.

June 15-19,500 men employed.

Major Load May-July.

The major load of employment is expected in a period roughly between May 5 and the latter part of July.

between May 5 and the latter part of July.

In explaining the survey, Dr. Winebrenner described what the influx meant to the community of Columbus as well as to Edinburg. Franklin, and other towns in the camp area.

Columbus as well as to Edinburg. Franklin, and other towns in the camp area.

He estimated that Bartholomew and Johnson counties can satisfactorily care for 4,500 more persons without overtaxing sanitation and other facilities. Neighboring towns such as Greensburg. Shelbyville and Martinsville also will be called upon to provide housing for workers, as well as smaller towns in the area.

It is believed that a large number of workers can be housed in Indianapolis, but there is the problem of transportation. It is possible that special trains will be put this would serve only a limited number. At the same time it will be practical for only a certain number to drive their cars on Road 31 to the camp, owing to the heavy traffic already on the road.

Problems Expected.

At the present time between 5-2

heavy traffic already on the road.

Problems Expected.

At the present time between 5,2
000 and 6,000 workers are engaged
on the camp project and approximately 30 percent of these workers are natives of the camp area.
The influx, which already is
making itself felt in Edinburg.
Franklin and Columbus, will bring
a number of problems owing to
congestion.
These include:

a number of problems owing to congestion.

These include:

1. Traffic congestion resulting in increased accidents and injuries.

2. The problem of moving in enough food to care for the workers and the task of providing adequate restaurant accommodations.

3. Danger of contagious disease through overcrowding and improper arrangements in sleeping rooms, such as "flop" houses, where beds are rented by the hour.

4. Increase in crime and vice.

5. Recreational demands, including theaters, pool halls, bowling alleys, skating rinks and the like.

6. Demand on utilities, including electricity, water and sewage.

ALL CAMP AREA IN NEGOTIATION

Majority of Owners Now Contacted—Condemnation Suit Expected Soon.

Negotiations for acquisition of the entire Camp Atterbury area, except that already under condemnation, have been opened and persons from any part of the area may call at the armory to discuss negotiations, Joseph W. Springer, chief negotiator, said today.

The people who live in the area still to be taken for the camp do not know just when they will be required to move, but indications are that a condemnation suit will be filed against the entire camp area within the near future and at that time a date for evacuation of residents will be set by Federal Judge Robert Baltzell.

The tracts of owners who sign options will be removed from the condemnation suit, but the time limit set by Judge Baltzell will apply to them as well as to those who have not signed.

As the majority of the landowners in the 36,600-acre camp area have now been contacted, three of the negotiators who have been engaged with the land acquisition department here have been transferred to Terre Haute.

They are Wallace Harman of Dixon, Ky., M. McFall, Jr., of Clarksville, Tenn., and Barrett E. Brown of Hopkinsville, Ky.

MEDICAL FORMS BEING SENT OUT

First Military Questionnaires Received Here by Doctors, Dentists, Veterinarians.

Local doctors, dentists and veterinarians are beginning to receive military questionnaires being sent out by the new Office of Procurement and Assignment.

The questionnaires will be used for calling the professional men into military service under a voluntary plan.

The questionnaires include questions on dependents, previous military experience, desired branch of service, experience in special phases of medicine and other data which might be needed in obtaining medical men for the war services.

At the present time few doctors are being taken through regular draft channels and War department officials have declared that it will be necessary to set up some plan for obtaining the doctors, dentists and veterinarians needed for the nation's expanded military forces.

Some medical men have warned that if the nation raises an armed force of 10,000,000 men many communities in the country will be stripped of all but the older doctors and dentists.

U. S. Takes Rest Of Land For Camp

29,436 More Acres Are Added To First Plot

¶Through Federal court condemnation petition, the government on Thursday acquired possession of 29,-436.91 acres of land in Johnson, Bartholomew and Brown counties to add to the 7,271.29 acres acquired through a similar means last January 24 for Camp Atterbury.

Immediate possession was given by Federal Judge Robert C. Baltzell after B. Howard Caughran, district attorney, filed the petition. The court order paved the way for farm yards and buildings on some tracts to be taken over by June 1, with other owners retaining possession until July 1.

In anticipation of the condemnain action, dozens of residents of Bartholomew county and a smaller number in Johnson county have been moving out in advance. Much of the land already has been obtained under option and negotiations are now under way for a substantial part of the remainder.

Owners who object to the government's offered prices may file exceptions. Their land is then appraised and a jury determines the purchase price.

The new petition setting out the 29,436.91-acre total would indicate that the size of the reservation for Camp Atterbury would be roughly 36,700 acres, including that already taken in February and March.

First check in payment of land taken in Bartholomew county was delivered Wednesday to R. B. Harrod, who lives just south of Edinburgh. It was for 32 acres of land and Mr. Harrod received \$2,910.

Meanwhile, a few more men have left their jobs on the camp construction project, expressing dissatisfaction over the waze scale which has been the subject of a wrangle between workers and contractors for two months.

Restore Franklin To Defense Area Priorities Rating

Atterbury Designated, Edinburgh May Be In "Critical" Territory

«Franklin apparently had regained its rating as "defense area" and Edinburgh seemed to have become designated as a "crittleal housing area" today following a conference between R. Earl Peters, Indiana FHA administrator; John B. Blanford, National Housing Agency administrator, and Wayne Coy, OEM lisison officer.

Mr. Peters telephoned The Franklin Evening Star today that the designation given Franklin back in March and then taken away mysteriously a few days afterward had been restored.

He also advised that building contractors could now make application at the Federal Housing Administration office in the Federal building at Indianapolis for preferential ratings in obtaining materials necessary for defense housing projects.

Despite the word that the given being the best of the conference of the conference of three officials, observers here are as a result of the conference of three officials, observers here are as the conference of three officials, observers here are as the conference of the conferenc

Mr. Peters was not available later in the day to assure that he would be here, but an assistant in the state office indicated he felt that some member of the administration would be able to come.

Leaders anticipate that the designation of Franklin as a defense area will lead to establishment of this area as a critical housing territory because of Camp Atterbury.

Columbus is now a critical housing area, not because of Camp Atterbury, but because of its own industries engaged in the manufacture of war materials.

To qualify as a critical area, a community must be located near enough to a defense project so that the round trip transportation fare tetween the points is not more than 40 cents. It so happens that the round trip fare here and Camp Atterbury by bus is 45 cents.

Unless the bus fare is reduced, or unless Federal authorities can be presuaded to raise the regulation on the ground that the actual Atterbury line is some distance north of the construction site and therefore within a 40-cent-round-trip radius of Franklin, it may be difficul

Designation of the Camp Atterbury area as a "critical area" in it self was indicative of the status of Edinburgh, which now appears to established as a critical area be cause of it proximity to the con struction project.

One Union Twp. School Closes for Keeps Today

Mrs. William Ott, who will move

Precinct to Be No More—
Only 35 Pupils to

Be Left.

Today was the last day of school in Union township and the last day for one of the Union township schools, at least in its present location, which is inside the camp area and will be leaving the township before July 1. They are Oren Christopher, Nona Knapp, George O'Bannon and Elsie Cochram. The others are Owen Lee Stillabower, Lyle Carmichael, Max Taylor and Charles Marvin. Owen Stillabower lived in the camp area, although there are only eight in the eighth grade graduating class. Two-thirds of Union township lies in the area condemned Thursday for Camp Atterbury.

It is estimated that next year there will be about 35 children of grade school in what will be left of the township.

This noon all grade school children in the township, approximately 75 in number, met at the 2room frame Precinc school, which is inside the camp area, for the final day dinner and program this afternoon.

Commencement at St. John's. Commencement exercises for the eight eighth grade graduates will be held tonight at St. John's church, with Dr. T. K. Smith of the commencement exercises.

Commencement exercises for the eight eighth grade graduates will be held tonight at St. John's church, with Dr. T. K. Smith of Columbus, as the principal speaker.

There are two schools in Union township. These schools are the 2-room Precinct school and the 1-room Lowell school. The Precinct school is inside the camp boundaries, while the Lowell school is on the outside.

The first six grades attend the Precinct school and the school is on the outside.

The first six grades attend the Precinct school and the school is on the outside.

The first six grades attend the Precinct school and the sixth, seventh, and eighth go to Lowell where the teacher is W. F. Rogers.

The first, second and third grades at Precinct are taught by Miss Ruth Ritz, while the three higher grades are taught by Murrell Deckard. None of the teacher is lives in the camp area, but Mr. Deckard will have to move as the farm on which he lives has been purchased by Mr. and identically attended the commencement exercises.

Lucille planned to attende the commencement exercises.

Lucille planned to attend the church tonight. She had always gone to school in Union township prior to moving to near Mt. Auburn.

There are three schools in Nin-eveh township, tow of which are etc.

As yet, residents of the parts of Union and Nineveh townships which are left out of the camp area have not made up their minds what they want to do about their existence as to township.

The first six grades attended the Lowell was precided to make the church tonight. As a yet, residents

TRAILERS KEEP ROAD 31 HOT

Large Scale Hiring Slated to Start on Camp Next Week.

Trailers continue to roll into the Camp Atterbury area, beating a hot path up and down Road 31, day and night.

The trailer camps in the area gain new residents and it appears that the rush is beginning to hit its stride

with settlement of the carpen-ter dispute, companies are stated to start large-scale hiring next week and several thousand more people may move into the camp area.

people may move into the camp area.

Approximately 185 trailers are now parked at Driftwood camp, and the population is estimated at almost 800 persons. Electric light extensions are being put up and it is planned to put in showers.

The residents of the Driftwood camp will register for sugar at a special center to be set up in the camp under the direction of the Rev. Clarence Hutchinson of Taylorsville. The women at the camp will assist. Sugar registration will be held at the camp on Tuesday and Wednesday and on Tuesday several of the women will assist with the registration at Taylorsville.

Some Live in Tents.

several of the women will assist with the registration at Taylors-ville.

Some Live in Tents.

The trailer camp at the east edge of Edinburg also continues to grow, while sizeable camps have developed at the tourist achin sites on Road 31, just south of Franklin. Other tailers can be seen in farmers' yards, around filling stations and in a few cases along the river.

A number of the camp workers are living in tents and many of these are pitched along the rivers and streams around Edinburg. Tents are also in use at the Driftwood camp and near the camp entrance on Road 252 at Edinburg.

Franklin is rapidly developing a jam from the worker influx and every night looks like the Saturdaynight of old, with persons filling the courthouse yards and cast parked for blocks around the business district, spilling out into the residential area.

More workers also are coming into Columbus and the Chamber of Commerce continues to get calls for apartments, houses and a few rooms. The requests slowed down some this week and this was believed caused by the slow-up in work due to the carpenter dispute on the camp job.

VAL ULREY, 85, KANSAS, DIES

Resident Village Camp Area 78 Years Dead.

Vallencourt Ulrey will not have to move away from his home and smithy in Kansas town, after all.

The 85-year-old blacksmith died peacefully at 3 o'clock this morning in the village which had been his home for 78 years. A few weeks more, and he would have had to leave it and try to get used to some other community. And that was an idea Val Ulrey, as he was called by his neighbors, never could quite grasp.

He knew that an army camp

He knew that an army camp would engulf the village and that people said he would have to go away, but before he ever fully comprehended just what that meant, his health failed and his mind became a little confused. So it was that Val Ulrey never quite grasped the fact that he would have to leave what had come to be the center of the universe to him.

Funeral services had not been arranged this morning but friends may learn them by getting in touch with the Mutz funeral home in Edinburg.

Cemetery to Go, Too. Where the burial will be was another question, for the Kansas cemetery near the Ulrey home may be moved soon, as it, too, is in the camp area.

Mr. Ulrey was born Feb. 14, 1857, in Jefferson county, the son of Dr. D. S. and Nancy Roseberry Ulrey. The family moved to Kansas when Val was a child of seven, and he spent the rest of his life there.

He married Miss Margaret Ann Bevis on March 4, 1878. She died in 1917, early in the first World war, as her husband died early in the second.

Mr. Ulrey was a member of the Masons at Nineveh and of the Lutheran church.

He is survived by a son, Dillard, who lives next door at Kansas; two daughters, Mrs. Mabel Waltz of Edinburg, and Mrs. Ida Royse of El Reno, Okla; five grandchildren and a sister, Mrs. Alveretta Sutton.

MORE LAND IS DEEDED TO U.S. 275 Acres in Atterbury Area Bring Aggregate of \$31,700. Edinburg, May 4.—More has been deeded to the United States government by farmers in the Camp Atterbury area, and in-cludes 275 acres for which approximately \$31,700 was paid. The largest tract listed is that of Mrs. Nellie Irene Henderson, a relative of Wayne Coy, whose 70 acres located in Nineveh township brought her a check for \$9,000, representing almost \$130 an acre. Charles Bills' 50.15 acres a mile away on the Mauxferry road in Blue river township brought \$3,-470. Maggie Warder received Mrs. \$4,667 in payment for 47.95 acres one mile and a half east of Nin-eveh on Road 252. Near her place Clarence P. Hardin sold his 40-acre tract, including an attractive bungalow built a few years ago for \$6,500. Isaac Burkhart received \$2,300 for his 23.94 acres in Blue River township. Charles E. McCammon was paid \$2.662 for 20.4 acres on the Mauxferry road south of Pisgah. The smallest tract 20 acres in Blue River township, netted its owner, Alice Bay, \$3,249. Most of the families living in the Johnson county portion of the camp have vacated and those remaining probably will all be out by the first of June or not later than July.

TO BUILD WALK BRIDGE ON

Span at Edinburg Will Aid Camp Workers-Rcad 252 Being Widened.

Being Widened.

A wooden walkway bridge for pedestrians will be constructed by the Indiana state highway department at the Road 31 bridge over Blue River at Edinburg and a crew of workmen today started moving the guard poles north of the highway bridge.

The new bridge for pedestrians will be constructed because of the large amount of foot traffic from Edinburg out to the Army camp and to the Blair employment offices and the carpenters and bricklayers union offices, which are north of the bridge.

The pedestrian bridge will be made of wood and will be four feet wide. It will be constructed on the north side of the present highway bridge and the highway bridge will be used as support. Work on the bridge is slated to start around May 20.

Move Posts Two Feet.

The guard posts north of the bridge are being moved two feet closer to the road so that a pedestrian walk may be constructed on the outside of the broad. It will be separated from the road by the guard posts. This valk will lead to the Blair and anion of fices.

The north shoulder of Road 252 from the point it intersects Road 31 south of the bridge on into Edinburg is being widened so that it can handle a maximum of camp traffic.

The state highway department has taken a number of safety steps in the Atterbury area, including the posting of special speed and no parking signs. At each end of the camp area along Road 31 signs have been put up, reading "Camp Atterbury military area. Observe speed regulations." Other signs have been put up, reading "Camp Atterbury military area. Observe speed regulations." Other signs have been put up, reading "Camp Atterbury military area. Observe speed regulations." Seymour Gets Training Site

The War department announced through Congressman Earl Wilson today that a site near Seymour had been selected for awar pilot training center to cost \$8,000,000 to \$10,000,000.

Three auxiliary fields will be acquired, including one west of Peters Switch, just below the Bartholomew county line.

The announcement was exclusive to the Seymour Tribune and The Evening Republican. It will be released to press associations and to other newspapers tonight. Reports have been heard here that about 5,000 men will be employed on the project.

The training center will be for advanced training with twin-motored planes. The War department announced

tored planes.

advanced training with twin-motored planes.

After contacting the War department and obtaining the announcement, Congressman Wilson telephoned the Seymour paper and requested it to relay the information to The Republican.

Will Buy 2,560 Acres.

Although few other details were contained in the announcement, it was learned that the War department will buy 2,560 acres of land one mile and a half southwest of Seymour, and acquire at least three other fields in Jackson county for emergency landings and auxiliary training.

One of these lies between Cortland and Jonesville.

Two of the fields are expected to be 900 acres, will be securified.

Work at Atterbury May Be Expanded—Force of 30 Employed in City. The Camp Atterbury project has whittled down WPA work in the area around the camp, owing to the fact that a large number of the WPA men have been placed at work on keeping roads inside the camp area serviceable, and future plans call for the use of coisiderable more WPA men on the camp. At the present time, WPA labor in the city is confined to curb and gutter installation and a crew of approximately 30 men is at work, according to Homer Martin local supervisor. In the county, asproximately 20 men are working on county roads and 18 are employed on Road 46 improvements. A special WPA grant for repair of roads inside the Camp Atterbury area was made recently by Congress and this work has been started. Men put on the camp project have been from counties in the local area, including Bartholomew, Jongson, Shelby, Brown, Decatur, Jackson and Jennings.

Meeting Held Here.

If present plans go throu h added funds will be made available for further WPA work in the Camp Atterbury area. This work would include improvements not contained in the camp contracts.

A monthly meeting of area WPA officials was held last night at the city hall here, with approximately 30 persons present.

Those present included Cliff Kirk-patrick of Greensburg, area engineer; Carl Barnhart of North Vernon, state safety consultant; John H. Liming of Indianapolis, district property accountant; Gerald Hasler of Shelbyville, area time-keeper, and project supervisors in the area.

The curb and gutter crew in the city has been working at Twenty-third and Chestnut streets and will move to Maple street, where curb and gutter will be installed between Sixteenth and Twenty-fifth streets.

Seymour Gets Big **Army Air School** Costing \$10,000,000

4,960 Acres Will Be Taken For Center In Jackson County

Canother huge war project for southern Indiana was assured today with word that the War department will build a permanent air force training school center costing be-tween eight and ten million dollars in Jackson county, southwest of Sey-mour

mour.

Four months after Camp Atterbury was approved as a soldier training center in Johnson, Bartholomew and Brown counties, Representative Earl Wilson of the Ninth Congressional district—the man who revealed the first news of Camp Atterbury—notified the press in Columbus and Seymour that 4,960 acres of land would be taken for the pilot training center.

The main center will cover 2,560 acres and will require that about 20 families move from the land to be acquired by the government.

Three auxiliary landing fields will be built in other parts of the county, one of 600 acres northwest of Seymour, another of 900 acres south of Vallonia and about 15 miles southwest of Geymour, and the third of 900 acres just north of Brownstown.

The site picked for the main center.

town.

The site picked for the main cen-

The site picked for the main center includes the present Pederal emergency landing field and the adjoining Municipal airport.

Considered for Franklin?

The site was selected after an Army committee visited the county a few weeks ago. Since then, Army engineers have completed surveys, drawn maps and collected other information.

Johnson county folk wondered, following receipt of the news. if it could be possible the War department had considered the filed for Johnson county seem months ago and dropped plans for using land north of Pranklin after the Campo Anterbury project was approved.

Some time ago, surveyors were frequently reported working, first near the Hurricane road, northeast of here, and later in White River township, northwest of here. An airfield was reported under consideration at that time, but persons here were rever able to find out anything definition and the purpose of the survey. Indications are that the real estate division handling acquisition of land for Camp Atterbury will also be in charge of similar work on the Seymour air center project. The office is located in Columbus. It was reported the office had already started work and that some land-owners have already been contacted.

POLICE ADDED

Three More State Troopers Assigned to Assist in Atterbury Area.

Three more state troopers have been assigned to the Seymour state police post to assist in policing the area around Camp Atterbury and a new 2-way radio has been installed in one of the cars in the Atterbury area.

New officers assigned to the Seymour post, who will augment othmour post, who will augment other members of the post who have been detailed to police duty in the camp vicinity, are James L. DeArmond of Wabash, previously stationed at the Ligonier post; Gordon B. Taylor of Veedersburg, formerly of the West Lafayette post, and Robert F. Dillon of Spiceland, formerly of the Pendleton post.

merty of the Pendleton post.

The new 2-way radio, the second to be installed in cars of the Seymour post, has been placed in the car of Officer Fred Neal of Franklin, who is assigned to the Atterbury project. The other 2-way radio is in the car of Sergt. Harry McMillin, second in command at the Seymour post.

New 20 Men in Post

Now 20 Men in Post.

Addition of the three officers brings to 20 the number of officers now assigned to the Seymour post, the largest number since its forma-

tion.

For a time, the state police department had been considering putting a temporary barracks near Edinburg, but this plan was shelved, at least temporarily, in favor of using patrol cars in the camp area, with at least one equipped with a 2-way radio so that it might send messages to other cars in the area or to the post headquarters at Seymour.

The state police officers have

The state police officers have been patrolling Road 31 around the camp entrances constantly and have been serving as foot traffic officers during the morning and evening periods when workers are entering and leaving the camp area in large numbers.

Checks Given To **4 More Farmers** For 451.40 Acres

Total Cost \$45,780 As Land Purchase **Activity Continues**

Boosting to near \$125,000 the

Boosting to near \$125,000 the amount already spent by the government for Camp Atterbury land, four more deals were recorded in Johnson county Friday and checks handed the former owners.

Less than 20 tracts have been actually purchased thus far, indicating the owners signed options and agreed to dispose of the land without further ceremony.

The latest four farmers to give up their land and receive payments in full included two with tracts of more than 100 acres each, one of whom received a check for more than \$25,000.

Biggest check thus far went yes-

than \$25,000.

Biggest check thus far went yesterday to Mrs. Matilda Boegaholtz of Edinburg, who received \$25,056 for 180.60-acre tract located in the Furnas Mill neighborhood in Blue River township.

Second largest farm sold thus far was a 105-acre tract for which a check for \$11.730 was given Friday to Mrs. Anna Waltz. The farm was located in Nineveh township, north of Road 252.

Husband Selis Tract.

Husband Sells Tract.

Husband Selis Tract.

Mrs. Wallz's husband. George F.
Waltz, turned over a 20-acre adjoining tract for \$3,300 at the same time.
The other farm for which payment was made was that of Ratherine C. Wright, who received \$5,494 for a tract measuring 73.80 acres in size. The farm was located south of Road 252 in Blue River township, near the Knapp cemetery.

Total of the four checks handled owners by Ralph Fraker of Columbus, closing agent for the real estate department of the camp project, was \$43,780. It paid for \$451.40

ect, was \$45,780. It paid for 451.40

The average for Mrs. Boegaholtz's The average for Mrs. Boegaholtz's land was the highest. The govern-ment paid an average of \$128 an acre. For Mr. Waltz's 20 acres, the average was \$175 per acre. Mrs. Waltz received an average of \$112 an acre, and Mrs. Wright was given \$75 an acre for her tract.

Post Equips For Atterbury Patrol

3 New State Police, 2-Way Radio Added

(In order to have a force large enough to adequately police the area in the vicinity of Camp Atterbury, now in the territory of Seymour post No. 7, Indiana State police, three officers were added to the personnel of the post this week and an additional two-way radio for one police car to be used at the camp was assigned to its equipment.

The new officers assigned who began their duties May 6, are James L. DeArmond of Wabash, who has been previously stationed at the Ligionier post; Gordon B. Taylor of Veedersburg, who was stationed at the West Lafayette post, and Robelt F. Dillon of Spiceland, who was stationed at the Pendleton post.

They will work near the Camp Atterbury project, augmenting other members of the Seymour post's personnel who have been assigned to police duties in that immediate vicinity

The new two-way radio, the second to be used to equip cars of the post, has been installed in the car of Officer Fred Neal of Franklin who is assigned to the Atterbury project, and was used Wednesday. The other two-way radio is in the car of Sgt. Harry McMillin, also of Franklin, second in command at the post.

The augmented force brings to twenty the number of officers assigned to the post, the largest numbeh in its history. It is probable that other officers will be necessary here when construction work begins on the new pilots' training flight center of the U. S. Army which has been approved for a site just southwest of Seymour.

The Camp Atterbury territory was acquired recently by the Seymour post in a redistricting of southern Indiana territory, which gave Seymour post Johnson, Bartholomew and Brown counties in the territory of the Connersville post.

TRAILERS

Oddest Camp in Area On Henry Farm Near New Rail Spur.

One of the oddest of the trailer camps which have sprung into being in the Camp Atterbury area is the camp lecated at the Walter C. Henry farm on Road 31, south of the camp railway spur and across the road from the A. Farnell Blair lumberyard,

Its occupants, like those in other trailer camps around Edinburg, work on the Army camp but their trailers are home-made affairs of all sorts and descriptions.

Five of these trailers, three of them board shanty-type affairs, are parked near the home at the present time. There are also seven tents of all sizes in the Henry barnyard and yard. Mr. and Mrs. Henry also have five roomers living in their home.

Two families, including seven persons, also were living in the filling station in front of the Henry home, but yesterday packed their belongings and went back to Arkansas. Now, Mr. Henry is considering operating the filling station and tire repair shop and installing a market.

His biggest trouble to date is

His biggest trouble to date is the fact that he has been unable to get a REMC line put onto his property to provide electricity for the trailers and tent-owners.

Most of the people living in the Henry encampment are from this part of Indiana. It's doubtful that their trailers could have gone much farther than Camp Atterbury.

Versailles Corps Is Moved to Brown County—WPA Has Tough Time.

The Versailles CCC camp, with a personnel of about 80 men, has been moved to Brown county and the men are being put to work on the Camp Atterbury project, increasing the number already at work there.

The CCC workers have been

The CCC workers have been clearing the area of brush and assisting in removal of fences and some buildings.

While work of the CCC men has been praised by those in charge, it is reported that WPA work on the roads has not turned out as satisfactorily as hoped for.

Owing to the need for men in industry and defense construction, WPA rolls have been reduced to almost entirely older men and those physically handicappd. Work of repairing the camp roads and keeping them serviceable has proved almost too much for these WPA crews. The element of safety also has entered the picture as the older men have trouble dodging the heavy traffic which pounds over the roads while at the same time the roads are being repaired.

CAMP INFLUX SWELLS COUNTY POPULATION BY 11 PER CENT

¶If the sugar rationing book registration figures are any indication of the population boost because of the Camp Atterbury construction project, then Edinburg's population is up more than 50 per cent, and Franklin's is up more than 15 per cent.

Based on the 1940 census figures, there were 1,262 more persons applying for rationing books in Blue River township than there were persons

Blue River population was 3,065 two years ago and 4,327 persons applied for rationing books at the Edinburg school center last week.

In Franklin's three centers, 7,-966 applicants called for books last week, compared with 7,197 population for the township in the 1940 census, a gain of 769 persons.

Considering the fact that quite a number of landowners in the army camp area have moved out of the county or at least out of the township, the Blue River population gain may be even greater than 50 per cent.

Gains In Every Township.

Despite the evacuation of quite a number of Nineveh township families to make way for the cantonment, there were 34 more applicants for rationing books than there were persons counted in the 1940 census.

There was a gain in every township over the census. Pleasant township had 201 more rationing book applicants than there were inhabitants in the census two years ago. Clark township's gain was 35 persons. Union's 29 persons and White River's 44 persons.

For the county as a whole, there were 24,954 applicants for sugar books, compared with 22,493 population in the last census, a gain of 2,461 persons, or more than 10 per cent of the most recent population count.

Quite a number of persons with excess sugar are known not to have registered for books, and many camp workers eating at restaurants are known to have had their wives back home get rationing books for them.

BUS LINE GCES

The Greyhound bus lines have reduced their special Columbus-Camp Atterbury fare to \$2.00 for ten trips, good for one week periods.

The rate conforms with the critical area rating for Columbus. Under critical area regulations, areas so designated are to be within a 40-cent round fare transportation rate from the defense project in the area.

Busses which take workers directly into the Camp Atterbury grounds leave Columbus at 6 and 6:50 a. m. each morning. These busses go to the bus terminal at the camp, located at the intersection of Roads 252 and Schoolhouse road inside the cantonment area.

Two busses leave the terminal each evening.

Other regular busses to Indianapolis stop at the camp entrance on Road 252.

Another bus line from Columbus to Camp Atterbury, to Franklin and Shelbyville and then Hope and back to Columbus is expected to be started soon by Arthur Givens of this city. Mr. Givens has petitioned the state commission for the route and approval is expected.

NEGROES AT CAMP.

THE Columbus Republican ran an editorial recently about the rumor that Camp Atterbury will be occupied largely by colored troops. "It is a rumor said to be circulated in every community where a new camp is established," the editorial said, mentioning that the rumor likely was inspired by elements out of sympathy with the war effort.

"There have been reports that about a fourth of the soldiers at Atterbury will be colored, but no official confirmation by the War Department. However, as a white soldier stationed at Fort Harrison, where there are also many colored soldiers, remarked to this writer the other day, 'Columbus needn't worry about that. Those boys are soldiers.'"

The neighboring editor goes on to say that another thing to reassure Columbus is the fact that its colored population, which represents about as good a class of citizens as that city has, person for person, is just as anxious for the negro soldiers to behave while here on leave as the white population is for the white soldiers to behave.

"Personally," the editorial concluded, "we expect that to be the least of our problems connected with the camp." What the editorial said about Columbus

EDINBURG HAS 71% INCREASE

Sugar Registration Shows Town Has Population of at Least 4,328.

Edinburg's population has jumped from 2,486 to at least 4,328—an increase of 71 percent—according to the sugar rationing figures at Edinburg.

The increase, however, is believed to be larger as some of the Camp Atterbury workers did not register in Edinburg, but had their wives or others register them in their home communities.

their home communities.

According to estimates during the middle of April, the camp boom in Edinburg was believed to have increased the population by 50 percent.

More Rooms Needed.

More Rooms Needed.
Since that time a steady stream
of workers has kept flowing into
the little town, crowding its housing facilities, its restaurants,
taverus and streets.

More rooms are still needed at Edinburg for Atterbury workers, although it is believed that almost one-half the present homes have roomers.

Contracting firms on the camp project have been making special appeals to Edinburg residents in an effort to find additional rooms for their men.

for their men.

The camp boom also has hit Nineveh, which lies on the western edge of the cantonment area. Nineveh boasts 14 trailers, parked in the yards of the town's residents, Many homes have roomers and the town's three general stores report a big boom in business, which comes with a rush every morning and evening.

DUAL LANE JOB HERE INSPECTED

Army Officer Views Road 31 Project—Early Approval Hoped.

Possibility that the dual lane improvement of Road 31 between Greenwood and the by-pass north of Columbus will be ordered in the near future was seen today following an inspection Wednesday by representatives of the Army, the state highway commission and the U. S. Public Roads administration.

Although the improvement is at the top of the highway commission's list for this year, it has not been approved for priorities by the War department since the recent "freezing" of critical road building materials.

materials.

The inspection was made by Lieut. Col. Smith of the Fifth Corps area office in Columbus. Ohio: H. G. Oaks. Indiana representative in the federal roads office in Chicago: C. E. Vogesang, state engineer of road designing, and Ray Bower, asistant chief engineer of the state highway commission.

Some Changes Necessary.
This party inspected the route from Greenwood to the Columbus by-pass.

Lieut. Col. Smith said some changes in the plans for the improvement would have to be made before it would be approved by the War department.

the War department. The highway commission applied to the War department for approval several months ago, and the matter was referred by the department to the Fifth corps office. The state considers the dual landing of Road 31 one of the most important projects in the state and is interested in getting it started as soon as possible, Vogesang said after the inspection.

Three Army Camp Workers Injured

Rod Pierces Hip Of One; Man Loses Thumb

Three Camp Atterbury workmen were injured and a fourth was taken to a hospital with a ruptured appendix during Wednesday and Thursday, it was learned today.

Claude Wheatley of Wabash suffered severe lacerations of the head when he was struck by a chain. He was treated by an Edinburg physician.

Arthur Mitchell fell on an iron rod and it punctured his hip, and Frank Seibel suffered the loss of a thumb in a saw. Both were taken to the Methodist hospital at Indianapolis.

The appendix victim was R. A. Vannalta, who was taken to the Majer hospital at Shelbyville.

The number of accidents on the construction job steadily increases as the number of workmen is hiked, but the number of accidents of serious nature is small when the size of the construction gang is taken into consideration.

ROAD 252 BIDS ARE REJECTED

Several bids have been received on the paving of Road 252 from the Road 31 junction to the east entrance of Camp Atterbury, but no contract will be awarded on the basis of the bids received.

The bids were received Tuesday, but a spokesman for the State Highway commission said that no bid was received in line with the engineer's estimated cost and that the specifications would have to be re-advertised and further bids solicited.

The access road will be improved by the state from the point where it intersects Road 31 at the curve north of Edinburg to the camp area at the bridge over Sugar Creek, west of Road 31.

1,000 HERE FOR WORK ON CAMP

C. of C. Places 130 Families, 300 Single Persons in Columbus.

The influx in the Columbus area of persons connected with Camp Atterbury is estimated at over the 1.000 mark, and a report today of the Chamber of Commerce housing service showed that more than 130 families have been placed in homes, apartments and housekeeping rooms and approximately 300 persons in sleeping rooms.

The demand for quarters still continues and is particularly heavy for:

Houses, both furnished and unfurnished.

Apartments, both furnished and

unfurnished.

Light housekeeping rooms, consisting of 3, 2 or 1 room.

Rooms with board.

Many Ask for Apartments.

Of 23 requests Friday, 10 were for apartments. On Thursday approximately 40 requests for quarters were received, including all types. Sixteen requests for apartments were received on both Monday and Tuesday, in addition to the calls for rooms and houses.

For the past six weeks, the calls for apartments have been running from 10 to 15 a day, as this type of quarters appears to be most in demand and at the same time the scarcest in the towns around the camp.

Many of the carpenters arriving here from Detroit want rooms with

(Continued from page 1.)

board, and although a number of the camp workers wish to live in rural homes near the camp, the Detroit men prefer the "cities."

As many of the camp workers are arriving in Columbus at night, Robert A. Seward, secretary of the Chamber of Commerce, said a list of rooms would be left at the police station each night so that the officers might aid persons after the Chamber's office had closed.

Offer 'Registration Fees.'

A number of the camp workers have been trying to pay for the free room service which is being offered by the Chamber office and a woman reported this week that two men each gave her a dollar as their registration fee. As they were Italians and spoke in broken English she was unable to understand just what they meant. She asked the Chamber office what should be done with the money and was told that the room service is entirely without cost to either the landlords or the renters, and that the money should not be accepted for the rental service.

Any person in or near Columbus is invited to list rooms, houses, apartments or cabins for rent with the Chamber of Commerce office.

Two of the high-ranking Army officers who will be connected with Camp Atterbury were in Columbus this week inquiring about houses for their families. One of them plans to return Sunday and look at available houses here.

Gosh! Camp Is Big, and Swell, too, Scribe Finds

By BOB GORDON.
Yesterday I rode with The Evening Republican's Bob Marshall on his Camp Atterbury beat.

It was this reporter's first tour Uncle Sam's Bartholomewcounty premises since they first began pouring concrete for the foundations of the build-It is ings in the hospital unit. needless to report that much progress has been made since my previous visit two months ago.

Words cannot depict the immensity of the project. A vast expanse of territory—only a few weeks ago the cream of Bartholomew and Johnson county farmland—is now the scene of a growing military city. Under the hammers of thousands of carpenters, the Atterbury buildings are growing much faster than the fine hybrid corn formerly produced on the rich land.

Like the rabbit in the magician's hat, the Atterbury picture is almost unbelievable. In two months time it has been a case of presto-chango. From a point on Road 252, east of Nineveh, you can look in any direction, north, south, east and west, and all you can see are buildings. No longer is there evidence of corn, wheat, alfalfa, soybeans or timothy.

You can ride and keep on riding, and the farther you go the more building you see. The project is so large that

N. few on the scene know what is The Eve-going on. Men working in one Marshall section seldom see one of the beat. other sections.

"What kind of a building is that?" I inquired of a skilled workman who was walking by a tier of structures. "That's what I've been trying to figure out," he replied. It wasn't a military secret, but there are so many different types of buildings and so many buildings that even the workmen aren't quite certain what they are working on.

Barracks, administration offices, mess halls, recreation buildings, hospitals, theaters, are going up with rapidity. When completed, and it won't be long the Bartholomew-Johnson county cantonment site will be occupied by a military city large enough to swallow the combined populations of Columbus, Edinburg and Franklin, with room to spare.

It will be a home which Uncle Sam's khaki-clad laddies will be proud to occupy—ene which would cause any mother to rest with ease, knowing her soldier son had such a modern and complete military home.

It is a gigantic project, but not until you have an opportunity to get on the inside and view it with the naked eye can you appreciate the immensity and completeness of this Atterbury proj-

Insists Camp Be Done August 15th

High Officer Demands Schedule To Be Met

Quiless the Army is just bluffing, it intends to have construction work on Camp Atterbury completely done by Aug. 1, or not later than Aug. 15, regardless of how far behind the project now may be lagging.

According to reports, a high-ranking Army officer from the construction division of the War department in Washington paid a hurried visit to the area Sunday and made it plain that the Army wants the job done on schedule.

The Army doesn't care about the \$30,000 per day it would cost the contractors if they fail to get the cantonment finished on time, but the Army is insistent upon having the actual construction out of the way according to specifications handed out to contractors at the time bids were advertised last January or February.

It has been pretty well established recently that present plans are to begin moving some uniformed men into the Atterbury area during June—some say the last of the month. Everything points that way now.

By the time the camp is completed, if in August, it is probable there will be many soldiers already stationed there, and shortly afterward the camp may be full to capacity.

Recent estimates of peak employment, expected around the middle of June, were 19,450 workers. But if the contractors heed the Army's demands for completion on schedule, some observers consider it possible that the peak will be even higher, because it stands to reason that more rapid progress means more men.

COLORED FOLK RENEW PLEA FOR WEST SIDE RECREATION CENTER

Franklin city councilmen last night heard three representatives from the city's negro population make new requests for a colored recreation center.

Speaking for the negro group was George McGill, who told Mayor L. W. Oliver and the council that "we want to do something to help ourselves in this situation." Mr. McGill stressed in his opening remarks that pur-

pose behind the new movement had* nothing to do with the influx of also to know what we can expect army camp workers and he dis- from the city." claimed all knowledge of and endeavor to propose construction of a new recreation hall solely to care for an overflow negro defense popula-

"We're asking for something that will do us some good in the future. Army camp workers are here today and gone tomorrow and we know that so we're not asking for anything along that line."

While Mr. McGill was not specific as to the probable location of a new hall of the type of building desired, he pointed out that a large majority of Franklin colored people much preferred a recreation hall instead of a park or athletic field.

Suggests Use of School

Paul Goodpasture asserted that "regardless of what we must do to get the recreation center, we want

Mayor Oliver questioned the possibility of transferring 28 negro children from the George Washington grade school to the Payne school and remodeling the cclored school into the desired recreation center.

Earl Jackson, a member of the city street department, was the other member of the recreational delegation. He did not speak, however.

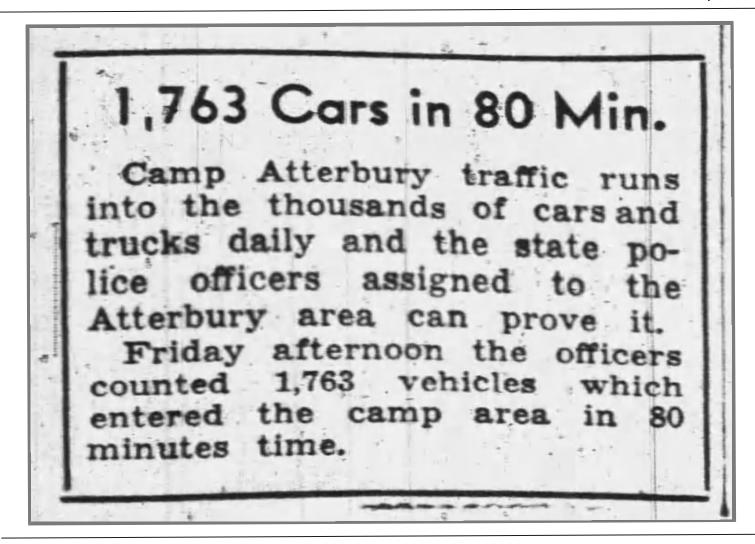

Mayor Oliver asked members of the council to consider the situation before the first meeting in June and promised the colored representatives some form of definite action at that

CAMP WORKER'S INJURIES FATAL

Charles R. Sivard, 25, of North Vernon route 1, Camp Atterbury worker, who was found injured on a road near his home Monday night, died Saturday at Methodist hospital in Indianapolis.

Dr. James M. Leffel, a Marion county deputy coroner, said Mr. Sivard apparently was struck by an automobile while he was walking along the road. His skull was fractured.

The man was found unconscious early Tuesday morning by state police.

Two Indianapolis negro workers from Camp Atterbury were injured last week when the automobile in which they were riding went out of control and turned end-over-end on Road 31, near the Johnson-Marion county line.

The men were en route from work at the camp. They are Daniel Bishop, 50, facial lacerations, and James Smith, 51, chest injuries and facial lacerations. Both were taken to City hospital at Indianapolis.

CONDEMN LAND **NEAR SEYMOUR** Work of Grading Site to Level Plain Slated to Start in Near Future. The government today had possession of 2,560 acres of Jackson county land on the outskirts of Seymour for construction of the Seymour Twin-Engine Flying school, following a condemnation suit filed Saturday in federal district court at Indianapolis. Occupants of 20 farm tracts in the area will be given 60 days to vacate their homes under the terms of the federal court order. Condemnation proceedings, similar to those-filed against Camp Atterbury landowners, were started Saturday by B. Howard Caughran, U. S. district attorney, and Judge Robert C. Baltzell handed down an order granting, immediate possession of the land to the government. Jos. W. Springer of Elizabethown, project manager for the Camp Atterbury and Seymour projects, was in Indianapolis Saturday dor the filing of the suit. Local Office in Charge. The land acquisition office at the Columbus armory will handle the acquisition of the land for the Seymour school and also is incharge of securing additional land for the Jefferson Proving ground near Madison. Meanwhile, it was revealed at Seymour that actual work on the project there will get under way in the near future. The major portion of the work will consist of grading the area to an almost perfect plain in order that runways may be put down. The architect-engineering from the school was to move into the seymour symnasium today for the start of its work. The condemnation suit filed against the Jackson county land saturday did not include the sites for the emergency landing fields. Condemnation suits against these tracts are expected later. Tracts for two other defense projects were condemned and possession granted in federal court at Indianapolis Saturday. One, consisting of 525 acres, is on the outskirts of Terre Haute for construction of a civilian defense holding and reconsignment depot, and 23,63 acres are in Kokomo, the abandoned plant of the Pittsburgh Plate Glass company. The Navy will lease the old glass. company property for manufacture of war materials.

Farmer Migration Is Moving North

Atterbury Evacuees Settling In Johnson

(A number of Camp Atterbury evacuees from the Bartholomew county area are taking over farms in Johnson county north and west of Franklin, and when the migration is completed there will be major changes in the personnel of many local neighborhoods.

Among the latest changes:

Oscar Snepp, who purchased a new farm north of Franklin, will trade the farm for one which James E. Neville purchased west of Franklin. Neville also owns a farm across the road from the farm bought by

Snepp and is trading for the Snepp farm so that he will have two adjoining places. Snepp plans to take over the farm west of Franklin about Sept. 1.

Dallas Coy has moved from Bartholomew county to a farm west of Whiteland.

Paul Johnson has gone from a farm near Kansas to Edinburg.

Clifford Sheek has moved north of Franklin

Billeting Workers In Private Homes May Be Necessary

Blandford Report Says Requisitioning Rooms Is Future Possibility

A hint that billeting war workers in private homes may become necessary was embodied in a report to the National Planning Conference at Indianapolis today, submitted by John D. Blandford, Jr., national housing administrator.

Aimed no deubt at the Camp Atterbury area as well as many other military and defense areas all ever the United States where huge groups of workmen and military attaches are descending on small communities for vital projects, the report said:

"We hope we will not have to resort to billeting, nor otherwise to arbitrarily invade people's homes, and we den't want to create social and moral problems more serious than the problems of securing building materials for new housing. These are all checks on the home utilization program.

"But within this framework, we believe it is advisable and feasible to place into existing houses which are not now fully eccupied, during the next twelve months or so, more than half a million single persons and perhaps 200,000 families."

(Editor's, Note; "Billeting," in military parlance, is an efficial requisition upon a person for lodging, and in this case would be for a war worker or person whose services in the war effort are important.)

Bandford's report was read by Earle S. Draper, president of the American Institute of Planners, because Blandford's report was read by Earle S. Draper, president of the American Institute of Planners, because Blandford's was unable to attend the gathering.

It is probable, if a billeting order should be placed in effect for the Atterbury area in the near future, many extra rooms in such homes would be made available by federal orders.

orders.

It appears at present, however, that the demand for living quarters for war workers has semewhat diminished in the past few days as Franklin and Edinburg and much of the rural territory surrounding these two towns has almost absorbed its capacity.

\$11,751 More Paid For Camp Tracts

Three Owners Receive Checks For 86 Acres

Three more Blue River township residents received checks from the government this week totaling \$11,-751 for land turned over to the government for Camp Atterbury,

All three tracts of land were in Blue River township, two of them near the Pisgah church and a third near Furnas Mill, Land purchased by the government yesterday totaled 86.2 acres.

The largest tract was a 36-acre tract belonging to Hazel M. Hill and located approximately one-half mile northeast of Pisgah church. The land sold for \$1.700.

To Bonnie Compton went the largest government check for 25 acres near Furnas Mill. The sale price was listed in the recorder's office at \$8,380.

A \$1,671 check went to Laura B. Deupree for 24.2 acres located approximately one-fourth mile west of Pisgah church.

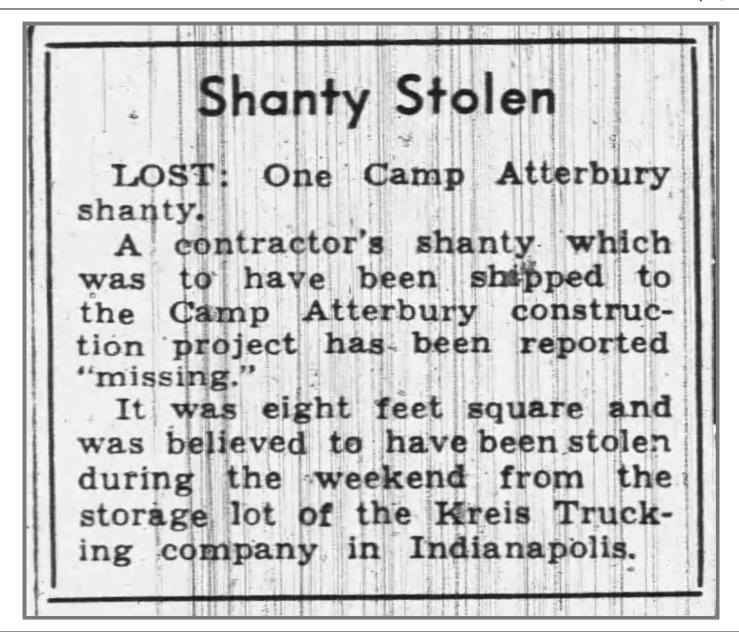

The price of land per acre purchased by the government this week averaged slightly above \$136.

NO COMMENT ON AIRPORT PLANS

Maurice Early Says Field Is Designed for Both Seymour and Atterbury.

The office of the Louisville district of the U.S. Corps of Engineers has declined to comment on the land survey under way northeast of Columbus for some sort of an airport and there was no further information available

From information gained so far, it appears that official word may not be forthcoming until a decision is reached on establishment of the flying field.

Maurice Early, writer for The Indianapolis Star, reported today in his column, "The Day in Indiana", the following in connection with the Bartholomew county survey:

with the Bartholomew county survey:

"Another new army alroort to include two to three square miles northeast of Columbus will serve a dual purpose. It is to be the airport for Camp Atterbury and also will serve as a landing field for the Twin Engine Air Corps School at Seymour. At one time the Camp Atterbury airport was proposed for a site in Johnson county, south of Franklin.

"Several additional air fields, smaller than the proposed one at Columbus, are to be built in Indianapolis and adjoining states. They will be emergency landing fields for the air corps schools in the state."

While this information may be enti-ely correct, officials connected with the Seymour flying school project have said that they do not know anything about the survey near Columbus.

Officials connected with Camp Atterbury also have stated that

Galloping Cubes

Some of the Camp Atterbury workmen just can't be separated from a pair of dice.

At least two truckloads of men have been seen en route to Columbus from the camp in the evening, rolling dice while the trucks rolled down the highways.

One thing about these crap games is that a man with a pair of balanced dice or a skilled hand in rolling them wouldn't have much more chance than a rank beginner in the jolting, bouncing trucks.

Both the crap games observed were in two of the many trucks which haul workers back and forth to the camp each day and are equipped with wooden board seats along the outer sides.

Seven of these trucks were passed along the highway one evening this week. In some of the other trucks the workers just squat on the floor.

Men In Uniform Arriving In City

Preparing For Influx Of Military Personnel

¶An insight into how Franklin will look when the military personnel of Camp Atterbury has moved in is being given local residents with the arrival of a group of officers and non-commissioned men who are reported assisting in preparations for the influx of the camp's main body of soldiers.

Quite a number of men wearing the summer issue of army uniforms were seen in the city Tuesday and Wednesday, following official word last week of the appointment of Col. Welton M. Modisette as camp command and Major General John J. Millikin as commanding general.

Col. Clarence Lineberger, the ranking quartermaster officer for Atterbury, is believed now engaged in employing approximately 100 laborers for year-round jobs. He recently told Mayor L. W. Oliver that the men would be hired between June 1 and June 10 and that some would begin work, on or about the latter date.

In addition, clerical workers who have been training at Fort Harrison for Atterbury jobs are expected to start work within the next two weeks—both men and women being included.

There are now about 13,000 workers on the construction job, and while some work is still behind schedule, there was a new report today that progress has gone forward so smoothly in recent days that the contractors are now almost on schedule and expecting to complete the \$32,000,000 job in advance of the August contract deadline. The report indicated the work is now 50 per cent. completed.

Says Airfield Is For Dual Purpose

For Atterbury And Jackson Co. School

Considerable doubt surrounds the ultimate use of the airfield southeast of Edinburg for which a survey now is being made, but it appears it will serve the dual purpose of being an airport for Camp Atterbury and a landing field for the Twin Engine Air Corps School to be built in Jackson county near Seymour.

Maurice Early, Indianapolis newspaper columnist, said without reservation in his column today that the proposed airfield was for that purpose. He also said that it had been originally proposed for a site in Johnson county, south of Franklin. As far as is known here, however, no surveyors had been at work on an area south of here for an airfield, although surveyors have several times been reported active north of Franklin in th Hurricane area and in White River township.

The surveying party is working in the Hawpatch area northeast of Columbus, but it appeared today the survey was in an embryonic stage and that present boundaries are only temperary. Ten surveyors are at work, representing the Louisville district office of the Corps of Engineers.

The area includes roughly four square miles in Columbus and Flatrock townships, about 2,460 acres in all.

LAND BUYER FOR AIR SCHOOL HERE

One Negotiator for Seymour Field Arrives, Another Expected.

One government land negotiator arrived here Thursday night and another was expected today preparation for start of negotiations for land to be taken for the Seymour flying school project.

Meanwhile, there was no new information on the survey which is being made northeast of Columbus for a flying field. Indications, however, were that if the local project is approved it will go through in a hurry.

As yet, government officials have not revealed what type of air proj-ect is being considered for Bar-tholomew county.

tholomew county.

Survey crews were still in the local area and it was reported that further soil tests were being made.

Survey Also near Nineveh.

It also was reported that survey crews this week were busy northeast of Nineveh, but it was not known for what the crews were surveying, although rumors at Franklin were to the effect that an airport might be planned in the Nineveh area.

An airport was previously considered northeast of Nineveh for Camp Atterbury. This projected airport site is inside the camp boundaries.

The negotiator who arrived here

boundaries.

The negotiator who arrived here Thursday night for acquisition of the Seymour flying school land is L. L. Shadoin, who formerly was with the local land acquisition department on negotiations for Camp Atterbury land. After leaving here he went to Vincennes, where another flying school is being constructed.

Louis B. Harrington the

structed.

Louis B. Harrington, the second negotiator, was expected to arrive from Vincennes and hegotiations at Seymour are expected to start in the near future.

The land acquisition at Seymour is being handled through the office in the Columbus armory.

Injury, Illness Plague Workmen

Mishaps Take Toll At Camp Atterbury

¶ Injuries and illness continued to plague Camp Atterbury workers over the weekend.

Three men injured in accidents on the camp construction project were taken to Methodist hospital in Indianapolis, Saturday.

Otto Norris, 72, of Tipton, was injured in a fall from a scaffold, and James Britt, 21, of Indianapolis, was injured when a scaffold fell on him.

Donald Swiggett, 21, of Franklin, was injured when a large cake of ice tell against him. Although the extent of the trio's injuries was not learned, none was reported in serious condition.

Wayne Mantooth of Greensburg R. R. 2, suffered a head injury while working at the camp Friday afternoon and was taken to the Bartholomew county hospital in Columbus. His condition was described at the hospital at fairly good.

An employe of the A. Farnell Blair Construction Company, Mantooth was injured when accidentally hit on the head with a piece of timber. Ia was believed he suffered a slight concussion.

Four other workers have been taken to their homes after they were evercome by the heat. One worker was taken to his home at Trafalgar, two were brought to Franklin and one was taken to Taylorsville. All had received treatment at hospitals.

SEEK RELEASE FROM DAMAGE

Contracts Circulated in Area
Being Surveyed for
Flying Field.

Contracts apparently releasing the government from any responsibility for damage done property in the survey for a flying field northeast of Columbus have been circulated in the area, but few, if any, farmers have signed them, as far as could be learned. As the surveyors in most cases have been given permission by landowners to go on the land and there have been no reports of any friction over the survey, it was not clear why the government was circulating the contracts.

As far as learned, no such con-

As far as learned, no such contracts were used during the survey of land for Camp Atterbury. The surveyors in the area being considered for a flying field have crossed many of the fields, but none of the farmers has reported any unnecessary damage done to the property.

Most of the landowners in the area who have been contacted express the feeling that if the government needs their land they will willingly give it up. At the same time they have been willing to let the surveyors enter the property as long as no unnecessary damage is done, However, they are not sure they want to sign any release which would free the government from all responsibility.

Leavenworth, Kan.; served as senior instructor with the Kansas National Guard, and recently was executive officer and assistant chief of staff of the 3rd Military Area, composed of New Jersey and Delaware, with headquarters at Newark. Before taking command here, Col. Modisette was assistant provost marshal of the 2nd Corps Area, with headquarters at Governor's Island, N. Y.

Will Live at Columbus.

Mrs. Modisette is in Maplewood, N. J., but expects to join her husband June 23 or 24. They will live in Columbus, according to the story. A son, Lieut. W. M. Modisette, Jr., is at Wright Field, Dayton, O., with the Army Air Corps.

The 83rd Division of Infantry, of which Major General John J. Millikin will be commander, is to train and will be organized at Atterbury later this summer. His strength will be about 15,000 men. Other attached units to be trained at the new camp are expected to bring the total military strength to approximately 35,000, and many civilians will be employed at the camp in various capacities.

Other newspaper anonuncements regarding Camp Atterbury indicate that a detail of 30 men from Company I, special training battalion, under Capt. Edward Sherman, will leave Ft. Harrison on Tuesday morning for temporary duty at the camp.

A school for bakers and cooks at Camp Atterbury is contemplated as one of six such schools in the Fifth Corps Area.

First Soldiers to See Atterbury in Early August

FRANKLIN, Ind., June 15—U. S. Army official indicated here today that the first soldiers will arrive at Camp Atterbury, new army cantonement near here, early in August.

Although construction work will not be completed at the camp at that time, there will be sufficient baracks to house the first group of men, the officer said. Approximately 30,000 soldiers are expected to be stationed at the camp when it is completed.

Construction of the camp is now more than half complete.

Soldiers' Wives to Get Help from Government

Wives and families of local soldiers and sailors will receive financial assistance—both from the servicemen and the government—as the result of House acceptance yesterday of the new allotment measure for dependents.

The House completed congressional action on the bill and it was sent to the White House for presidential approval.

A measure raising the pay of armed forces to a minimum of \$50 a month, to cover contributions to dependents, also awaits President Roosevelt's signature.

The dependents' bill also states a congressional policy that the selective service should "not break up the institution of the home" and, according to Rep. Andrew J. May (D-Ky) of the House military committee, local draft boards will be asked to reclassify married men of draft age, using new deferment groups.

May Subdivide 3A.

The new classifications probably would sub-divide all men in Class 3. The first to be drafted when 1A rolls are exhausted probably would be men with dependents other than wives, followed by married men with self-supporting wives and no children, then married men with unemployed wives, men with a wife and one child, and

President Signs It

Washington, June 17. (AP)—A measure boosting the minimum base pay of the nation's fighting forces to \$50 a month was signed into law today by President Roosevelt.

For most of the men, it means at least \$20 more each month for necessities and entertainment on time-off, or to send back home to dependents. The bill carried a clause making the increase retroactive to June 1.

men with a wife and additional children.

The new allotment bill now waiting the President's signature defines two groups of dependents, Class A and Class B. In the former are wives and children and former wives entitled to alimony; in the latter are parents, brothers, sisters and grandchildren.

Where a service man has class A dependents, the deductions from his pay for their benefit are mandatory and amount to \$22 a month. To this the government would add \$28 for a wife, \$40 for a wife and one child, and \$10 for each additional child; \$20 for a child but

(Continued on page two.)

Clipped By:

SOLDIERS' WIVES TO GET HELP FROM U. S.

(Continued from Page 1)

no wife, and \$10 for each additional child.

Deductions Optional:
Deductions for class B dependents would be optional with the service man and would amount to \$22 monthly if there were no class A dependents and \$5 monthly if there were class A dependents and \$5 monthly if there were class A dependents and \$5 monthly if there were class A dependents. The federal payments to class B dependents would be \$15 for one parent, \$25 for two parents, and \$5 for each brother, sister, or grand-child designated for aid.

The payments are effective as of June 1 but first payments including accruals from June 1 are not payable until Nov. 1.

The new bill was intended primarity to provide assistance to the dependents of service men of the lower grades, up to line sergeants in the army and petty officers in the navy. It was mended in the Senate to make a sweeping change in the draft status of family men. Power to Defer.

This amendment, finally approved by both branches after conference, gives the President authority, through the selective service system, to defer men having wives or children with whom they maintain a bona fide relationship in their homes. Heretofore married men with dependents have been deferred on financial grounds.

The new legislation, while recognizing the financial aspect of dependency, permits deferments of family heads primarily because of their family status. A married men whose dependents have adequate income from other sources could be deferred because of his family relationship.

At the present time the Bartholomew county selective service board is reviewing its list of \$A men and placing a number of those with only partial dependency in the reclassification realisms to be seen, although as now planned by Congress men with dependents ofter than wives are slated to be the first of the \$A group to go into the Army, followed by men whose wives are slated to be the first of the safety of the present of the safety of the safety of the safety of the present of the safety of the safety of the safety of the

Gee, Little Western Town, Says Soldier from East

Wednesday comment was the afternoon of one of the eastern soldiers who has just arrived at Camp Atterbury and who was on his first visit to Edinburg.

"It's a quiet, peaceful place," said his buddy and added: "It won't be for long. Wait until the soldiers start pouring in."

Quiet? Peaceful?

Edinburg has considered itself bustling, brimful and at times overflowing, what with the camp construction workers. (The two soldiers should have seen Edinburg four months ago.)

Hunt Shower.

But, according to the two buddies, one from New Jersey and other from Pennsylvania, Edinburg hasn't witnessed anything yet.

The two, dust-weary from Camp Atterbury, were looking for a Y. M. C. A. or some other place

where they could find a shower. Edinburg is expecting a lot of soldiers, but the residents figure their town can't be much more crowded than it has been from the camp workers.

One of the biggest "boom" businesses in Edinburg is the tavern Edinburg's four tavtrade and sales have report their jumped four to five times since have swept us off the map."

start of camp construction. On hot days, the taverns are packed with workers who linger on until late evening.

Cash Hundreds of Checks. Monday, Wednesday, Friday and Saturday paydays—are the gest in the taverns' week and some proprietors cash from \$7,000 to as high as \$20,000 in checks on each payday. The men form in long lines to get their checks cashed. Although there is a charge for each check cashed, the tavern proprietors report they break about even for every so often a bad check shows up and they are stuck for the money. These checks run as high as \$125.

At one of the Edinburg taverns, beer sales alone run as high as \$325 a day and at another tavern package liquor sales on Saturday total around \$400.

Although the camp workers are coming into the taverns from late morning until night, proprietors report little trouble from drunks. There have been fights, but to date most of the camp men have handled themselves in a gentle-manly fashion that has surprised lot of Edinburg residents.

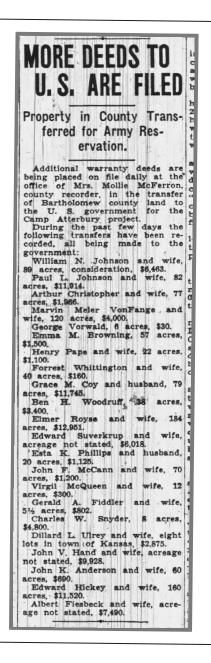

Edinburger commented One "If these 13,000 camp crisply, folks were as bad as some of our own permanent barflies, they'd

Three Taken to Hospitals—
Four Others Receive
Treatment.

Three Camp Atterbury workers were taken to hospitals yesterday for treatment following injuries received at the camp, while four others were treated for injuries.

Ward Fitzpatrick, worker for the Calumet Paving company, was injured when a piece of steel penetrated one arm and he was taken to the Bartholomew county hospital for treatment.

George Brewer, Wilmer Weir and Clarence Hardin also were brought here for treatment and X-ray examination.

Buster Johnson, negro, suffered broken ribs in a fall and was taken to City hospital in Indianapolis.

Two other workmen, Henry Stahl and Eddie Harrod, were injured when scaffolding fell. Stahl suffered broken ribs and Harrod crushed vertebra. Both were taken to Methodist hospital in Indianapolis.

Both the Mutz and Farr and Gosney ambulances from Edinburg were used to take the men to the hospitals.

SEYMOUR GETS LAND OFFICE

to Be Handled from
There.

A new federal land acquisition office is being set up at Seymour to handle acquisition of land for the Seymour fiying school and the records and personnel now employed on the Seymour job will be transferred from the Columbus armory to the Seymour office.

The office at Seymour is being set up temporarily at the high school gymnasium.

The new office will be headed by Frank H. Wolfe of Shelbyville as project manager. Mr. Wolfe has been in charge of simflar work in Kentucky.

At the present time, Mr. Wolfe is at the Columbus armory, working with Jos. W. Springer, Camp Atterbury project manager.

Prior to the decision to set up a separate office in Seymour, the land acquisition affairs for the Seymour job were being handled through the Atterbury department at the local armory. The shift to Seymour will not affect the local office, which will remain here with its permanent personnel under Mr. Springer.

An area of 2,560 acres will be purchased at Seymour for the main field. In addition, there probably will be three to five auxiliary or emergency fields nearby. Negotiations for purchase of the land for the main field got under way Tuesday.

Solicit Bids On Garbage At Camp

Huge Supply Of Waste And Grease Involved

●Bids will be opened at 10 o'clock the morning of July 14 on the first concession at Camp Atterbury, that of disposing of the camp's garbage.

Kitchen waste and grease will be sold to the highest satisfactory bidder or bidders and it will be up to them to remove it from the camp premises.

Contracts will be let on a oneyear basis. Disposal of garbage will be one of the big jobs done by outsiders. Sale of the garbage by the War Department is designed so that it will be available for feeding hogs of farmers in the area around the camp. The grease may be purchased for making soap.

Copies of bids and instructions may be obtained by writing Col. Clarence Lineberger, Quartermaster, Camp Atterbury, Franklin, Ind.

Bidders should bear in mind that kitchen waste must be collected and delivered daily, including Sundays and holidays. The contractor must have a plant and equipment not less than one mile from the nearest boundary of the army camp.

MORE AIRPORTS UNDER SURVEY

One Reported East of Shelbyville—Others Lebanon and Knightstown.

More proposed sirport sites are reported under survey in this section of the state and it appears that if all the areas under survey are accepted for construction, south-central Indiana will have a gevernment airport every few miles.

The lastest survey has been under way in Shelby county, where an area of approximately 1,200 acres has been surveyed and drainage tests made. The area lies in Union and Liberty townships and

Demotrat. There are reports that similar airports are being considered at Knightstown and Lebanon. There is a possibility that the Shelby county project has some which was made northeast of Columbus, although the area being considered in Shelby county is only about one-half the size of the teartiory surveyed in Batholomew

Change Emergency Fields.

Meanwhile, a possible change in location of the emergency airfields for the Seymour flying school was reported by the Seymour Tribune.

The Tribune reported that the three emergency fields in Jackson county originally considered in connection with the air school near Seymour may be abandoned and other locations relected.

Shortly after official announcement of the Seymour project, three proposed emergency fields, aggregating 2,400 acres, were an-

One was located south of Vallonia and was to include approximately 900 acres. Another of the same area was located northwest of Brownstown, and the third of 600 acres was north of Cortland in Hamilton township of Jackson county. Under the first plan, the emergency fields were to be leased, but later it was stated the

It is reported that three, four or possibly five sizes will be selected as auxillary fields to place the three which had been considered. Information is not fields will be located, or if they will be in Jackson county. It was stated several weeks ago that surveys were made near Crotherstille and it was generally believed then that the area was to be used in connection with the

According to reports at Seymour, it is unlikely that, the proposed airport northeast of Columbus is being considered for use in connection with the Seymour school, although it might serve as an auxiliary field, if needed, the head of the serve as an auxiliary field, if needed, the head of the serve as more likely being considered as an airport in conjunction with Camp Atterbury.

Negotiations for government purchase of the Jackson county land

Negotiations for government pur chase of the Jackson county lanfor the main base site at Seymouwere started last week and several of the landowners have sign ed options.

May Use It

Camp Carpenter, Gun Inventor, Explains He's in IA, Himself.

A Camp Atterbury carpenter has turned out a new anti-air-craft gun and sight which have interested the War department.

The gun and sight were invented by H. B. Gaudeau of Marshall, Texas, worker at the camp, who says since his draft classification is 1A he may get to use the gun after being inducted into the Army. He might even get to use it at Camp Atterbury.

The gun and sight are now being examined by War department technical experts in Washington.

Gaudeau, a carpenter by trade, is a member of the American Inventors' association and already holds patents on a combination square and divider which is being marketed.

Plans for the new anti-aircraft gun and sight were received by the War department and acknowledged by Maj. Gen. E. S. Adams, who turned them over to the National Inventors' council, which reviews various war ideas and inventions for the War department, selecting for further tests those which have merit,

RAIL FACILITIES TO BE IMPROVED

Pennsy to Move Block Signal System and Renovate Station Here.

Several changes and improvements are being planned by the Fennsylvania railroad in connection with Camp Atterbury and Friday morning the block signal system now at Edinburg will be moved north to the point where the railroad spur leaves the main line to go into the camp.

Among the improvements being considered by the railroad in the Camp Atterbury area is remodeling of both the Columbus and Edinburg passenger stations. No definite decision, however, has been announced on these improvement plans.

There also have been reports that the freight facilities at Edinburg might be enlarged.

Tremendous Load Expected.

From the new switch location north of Edinburg th eoperator will be able to direct the heavy traffic in and out of the camp. A tremendous load of rail traffic is expected in handling supplies for the 35,000 men to be stationed at the camp, as well as to handle troop movements.

Work on the railroad spur being

Work on the railroad spur being built by the Calumet Paving company for the Pennsylvania railroad is understood to be nearing completion and establishment of a passenger station at the camp is reported to be under consideration.

ported to be under consideration.

At the present time, the railroad spur into the camp ends at large switches which run off the main spur to alongside the warehouse buildings.

The railroad has been in almost the same position as many individuals who wish to build additions or other improvements and has had to make its plans conform to the amount of materials it can obtain.

EATING PLACES HERE INSPECTED

Health Officials Prepare for Influx of Soldiers by Hundreds.

Hundreds.

In preparation for the occupation of Camp Atterbury and the subsequent heavy influx of Uncle Sam's soldiers into local communities, local and state health authorities are engaged in a thorough inspection of all restaurants and places where food and beverages are sold.

J. Milton Snyder, city sanitary officer, and James McCoy, inspector from the food and drug division of the state board of health, have just completed an inspection of 62 concerns in the city of Columbus where food and drink are sold.

Many orders have been given for concerns to make improvements and changes to comply with the rules and regulations for sanitary control of public eating establishments, as outlined by the state board of health.

Closings Not Confirmed.

It was rumored today that at least two places in the city had been ordered closed, but no verification of the reports could be obtained. One establishment was closed down for repairs, following a change of ownership. Another has closed because of a shortage of help.

In the inspection, special emphasis is being placed on a check on the source of the food supply, the protection from dust and dirt of the food while being prepared and when served, and the dishmenthy.

In each restaurant 40 different points are checked in washrooms, kitchen and pantry.

washing facilities and washing methods.

In each restaurant 40 different points are checked in washrooms, dining rooms, kitchen and pantry. Data is also collected on employes, the milk supply, water supply and sewage disposal.

All Towns in Area Affected.

An inspection similar to that carried on here is being made in all towns and cities in the local area. Today health officials were working in Seymour.

It is understood that within the near future military officials from Camp Atterbury will make an inspection of the local eating places. Establishments falling to meet the health and sanitation standards required by the Army will be declared "out of bounds" so far as the Atterbury soldiers are concerned, it is understood.

OFFICERS MAY USE FARM HOMES

Salvage Sales Cannot Be Resumed Until Officials Select Buildings.

Camp Atterbury officials are considering moving a number of vacated farm residences in the camp area to a central point inside the camp for use as officers' living quarters.

As a result, salvage operations are being delayed until the camp officials decide what buildings will be moved to the officers colony. After this decision is reached it is believed that salvage sales will be resumed.

A number of farmers who have moved out of the camp area have been inquiring about the possibility of buying back some of their own buildings or those of neighbors.

At the present time a site on the high ground just inside the east entrance to the camp and south of Road 252 is being considered for the officers' quarters. It is not known how many buildings will be moved or how many officers will be quartered

buildings will be moved or how many officers will be quartered in the proposed colony. However, such a colony would help in relieving crowded living conditions in towns neighboring the camp.

MAZE OF LINES TO LINK CAMP

1,000 Strands to Give It State's Biggest Dependent Exchange.

One thousand telephone lines will link Camp Atterbury's 1,700 buildings, forming the biggest single, dependent exchange unit in the state of Indiana.

In the state of indiana.

Inside camp calls will be handled by a dial system through a separate telephone, building being established inside the cantonment area.

ment area.

Incoming and outgoing calls will be routed through the Edinburg office of the Indiana Bell Telephone company. In addition, there will be special direct lines into Indianapolis.

To Employ 15 Girls.

Approximately 15 girl operators will be employed in the camp telephone building, which is stated to be in full operation around the first of August.

These girls will have quarters on the post and will eat meals at their own mess.

At the present time telephones are being installed in the new buildings as fast as the buildings are completed.

The girl operators at the switch-board in the telephone building will handle incoming and outgoing calls, independent of the camp's dial system, which will be the same as that recently installed in Columbus.

A. T. and T. Strings Lines. The American Telephone The American Telephone and Telegraph company is stringing its lines along the eastern boundary of the camp in the vicinity of Edinburg to replace the lines which now enter the camp area at the Log Cabin illling station south of Edinburg going in the Kansas road and then north on the Mauxferry road to Franklin.

These are the toll lines of the company and include 30 pairs of wires. The lines will be strung on new poles which have been placed west of Road 31 at Edinburg and can be seen from the highway. The new poles are west of the proposed route for the new dual-lane highway which will go west of the town of Edinburg.

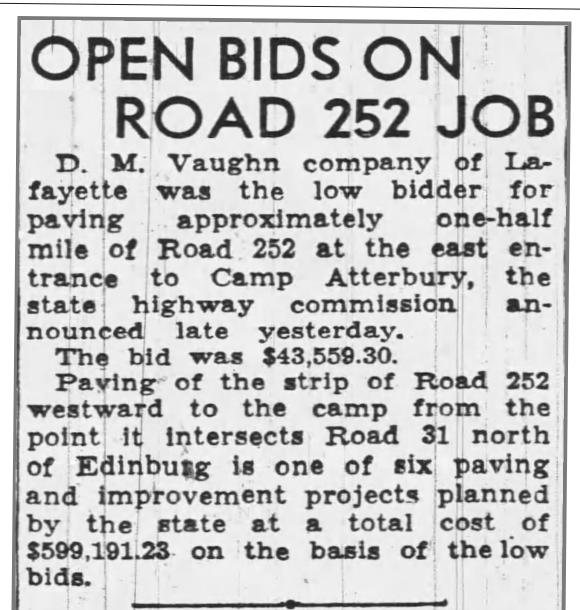

A number of other services will seen he moved from the Camp Atterbury area. These include lines of the Eartholomew county REMC and five miles of line of the Edinburg Power and Light company.

One of Camp Atterbury's Chapels Almost Finished

Resembles Fairly Large Rural Church—Post Exchanges Go Up.

One of Camp Atterbury's 12 chapels is nearing completion and work is progressing on several others.

From the outside the frame chapels resemble fairly large rural churches, with their belfries and steeples. On the inside they are the most attractive of any of the camp buildings visited by this reporter.

The chapel which is almost completed is one being built by the Thompson-Fischer corporation of New York. The chapel is 95 feet long and 37 feet wide. At the front entrance is an alcove, with a consultation room on one side and a cloakroom on the other. From the cloakroom a stairway leads up into the balcony or choir loft, which is located at the front end of the building. The choir loft is constituted so that an organ may be installed.

The auditorium is entered from the alcove through double doors. Here the soldiers will be seated on wooden benches. The lower five feet of the walls are of knotty pine panelling, while the upper section is covered with

brown insulation board. The auditorium has large opaque windows.

All to be Alike.

The pulpit or altar is at the rear and is equipped with a chancel rail. At the rear of the auditorium are the chaplain's office, closet space and the steam heating plant.

All the chapels are to be alike with the possible exception of some of the interior decorations. All are designed for use of loud-speaker systems and are constructed so that they may be adapted for use by any of the Christian faiths.

Also under construction and nearing completion are several of the camp's post exchange buildings. Each regiment will have its own exchange building, large structures 144 feet long and 50 feet wide.

The main room in the exchange buildings is circled on the outside with counters. The counters are divided into departments which include soda fountain, soft drinks, short orders, tobacco and toilet articles.

The regimental tailor shop and barber shop are located opposite one another at the rear of the exchange building.

The exchanges and chapels will be steam-heated. While the chapels have belfries and steeples, they will not be equipped with bells.

USO Center to Be Established In Seymour

Frank D. Finley, Regional Director, Confers with Group as To Requirements

United Service Organizations will establish a center in Seymour for use of men in training at the Advanced Twin Engine Schoel, Frank D. Finley, of Chicago, regional director, told a group of citizens here Tuesday night. Attending the conference, which was arranged by Stanley A. Switzer, mayor, and William Topie, secretary of the Business Men's Association, were representatives of various civic and church groups.

Men's Association, were representatives of various civic arid church groups.

Mayor Switzer urged the establishment of a USO unit here several months ago, even before Seymour was selected as the site of the Advanced Twin Engine School. At that time it was believed the center would be required because of the proximity of Camp Atterbury. When announcement was made that the flight training center would be located southwest of here the request was renewed and Mr. Finley arranged for a visit here.

It was emphasized that while a USO center will be set up here, the government will not erect a building or authorize the expenditure of any considerable sum of money for a capital investment.

"The USO wants to conserve its funds, which in reality is your money for services for the sole.

"The USO wants to conserve its funds, which in reality is your money, for services for the soldiers and does not propose to spend large sums for city planning or beautification," said, Mr. Finley.

It was explained that if a sultable building is located here, the Federal Security Agency is authorized to allocate funds for remodeling to make the building adaptable for the services of the unit. If the Federal Security Agency does not approve remodeling expenses, a building will have to be provided rent free.

CAMP POWER SUITS FILED

Condemnation Action Started by Public Service for Line Right-of-Way.

A land condemnation suit was filed Thursday in Johnson county circuit court by attorneys for the Public Service company of Indiana, who sought to gain a 50-foot right of way through two Union township farms in Johnson county for erection of utility poles and transmission of electric power from the company's Lenore substation in Marion county to the Camp Atterbury project.

Attorney Gerald Branigin asked that appraisers be appointed immediately to fix the value of a fifty-foot strip of territory through an 81-acre farm owned jointly by Mr. and Mrs. Charles A. Collier and located immediately south of Road 44, about a mile and a quarter west of the First Mount Pleasant church.

In a separate action, the Public Service company asked that the court institute condemnation proceedings against Mr. and Mrs. Chester Sedam, who jointly own an 80-acre farm just across the road from the Collier farm.

Would Raise 8 Poles.

The condemnation complaint explained the company's purpose in seeking the land to construct utility poles along fence rows adjoining the property. Electric lines along the right-of-way would transmit power to Camp Atterbury, the complaint pointed out.

Camp Exchanges Will Employ 200 Civilians

Maj. Murray B. Frazee, who will | Each store will be 50 by 150 be in charge of the post exchanges at Camp Atterbury, arrived here Wednesday and immediately began making preparations for the camp exchanges which will begin operating in the near future. Major Frazee will supervise operation of the 15 stores at the camp.

He has rented property at 1702 Union street and will move his family here from Gettysburg, Pa. On his arrival, he announced

that Capt. C. G. Collins of Keyser, W. Va., and Lieut. D. A. Gillespie of Muncie will be his assistants. Captain Collins, a former manager of the G. C. Murphy store at Shelbyville, comes here from Fort Hayes, Ohio. Lieut. Gillespie has rented a home in Hope and will move his family there.

Each Bigger than Murphy's. At the post exchange stores, various items not issued the soldiers will be on sale, such as soft? drinks, beer, cigarettes and candy.

feet in dimensions. Major asserted that each store will be the size of the local Murphy store, with approximately 30 feet added to it.

Some 200 civilians will be employed by the post exchange.

From his office at Camp Atterbury Major Frazee will transact the business relative to contracting for merchandise, and carrying out other details.

First Opens About July 15. He asserted that it was planned to have the first exchange stores in operation around July 15. Plans call for having all the stores operating by mid-September.

The post exchange is a big business. It will serve the estimated 35,000 enlisted men and officers at the camp, which represents a total equivalent to the trading area served by the business interests of the city of Columbus.

Major Frazee is a brother of Don Frazee, local merchant. He was transferred to Atterbury from Fort Knox, Ky.

Rumors Camp Will Be Enlarged Gather Weight

While 73 more soldiers moved more buildings should be erected, into new Camp Atterbury Wednes- seems exaggerated as that would day and plans were being made for a thousand or more expected to arrive Saturday, new rumors spread throughout the camp area that the War department is considering enlargement of the can-

For the first time, these rumors appeared to have some foundation, although the U. S. Engineers office at the camp reported it knew nothing of the plans and an effort to contact Col. Henry Hutchings, Jr., head of the Louisville office of the Corps of Engineers, was unsuccessful.

According to the rumors, the War department is considering erecting additional buildings at the camp to care for more soldiers than originally planned and some of the companies now employed on the camp project have reportedly been told that there may be a development on the camp enlarge-ment within a few days.

Rumors of an enlargement have been persistent for the last two or three weeks, but not until Wednesday did there seem to be any basis for them.

One report current at Edinburg Wednesday was that 826 more buildings would be erected. How- of this month ever, this report, even though August.

be almost a 50 percent expansion.

The rumors of an enlargement have been given support by the fact that a number of other Army camps have been enlarged, including newly-built Camp Crowder, Mo., where a number of Columbus

soldiers are now stationed.

Approximately 200 soldiers had been expected to arrive at Atterbury Wednesday, but only moved into the camp and the group expected Saturday or this weekend will be the first large contingent.

Turn Over Barracks. More than 100 officers already are at the camp and the number is expected to increase to around

700 in the next two weeks. Regular meals are being served to both the officers and enlisted man and 100 officers were served at mess Wednesday.

As fast as the barracks buildings are completed and are needed for the new troops moving in, they are turned over to Col. Welton M. Modisette, camp commandant, by the Corps of Engineers, although the formal turning over of the camp by the engineers probably will not take place until the last the first of OL

Speas Farm Sold To Edinburg Man

175-Acre Deal Tops Property Transfers

¶At least nine real estate transfers aside from the recording of warranty deeds on army camp land to the government and the Pennsylvania Railroad's purchase of a right of way for a rail spur to the Camp Atterbury reservation were recorded in the court house this week

The sales were divided evenly between town and country territory, four town transfers and five from the rural area, the latter totaling 503 acres.

Largest of the rural transfers was the sale of 175.82 acres belonging to the Pleasant I. Speas heirs and situated in Pleasant township approximately a mile northeast of Whiteland. John F. Drybread, of Edinburg, was the purchaser and the sale price was listed at \$1. Drybread recently lost considerable farm land to Camp Atterbury.

Other transfers recorded included: Annie Coons estate to Margaret Sullivan, a lot on North Yandes street in Franklin, \$3,500.

Ray E. Moore to Bertha I. Fisher, a lot in Needham, \$1.

Charles W. Wright to Ivory J. Drybread, 146.36 acres in Franklin township, located one mile southeast of the First Mount Pleasant church, \$1.

Pansy M. Ferris to Jacob G. Bueche, 40 acres in Union township located one-fourth mile southwest of Budd, \$1.

Cary F. Galbraith to Cameron L. Williams, a lot in Greenwood, \$1. Martin D. French to Leslie Waltz. 110 acres located approximately one mile south of Samaria in Hensley township, \$1. Chambers N. Garner to Paris

Chambers N. Garner to Paris Fleener, 30.89 acres in White River township, near Kinder, \$1

Registration Of Radios Ordered

Amateur Broadcasters Must List Equipment

The Federal Communications Commission has ordered registration of every radio transmitter owned by the holder of an amateur station license, an order affecting five amateur operators in Johnson county

Local stations which have received orders to cease broadcasting, but not to dismantle transmitters are Dr. R. J. Pickhardt of Franklin (W9TG), Homer Keesling of Franklin (W9DWY), Eugene Walker of Trafalgar (W9JPB), Wilmer Broaddus of Franklin (W9UGH), and Ray Hollandbeck of Franklin (W9OFH).

According to the F. C. C. order, if such licensee does not possess a transmitter, he must inform the commission, and there is a penalty for failure to register equipment.

Final date for registration is Aug. 25, and application forms for each transmitter must be obtained from the F. C. C. at 246 United States Court House, Chicago.

Even though the person licensed to operate a station is working away from home or is in the service, it is necessary that his equipment be registered, or the commission advised that he has no such equipment.

The commission also must be notified of his whereabouts. This registration must be done by the licensee's family or such persons in possessions of his equipment, the order tates,

NEW TEACHER AT EDINBURG

Ralph Roth Replaces Miss Ellis, Who Resigns to Move to California.

Edinburg, July 9—The resignation of Miss Vanna Mae Ellis, a member of the faculty of the Edinburg school, has been received by the school board and Ralph Roth of Edinburg has been named to fill the vacancy. For the past 12 years Miss Ellis has taught the sixth grade. She expects to go to California for residence.

She was active in the Christian church, Business Women's club, P. T. A. and other organizations. Mr. Roth is a native of the Kansas community and was one of the evacuees from the land taken over for Camp Atterbury. He taught school in that community for several years but now resides in Edinburg. He was graduated from the local high school and attended State Teachers college at Terre Haute and Franklin college. He taught at Taylorsville and St. Louis Crossing before going to Kansas.

ing before going to Kansas.

Three other vacancies in the faculty are still to be filled. Ray Brooks, agriculture instructor, was forced to leave when the subject was dropped due to the lack of students. Mrs. Walter Rinehart, instructor in the primary grade, moved to Indianapolis following her marriage, and Herbert Arlington, music instructor, resigned to accept another position. Miss Sarah Briscoe, high school English instructor, resigned to marry Francis Otto.

800 CASES OF 'COKES' A DAY

As many as 800 cases of Coca Cola a day—19,200 bottles—may roll out of the new Coca Cola plant here for consumption by soldiers at Camp Atterbury.

The Columbus plant has been furnishing Coca Cola for the camp for several weeks and will continue to provide the refreshments for the arriving soldiers.

When the camp is full of soldiers the "coke" business is expected to soar. At Fort Knox, with 60,000 to 65,000 soldiers, from 1,100 to 1,200 cases of Coca Cola are consumed every day.

The local company is exempt from any quotas on the Coca Cola furnished for the Army camp and the Coca Cola being sent there will not reduce the amount available for Columbus and area.

The new Columbus plant has a capacity of 2,000 cases every eight hours.

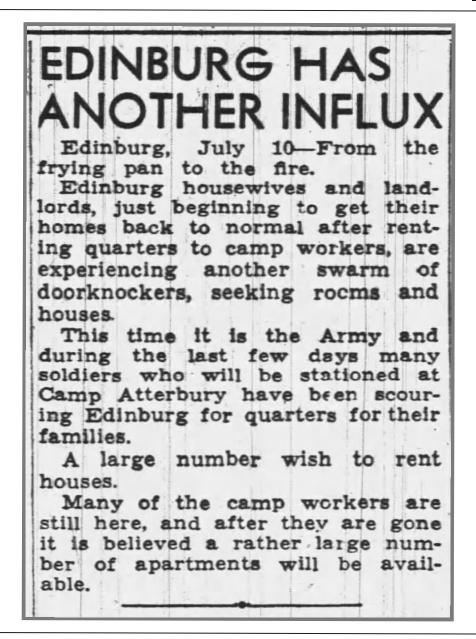

Beer (3.2) also is on the available list for the Atterbury soldiers and is sold at the canteens.

PREPARE MEN

Group of New Selectees to Train at Fort Harrison, Then Enter Camp.

Approximately 800 selectees have been assigned to a training battalion at Fort Benjamin Harrison prior to being sent to Camp Atterbury and to Camp Campbell in Kentucky as permanent personnel

rel.

The provisional battalion was formed this week at Fort Harrison under the direction of Major Kenneth D. Lamb, a graduate of the infantry school and provost marshal general's school.

The new troops will be given as much basic military training as time permits before being sent to Camp Atterbury and to Camp Campbell, which is a new camp similar to Camp Atterbury.

Five hundred of the selectees are from the Fort Harrison received from centers at Fort Hayes, Ohio; Fort Thomas, Ky, and

ceived from centers at Fort Hayes,
Ohio; Fort Thomas, Ky., and
Camp Perry, Ohio.

More Officers Arrive.
Apparently the group does not
include any men from Bartholomew county, but some local solders may be stationed at Camp Atterbury.

More commissioned and noncommissioned officers arrived in
Columbus today on their way to
Camp Atterbury. A group of eight
lieutenants was at the postoffice
building this morning waiting
transportation to the camp.

Many of the non-commissioned
officers are arriving in their own
cars and by train. Upon reaching
Columbus, they want to know the
way to Camp Atterbury.

It previously was announced by
the War department that most
of the selectees to be assigned
to the new 83rd Division at Camp
Atterbury would be from the More commissioned and non-

Atterbury would be from the state of Ohio.

CCC Leaves Atterbury Work, Ready to Disband

300 World War Veterans From Brown County Park End Camp Job Today.

WPA.

The World war I veterans are members of the CCC companies from the camp in the Brown county state park and their work is being halted following Congress failure to provide new appropriations, thus ending the life of the Civilian Conservation Corps.

gress rainters to provide new appropriations, thus ending the life of the Civilian Conservation Corps.

According to U. S. Engineers officials, the CCC has been doing a good job at the camp and its passing has caused more than a little sorrow, but all the men have been offered regular jobs at 85 cents an hour on the camp. Under the order disbanding the CCC over the nation, its equipment is to be turned over to the Army and the equipment at Camp Atterbury, including more than 30 dump trucks, is being handed over.

Doing Many Jobs.

The CCC men have been riding in trucks to the Atterbury area each day from the CCC camp at the park and have been eating their noon-day meal in a former farm home in the camp area. The CCC and the WPA have been doing a hundred and one odd jobs at the camp, which weren't covered in the camp contracts. These, jobs include road repair, clearing out brush, removing fences, moving houses, digging ditches, helping with sewern lines and sodding ditches. From now on the work will be done by the WPA and possibly by regular labor. However, it may prove to be a tough job to find private labor who will do the work done by the CCC at the same root.

145 WPA Men at Work.

repair, clearing out brush, removing fences, moving fonces, moving houses, digging ditches, helping with sewere lines and sodding ditches. From now on the work will be done by the WPA and possibly by regular labor. However, it may prove to be a tough job to find private labor who will do the work done by the CCC at the same cost.

148 WPA Men at Work.
Approximately 145 WPA men are working at Camp Atterbury under special federal appropriations made for this work. The WPA is shoved here, there and serrywhere, wherever needed, and the men don't know from one day to the next what their job will be.

Their work includes road repair, sewer work, moving houses, clearing sites, assisting with drainage, sodding ditches and

countless other tasks.

Congress willing, there probably will be work for the WPA to do at the camp throughout most of next winter. This work is expected to include the laying of several miles of sidewalks in the building area.

Travel in Special Bussee.

The majority of the WPA workers at Atterbury are from Indianapolis, but some are from Bartholomew, Shelby, Brown and Johnson counties.

The Indianapolis men are taken to and from the camp each day in three special busses. A number of the workers are negroes.

Supervisor of the Atterbury WPA project is Lloyd Rogers, formerly of Bartholomew county, but now of New Albany. Mr. Rogers lives in the WPA head-quarters, located in a farmhouse on the Mauxferry road.

The men normally work 8 hours a day, from 7 a. m. to 3:30 p. m., with a half hour for lunch, but are limited to 120 hours a month. Because of the limitation on hours, the workers are staggered so that men will be on the project practically every day.

1,000 Soldiers May Arrive; Expanding Camp's Facilities?

Big Contingent Due During Weekend; No

diers is espected to arrive at Camp Atterbury some time over the weekend in the first large scale assignment to the new cantonment, still in the process of construction. Seventy-three soldiers came Wednesday and there are believed to

be in the neignormood of 200 officers and men now stationed here. While the stationed personnie showed prospects of teing considerably increased either Saturday of Suniday, rumors that the cantonment would be enlarged appeared.

For several weeks now, contruction workers have been talking about the possibility of the construction firms they represent being called upon to erect buildings in addition to those specified on the original plans for the \$22,000. 000 cantoniment. These were considered to be rumors—and still are though at present there is more reason to believe there is a foundation for them.

22 More In Hospital Group.

It was runnered here today that 22 more buildings are being considered for the hospital cluster alone and that additional buildings in other units of construction were being constructed in corresponding ratio in order to house more troops than originally were planned for the horse came.

The reports indicated that construction companies now on the job do not know whether they will contracted to put up the additional structures. If such are actually to be built, or whether new leds will be asked with the possibility that items not now on the job will move in. That a new contractor would get the job was seen as unlikely, since the present construction. Further would be ably heady have equipment and offices set up on the campment and offices set up on the camp.

Despite the growing intensity of the rumors. U. S. Engineers office at the camp reported it kines nothing of the pans. The engineers, in fact, the Army and War Department as a whole, however, have adopted a policy of silence regarding developments ever after the surveying beam more than and the control of the control of the Army of expected relargement have been heard tere frequentty for several weeks and appeared to have such good foundation that construction workers and local people alike have been talking about them almoot as facts.

Report Exaggerates

One report was heard at Sain burg that 856 more buildings would be erected. However, that report was considered exaggerated since that would be about a 50 per central bowever, have been given support because a number of other army camps have been enlarged, including the second of t

ing the newly built Camp Crowder, Missouri.

The new commander of the Fifth Corps area, Major General Fred C. Wallace, in his first tour over the new command area, was to have visited Camp Atterbury today. He spent Thursday inspecting Fort Harrison. General Wallace took over his command this week from Major General Daniel VanVoorhees, who has retired from service.

Due to the war emergency, the transfer of command was made without ceremony, General Wallace taking up his duties at once and beginning the inspection of the area. The inspection of Camp Atterbury was informal.

Regular meals already are being served at Camp Atterbury to the soldiers and officers already stationed there. As fast as barracks buildings are finished and are needed for new troops moving in, they are turned over by the Corps of Engineers to Col. Welton M. Modisette.

200 Jobs Open In Camp Exchanges

To Interview Persons For Sales Jobs Here

The Camp Atterbury Exchange today announced it will employ approximately 200 persons, both men and women, as sales people for fifteen Exchanges or "general stores" in the cantonment area.

Jobs are open for applicants at least 18 years of age with a high school education and United States citizens as requirements, and prospective employes will be interviewed by a representative of the Exchange between 9 and 12 o'clock Saturday morning, July 11, in the Franklin City hall auditorium, second floor of the City building.

By publicizing the matter in the local papers today, the Exchange makes it possible for many local people to apply for the jobs, and, since the qualifications are simple, a large number of Franklin persons have a good chance of getting jobs in the "general stores."

These Exchanges sell all items needed by soldiers. Previous experience is not necessary for applicants, but those with previous selling experience will be desirable, according to Major M. B. Frazee, the Exchange officer.

Army Folks Grab Houses Before They're on Market

Camp Atterbury officers have descended on Columbus in full force in the last few days and modern rental property here is being grabbed as fast as it gets on the market, with many of the officers arranging to rent homes or apartments which are not yet completed.

The rush of the last few days has all but swamped the Chamber of Commerce rental service. More than 75 calls for apartments and houses have been received since Saturday morning.

All day Monday crowds filled the Chamber of Commerce offices in the city hall, seeking living quarters in Columbus, and while some are finding places here many more quarters are needed.

Those who have found houses or apartments in the last few days include a colonel and a lieutenant-colonel.

Rents Marshall Property.

Col. Robert B. Tobias, ranking dental officer to be stationed at Camp Atterbury, has made arrangements to rent the J. F. Marshall property at 1626 Washington street for his family.

Colonel and Mrs. Tobias and younger daughter, 14, are here at the present time.

Mr. and Mrs. Marshall have purchased a new home at Twentysecond and Pennsylvania streets and plan to move in the near fu-

ture.

Colonel and Mrs. Tobias have three children, the younger daughter, a daughter who is attending Duke university and a son who will soon enter West Point.

Take Keller Apartment.
Lieut. Col. and Mrs. Wilson
Spann have rented the upstairs
apartment in the William M. Keller property at 719 Lafayette avenue. They came to Columbus from
Boston.

Capt. and Mrs. Thomas F. Mc-Neal have moved into rooms at the home of Mrs. Marjorie Newton, 1038 California street

The latest officers to find housing facilities here bring to more than 20 the number wno will live in Columbus.

The rush of applicants for houses and apartments at the Chamber rental service increased to the point where another helper was needed and Miss Alta Redmond, local teacher, is now assisting Miss Evelyn Seward with the work.

Another 'Phone Installed.
Another telephone was added to
the office Monday so that out calls
can be made. Incoming calls have
been so numerous that it has not
been possible to use the 'phone
for calling outside.

As the Chamber service has

Army Folks Grab Houses Before They're On the Market

(Continued from page 1.)

practically exhausted its list of available houses—as soon as a house or apartment is listed for rent it is gobbled up—an effort is being made to contact property owners who might have quarters available and to offer them tenants.

In other words, the rental service has ten to twenty prospective renters for every available modern rental that turns up.

Some of the officers and their wives have been driving up and down streets in the residential area of Columbus, locking for vacant houses or apartments for rent.

Every Train Brings More.
Some have called The Evening Republican office prior to publication time, asking if they couldn't be tipped off to for rent ads to be run in the paper so that they can beat others there.

And still more officers arrive. Many of the men and their wives are staying at local hotels and almost every train brings baggage of more soldiers to be stationed at Camp Atterbury.

A number of the officers arriving in Columbus to seek houses for their wives have about decided the wives will have to stay at home.

The Chamber of Commerce office has listed property in Greensburg, Shelbyville, Seymour and Bloomington, but officers wish to live closer to the camp unless bus service is provided from the more distant towns.

The officers arriving in Columbus are from all parts of the Middlewest, the South and the East.

1,000 Acres Will Be Added, Report

Paper Says Camp Site To Expand Eastward

Reports that 1,000 additional acres east of the present site and west of Road 31 in the Edinburg vicinity might be attached to Camp Atterbury were printed Saturday in The Columbus Republican.

The addition puportedly being considered lies in Blue River township south of Road 252, and German township in Bartholomew county. The boundary would be moved eastward to Road 31 in the vicinity of the curve north of Driftwood camp and would extend north along the west side of Road 31 to the point where the U.S. Highway is intersected by Road 252 just north and west of Edinburg.

The exact boundaries proposed have not been established, the newspaper said, because the route of Road 31 around Edinburg will be changed when the road is converted into a dual-lane highway.

The anticipated arrival of approximately 1,000 soldiers over the weekend failed to materialize, according to word today, and authorities said no such large influx of military personnel had been expected.

A full page of photographs of buildings completed and now in process of construction at the camp were printed in The Indianapolis Sunday Star yesterday, first pictures known to have been published since construction started on the cantonment.

Capt. Miller Sent To Pittsburgh, Pa.

Leaves Atterbury To Head Army War Show

Capt. Clifford S. Miller, recently transferred to Camp Atterbury from Fort Harrison to serve on the staff of the camp commander, Col. Welton M. Modisette, has been ordered to temporary duty at Shenley Park Oval, Pittsburgh, Pa., as executive officer of the Army War Show. The tour is for four months.

Capt. Miller's duties as public relations officer at Camp Atterbury has been assumed by Capt. Leroy L. Wahle. Both officeres are from Indianapolis.

Fort Harrison officers recently transferred to Camp Atterbury were Capt. Edward Sherman, Capt. William E. Leighty and Lieut. Robert Menges.

Capt. Benjamin H. Tellejohn and Capt. Chauncey G. Collins of Fort Hayes, Ohio, have been assigned to Camp Atterbury.

Among non-commissioned officers from Fort Harrison asisgned to the new camp here are, Technical Sergeant George J. Palmer, Staff Sergeants Wilbur J. Bohman and Louis C. Cullmann and Technician Third Grade Phillip J. Sandmaier. Reporting at Atterbury from Fork Knox, Ky., were Master Sergeant Art L. Pentecost, Staff Sergeant Art L. Pentecost, Staff Sergeant Grade Warren R. Wise, and Technicians Fourth Grade Francis X. Adams and Harold A. Leff.

The fact that the postoffice at Camp Atterbury will be a branch of the Columbus postoffice means that all the soldier mail will bear Columbus address, and means that people outside the immediate area will consider the city more closely camp and linked than they actually are geographically. Hence, camp visitors are likely to come first to Columbus, though Edinburg and Franklin are nearer the cantonment, just as visitors to Camp Shelby go first to Hattiesburg. This is particularly true since the soldiers will be almost altogether from other states, and they and their people back home will not be familiar with southern Indiana geography. So choice of Columhus for the postoffice carries an opportunity-and a responsibility.

TRUCK COMPANY MOVES TO CAMP

Will Assist in Mobilization
—Demand for Quarters
Continues Here.

A truck company, believed to include more than 50 Army trucks, moved north on Road 31 to Camp Atterbury this morning.

Two colored soldiers were in each of the trucks in the convoy, which also included a few jeeps. The truck company will assist with mobilization of the troops coming into the new camp.

More officers are arriving at the camp daily and five officers' messes are operating at the present time.

Requests for living quarters through the local Chamber of Commerce office slowed down some today after a big rush Tuesday, but the demand is stil' many times greater than the available rentals.

The rental service has practically reached the bottom of its list of modern rentals and one apartment listed this morning was reported rented 15 minutes after it reached the market.

The Chamber office has several rural non-modern quarters for rent, but many of the officers and non-commissioned officers seeking houses and apartments fear their auto tires will not last and want to be located where there will be bus service to and from the camp.

First Formation Shows Efficiency Of U.S. Soldier

Skeleton Of 83rd On March At Atterbury; Commander Welcomes

€After entertaining a welcome from Maj. Gen. John J. Millikin, commanding general of the 83rd Inlantry Division several hundred officers and enlisted men who arrived at Camp Atterbury a few days as to form the skeleton framework of the new division held the first fermation at the new Army camp,

A 20-piece band from Benjamin Harrison furnished the martial music, and to the strict tempo the men of the 83rd gave a remarkable demonstration of parading in the

The welcome was given and the parade launched in a great vacant space between Edinburg street and Road 252, north to south, and between barracks buildings, east to west. The parade also included marching on several of the nearby stree's.

It was a brief ceremony and formation, lasting no longer than half an heur, but in that short span the high-ranking officers of the division and the very few selected civilan observers had an opportunity to view the efficiency of the men in action for the first time as a cadre at Camp Atterbury.

The text of Maj, Gen, Millikin's welcome to the cadre is as fellows:

"This evening marks the first formation of you officers and eniated men who will, before another month passes, bring into being the Sard Infentry Division. You are the essential skeller if ramework upon which as keller if ramework upon which as the continue of the

"It is my honor and privilege as your Division commander to extend my personal and efficial greetings to each officer, each non-commissioned officer and each other soldier, and to welcome you, one ame all, in joining me as charter members of this now division.

"Most of you officers I have met since reporting here. Although some are old acquaintances, most faces are new to me; but you are all fresh from your service schocls and are on the marks, 'a set,' ready for the word 'Go!"

Cites Parent Divisions.

come to us from cur parent organications from cur parent organications for the common common curcations are cavely; It has been
my good fortune to serve in and command, for a short period at least,
both of those splendid organizations.
As I watched you deterain durins
the last day or so. I saw familiar
faces amongst the men from my old
division and from the 3rd Cavalry,
and there were also a few familiar
mascots that were organization pets.

"To my personal knowledge, our parent units are composed of regiments and battalions with glorious war records, built upon fine traditions, fighting efficiency, organization esprit and high morale. They bear the streamers on their standards and colors that indicate to the

83RD SELECTS SWEETHEART

The 83rd Infantry division being activated at Camp Atterbury received its first nation-wide radio recognition Sunday morning when Horace Heidt's orchestra, broadcasting from the stage of the Circle theater in Indianapolis, dedicated its program to the new unit.

The division, during the program, designated Mimi Cabanne, featured vocalist with the Heidt orchestra, as its sweetheart.

Brown-eyed and 22, Miss Cabanne was proclaimed the sweetheart of the boys at Atterbury and presented with a bouquet of flowers.

Miss Cabanne was a natural choice for an Army sweetheart. She was born at Fort Knox, Ky., was reared in the Orient and has lived at Army posts over the country. Her great-grandfather was a general in the Civil war; her grandfather is a retired major general, and her father, Lieut. Col. John Jenkins, Jr., is stationed at Fort Bragg, N. C.

Bids On Further Buildings Aug. 7

17 Structures To Be Contracted Shortly

CBids for seventeen additional buildings to be erected at Camp Atterbury are being invited by the U.S. Engineers office at Louisville and are due by August 7, it was learned today.

The buildings are understood to include administration building and storehouse, connected with the recreational building, mess halls, officers quarters and other structures.

The 17 new buildings being planned are believed to be included in the 45 to 50 buildings added to the original camp plans. Also included in the additional buildings were 26 structures for a field hospital center, for which contracts already had been let.

General Ben Lear Comes For Atterbury Opening

Lieut. Gen. Ben Lear, wearing a week, a short time after returning campaign hat and boots along with from Egypt. his uniform and three shining stars on each shoulder, arrived at Camp on each shoulder, arrived at Camp made aboard a stratoliner. Gener-Atterbury at 5 p. m. Friday in al Milburn stopped off in Washing-preparation for taking part in to-ton a few days, then went to his day's ceremonies for the 83rd Infantry division.

camp by the 83rd reconnaissance "con" cars, jeeps troop, including and motorcycles.

As the general's convoy arrived at division headquarters, the Fort Benjamin Harrison band sounded a musical welcome and General Lear inspected the reconnaissance troops. Confers With Milburn.

General Lear then conferred with Brig. Gen. Frank W. Milburn, com-manding officer of the 83rd Division, who co-starred with General Lear in today's ceremonies.

General Milburn was in Indianapolis Friday and met Governor Schricker at the statehouse, along with Mary E. Bostwick. feature writer for The Indianapolis Star.

Mary, in a story in today's Indianapolis Star said she found General Milburn tan from the north for a camp. It's got everything African desert sun and tight-lipped when asked to give a few de-tails of his recent 2-month stay with the British Army in Egypt.

But he did say the British Army is a fine army and Gen. Sir Claude Auchinleck is a fine commander.

Just Back From Egypt. commander of the 83rd Division this been trained."

The return trip from Egypt was home at Columbia, S. C. General and Mrs. Milburn arrived in Co-General Lear was escorted into lumbus Wednesday from Columbia and she went on to Indianapolis Thursday afternoon.

> Mary, the Star's writer, found that while General Milburn didn't want to say too much about Egypt he was ready to talk about the 83rd Division.

Talks On 83rd Division.

"The 83rd Division is starting all over again," he said, "and it's going to be a good division, and I'm proud to be the commander of it. We have an excellent cadre—a skeleton force of 600 officers and 1,200 non-coms around which the division will be built-they're all hand-picked. The enlisted men will come straight from the reception centers.

"Camp Atterbury is a fine place we need for training-woods and a river and open fields-old houses and fences-it's an ideal place for training for war. We've got an awfully big job ahead of us, licking the Germans and the Japs, but the 83rd Division will help do it, though I've no notion where General Milburn was assigned as the division will be sent after it's

Grammer Folk Excited By Project on Doorstep

The placing of an auxiliary fly-ing field right on its outskirts is about the biggest thing that has happened to the town of Grammer since two stores and a house burned down some 20 years ago.

But it's no fun to residents of four houses which lie in the 640acre, mile-square area to be taken by the government.

A number of residents whose houses sit just across the four roads which bound the airfield area also are wondering what it's going to be like having planes buzz over their homes. But at least they'll have a front row seat for all that goes on.

Only one of the families whose homes are on the airfield site have completed plans for moving, but with one voice all those who must leave declare they are ready to go if the government needs their land.

strips which might have been taken theirs was the one selected.

The area which has been ap-

proved for the airport consists of rolling land one-half mile south of the town of Grammer (population 153, more or less, by the 1940 census).

Grammer is 10 miles southeast

Tables Are Turned

The Government has turned the tables on Henry L. Anthers. He was one of the negotiators for the Government when optioning of the land for Camp Atterbury was started last win-

Now a negotiator will call on on him, because he is the owner of land to be taken for an auxiliary airfeld near Grammer.

of Columbus as the airplanes fly and is in Rockcreek township. It general includes two churches, a school and a number of dwellings. A railroad line from to Westport Seymour through the town.

they learned that the government was planning to take the land, even though it's been a blow to find that of all the mile source.

Worries About Her Flowers. Mr. and Mrs. Hogan Burns, who have resided on the north side of the area for the last ten years, are among the families who will have to leave. The airfield project splits their farm, taking 40

Columbus Establishments
Get Placards on Second
Inspection.

Five Columbus eating places were given approval of Army and health board officials today for entertainment of Camp Atterbury soldiers and were presented with placards designating them as approved.

Dr. Milton S. Ross, director of the local health office, said that several other places here have asked for reinspections and probably will be inspected later this week.

At last reports, seven of 33 eating establishments at Franklin have been approved, while one at Edinburg and one at Shelbyville have been given approval

None of the Columbus eating places met approval on the first inspection, but it is believed that a number will meet approval on reinspection.

Camp on Air

Plans are being made for putting Camp Atterbury "on the air" and a radio program to originate from the camp is slated to start next Wednesday night as a regular weekly feature of radio station WIBC, Indianapolis.

The program will be staged at one of the camp's service clubs each week and will include numbers by soldiers stationed at the camp.

It will be broadcast from 8 to 8:30 p. m. In addition to the 30-minute broadcast, the entertainers from WIBC will give an hour's program for the soldiers. Another program, tentatively set to start in September, also is being planned for broadcast over WISH, Indianapolis.

NEW BUILDING PLANS READIED

The plans for 80 additional buildings at Camp Atterbury are being completed, but these may include the 40 on which negotiations with contractors were to have been started this week.

The 80 structures include barracks, mess halls and administration buildings.

Plans for erection of 40 additional buildings were revealed earlier this week and they may be included in the 80.

Plans also are being made for painting the camp's hospital buildings. A total of 834,000 square feet of two coats of cement base paint will be required.

CALLS MEETING OF ALL GROUPS

Defense Director Plans Conference on Colored Soldier Problems.

A meeting of representatives of various clubs and other organizations will be held at 8 o'clock night at the Coca Wednesday Cola bottling plant under the auspices of the civilian defense council to discuss entertainment of negro troops on leave from Camp Atterbury.

The meeting was called by Marion H. Amick, defense director, after conferences with members of the council, army officers, colored residents of the city and members of the state council of defense.

Invitations to representatives of men's and women's organizations in the county will go out this week, Mr. Amick said.

The belief that large numbers of the colored soldiers to be stationed at Atterbury will come to Columbus on leave, plus the fact that almost no facilities for entertaining them exist, resulted in the decision to bring the problem before the public as represented by the men's and women's organiza-

Although there is no state law to give direct support to Governor Schricker's 40-mile-an-hour "speed limit," his recent request that such a limit be observed to conserve tires and to promote safety in view that many of the tires are getting thin, has some indirect support under existing traffic laws. The police can make arrests if drivers go too through restricted zones, such as the Camp Atterbury military district, or within city or town limits, or if they drive too fast in relation to traffic conditions at any point. The charge in last-named case would be reckless driving. The catch to it is that with most motorists observing the 40-mile limit voluntarily, one might be guilty of recklessness in weaving in and out of traffic which in normal conditions would have been moving rapidly enough to satisfy him. It is well enough to remember that the Governor's request, based on common sense view of the present situation, does have some authority behind it.

LOWER GERMAN TAX RATE SEEN

Township to Ask Reduction of at Least 40 Percent.

A substantial reduction in the proposed \$1 tax levy in German township was indicated Tuesday by Leonard R. Thayer, county auditor.

Increased valuation of \$805.900 added from Nineveh township and money turned over to German from Nineveh were the reasons given for the expected cut.

Last year the rate was \$1.66.

added from Nineven township and money turned over to German from Nineveh were the reasons given for the expected cut.

Last year the rate was \$1.66. Recommendations to the county council, which will act on the township budgets Sept. 8. may ask for a reduction of at least 40 percent in the German rate.

Poor Levy Eliminated.

Trustee Harry Dinn has eliminated the 4-cent poor relief levy imposed in German township last year, as one more indication of the wartime boom which Bartholomew county is enjoying.

The unit proposes to collect \$13.090 next year compared to \$17.502 this year and \$15.033 last year.

In the tuition fund there is a \$5.400 item for teachers salaries and \$3.000 for school transfers.

Interest due on the bond fund showed a \$160 decrease from the \$1,000 due this year.

The budget calls for spending \$720 for the trustee's salary, \$150 for traveling expenses, \$300 for supplies, printing and advertising, \$155 for wages to the advisory board, \$50 for care of cemeteries, \$25 for examination of records, and \$150 miscellaneous.

Other Budget Items.

The special school fund calls for \$200 for repair of buildings and care of grounds, \$200 for repairs to bus equipment, \$200 for furniture, \$300 for paintor's supplies, and \$700 for fuel, \$800 janitor's services. \$4,475 for transportation of children, \$300 for light and power and miscellaneous \$165.

The actual balance as of July 31 of this year was \$1,675 in the township fund, \$2,570 in tuition fund, and \$735 in the bond fund.

The budget calls for \$3,780 to be raised for expenses to the end of this year. Of this amount \$2,380 is for the special school fund and the remainder for the bond fund.

The budget calls for \$3,780 to be raised for expenses to the end of this year. Of this amount \$2,380 is for the special school fund and the remainder for the bond fund.

Trustee Dinn's budget lists taxable property in Edinburg at \$12.845. a decrease of \$690.

Taxable polls totaled 177 in the township exclusive of Edinburg and two in that city.

Large-Scale Grading at Air Base Gets Under Way

First large-scale grading was started on the Columbus air base to-day and big graders and dirt haulers were busy in the field north of the John McMahan residence on the Middle road.

The grading is being done for the field's runways, the ccurses of which have been staked out.

Equipment in action today included a large grader with conveyor attachment which loads the dirt into a big dirt hauler as fast as it is graded. The dirt haulers move alongside the grader and are loaded as the grading progresses.

Some trees also are being cut down and more equipment was moved into the area today.

The speed with which contractors are getting actual work under way indicates that the air base job will be pushed to completion as rapidly as possible.

Four guard posts have now been erected, one at each of the four entrances to the interior of the air base area. A guard office will be set up at the employment office building which has been constructed at the extreme south end of the area on Middle road. Other guards are being added to the local project and include Emil Noblitt and Albert Prewitt. Prewitt is being transferred from Camp Atterbury.

Other activity in the area today included work by Bell Telephone company linemen who were stringing a telephone cable onto the site for telephones needed by the construction companies.

A number of farm families near the flying field are planning to provide sleeping rooms for the air base workers and have listed their sleeping rooms. Many of them formerly had Camp Atterbury workers in their homes.

Crops for Sale

Soybeans and corn, suitable for use as ensilage, from the Columbus air base area are for sale and must be moved from the area immediately.

Only the soybeans and corn which are in the way of construction will be sold at this time, Jos. W. Springer, project manager, said today.

Persons interested should contact the land acquisition department on the third floor of the Bassett building in Columbus at once, Mr. Springer said.

Owing to war needs, an effort is being made to save all crops possible in the air base area.

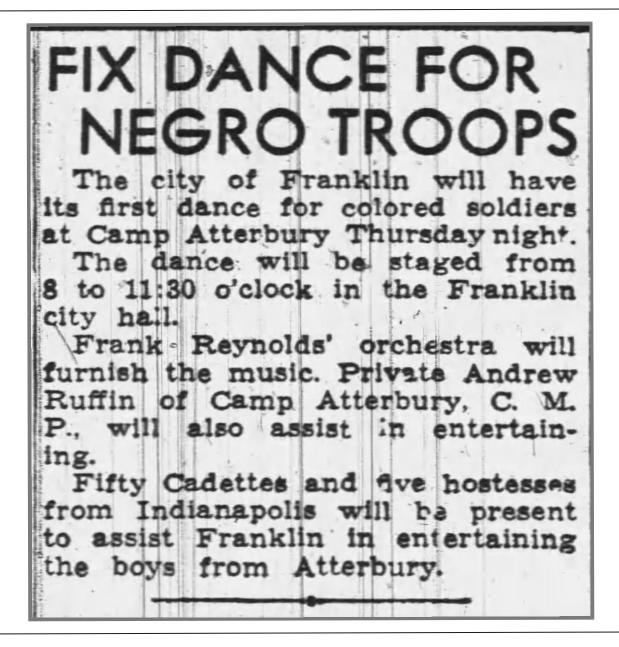

Approximately 200 acres of corn and 100 acres of soybeans must be removed at the present time because it is in the way of immediate construction work.

9 in City Now Have Placards

—Number at Franklin Is 12.

Two more eating places in Columbus have been given approval for serving Camp Atterbury soldiers and the city is running a fairly close second to Franklin in the number of places so far approved.

There are now nine eating places in Columbus which have been presented with placards designating them as approved. These placards are presented on a temporary basis and may be withdrawn at any time if the eating places fall below the required standards.

At last reports, 12 of Franklin's 33 eating places had been given approval. Two eating places are now approved at Shelbyville, while none is approved at Seymour.

Eating places at Morgantown and Martinsville were inspected this week, completing the inspection of eating places in larger towns in the area around Camp Atterbury.

V-D CASES HERE ARE SHARPLY UP

300 Visits Made to Clinic Last June; Only 172 Year Ago.

Four to six new patients are atending each session of the Bartheorem venereal disease clinic, according to statistics compiled at the county nurse's office in the

patients were treated in June of this year and 118 in July Members of the clinic staff suggest three reasons for the increase: (1) a slight increase in new cases, (2) a rapid rise if new cases, (2) a rapid on the population, and (3) an expanding

The latter is also reflected in a comparison of the number of visits made to the clinic in June, 1941, and the corresponding period of this year. In June, 1941, 172 visits were made to the clinic, this year, 200

The local clinic is operated under the direction of Dr. Miliot Ross, district supervisor of the Indiana State Board of Health, and Dr. Robert B. Hart, city health officer, clinician. The doctors are assisted by County Nurses Mrs. Irma Flagg and Miss Rosemary.

Hunteman.

The clinic is open Mondays from 6:30 to 8 p. m., and Fridays from 12:30 to 2 p. m. It is free to all persons, regardless of financial cities.

cial status.

Besides giving blood tests and treatments for venereal diseases, the local clinic issues food handlers' permits and health certifi-

There are now more than 3,000 similar venereal clinics throughout

Take Deadly Toll.

Despite the rapid stride being made in improved treatment and the opening of new clinics, members of the local staff report 100,000 persons are dying of syphilis

annually in the United States.
The United States Public Health
service says there are 10,000,000
cases of syphilis in the country.
It also reveals that more than
1,000,000 new cases of gonorrhea
are reported each year.

caused by venereal diseases.

Indiana taxpayers annually pay more than \$500,000 to treat and care for their syphilities in state hospitals.

Twenty-five thousand infants died last year of syphilis. Venercal diseases are keeping the infant mortality rate high in many

Infant Deaths Here High.
The local clinic reports a very high infant mortality rate for Bartholonew county. In 1940 the infant mortality rate in this county was 71.3 deaths per 1,000 births compared to 41.6 deaths per 1,000 births in the state and 46.4 for the nation.

Can these death-taking diseases be cured? Doctors emphatically answer in the affirmative.

The state board of health makes the following statement concerning the control of syphilis and gonorrhea:

"The greatest benefit and protection to society for the prevention of venereal diseases is a system of education, reporting of all cases, and the repression of prostitution."

Health officials say they have the medicine to cure and preventhe spread of venereal disease but admit little real progress can be made until public prejudices are broken down.

Prepare for Work on Air Base Rail Lines

First equipment for construction of a railroad switch and the first carload of lumber were moved into the Columbus air base area Thursday, while more heavy grading equipment was moved in today.

Approximately one-half mile of track will be put down for the Pennsylvania railroad switch which will run along one edge of the air base boundary.

It is understood that the grading and laying of track for the railroad spur inside the air base area proper will be done by the Central Engineering Construction company of Indianapolis.

company of Indianapolis.

Actual work of putting down the switch is expected to start within the next few days.

Grading for the field's runways was continuing today, the big graders looking from a distance like a group of tanks.

Buildings at South.

At present only a small number of construction workers have been

hired, but more are arriving each day.

As now planned, it is understood, most of the air base build-

stood, most of the air base buildings will be in the southern end of the area and the base's arrangement and facilities will be like Camp Atterbury on a smaller scale.

Roads and streets will run through the building area. The

main entrance, as tentatively planned, will be by way of the Middle road from the south.

The buildings will be of frame construction and will be similar to those at Camp Atterbury. As parts of the project are still in the planning stage, there probably will be numerous changes before its completion. However, original plans are understood to call for approximately 90 buildings. As in the case of Atterbury, this number may be increased before the project is completed.

As now laid out, the building area will be arranged so that there will be ample room for expansion and addition of more structures should they be desired by the War department.

In addition to barracks, mess halls and other facility buildings for the men, the cantonment section will have at least one post exchange and at least one big repair hangar. An oil storage and dispensing system also will be included, along with a fire department.

It is likely that the cantonment also will include hospital facilities.

arbe tric, gas, water, sewage and drainage systems, making it an entirely independent city of perrun haps around 1,000 persons, sitting the on the outskirts of Columbus.

CAMP LAUNDRY READY TO BEGIN

Will Give Thousands of Soldiers Fast Service at Low Cost.

Camp Atterbury's big, new laundry is ready to begin operation keeping the clothes of thousands of the camp's soldiers clean. Col. Welton M. Modisette, camp commander, announced today.

However, with the institution ready for operation, Army officials are confronted with the immediate problem of finding sufficient civilian workers, both men and women, to man the hundreds of machines that go to make a laundry which can give thousands of soldiers two and 3-day laundry service at the cost of only \$1.50 service at the cost of only \$1.50 a month.

a month.

The maximum capacity of the laundry is a military secret, just as is the exact number of men who will be trained at Camp Atterbury, but it has been announced that somewhere in the neighborhood of 300 workers will be employed at the laundry.

Call for Workers.

Calls for laundry workers have gone out to civilians in towns and communities neighboring the camp, informing them.

Calls for laundry workers have gone out to civilians in towns and communities neighboring the camp, informing them that jobs at the laundry await them with pay while they are learning to operate the machines to which they will be assigned.

A group of trained workers gleaned from leading commercial laundries are now at work in the laundry under the supervision of Ray Birren, civilian superintendent, and are ready to begin classes of instruction for workers. The Atterbury laundry is Indiana's largest and newest, as well as most modern and its steady customers shouldn't have need to complain about fading, shrinking or damaging of clothing or equipment.

Modern equipment installed

Modern equipment installed makes possible low temperature washing with mild, neutral soas and consequently means longer life

for garments.

The laundry building itself is big and roomy and has overhead windows for increased lighting and ventilation.

Army Looks Into the Possibilities of Dehydrated Meat

By International News Service BERKELEY, Calif.. Aug. 28 — Mrs. American Housewife soon may be acle to go to her cupboard and select a T-bone stack or prime rib reast, add a little water, and presto! dinner is almost ready.

Not only that, the doughboy in the field may be able to reach in his knapsack and pull out a nice juicy hamburger that was given to him possibly three months before.

These are some of the possibilities which may result from experiments conducted by the University of California Agricultural College with de-hydrated meats.

Similar in principal to dehydrated soups, vegetables and fruits, where all the water is removed to prevent spoilage and save weight, the dehydrated meat has been developed to such a fine point that dried beef and pork can be turned into saitsfactory hamburger patties or meat loaves simply by adding water and cooking.

The dehydrated meat may soon be adopted by the army and navy. Six months of tests went into the beef and pork dehydration, conducted by Dr. Agnes Fay Morgan, head of the university's home economic division, and Dr. Betty M. Watts, home economics instructor, in cooperation with the Western Regional Research laboratory at Albany, Calif.

The beef and pork were ground and dried raw, with oat flour added to keep the meat from turning rancid.

Still to be solved, according to Drs. Morgan and Watts, are the problems of drying large cuts of meat such as roasts and steaks and determining the minimum water content of dehydrated meats.

ASKS BIDS ON **REMOVING DIPS** FROM ROAD 46

Highway Commission to Lay Retread Bituminous Pavement.

BIDS ARE DUE SEPT. 15

Will Repair Approximately 1.5 Miles of Road West of City.

The state highway commission apparently is planning for a quick start on elimination of the "dips" in Road 46, west of Columbus, and is advertising for bids on laying bituminous retread pavement.

The bids are due Sept. 15 and call for paving two gaps approximately 1.5 miles west of Columbus.

The bids are due Sept. 15 and call for paving two gaps approximately 1.5 miles west of Columbus.

Owing to the dips in Roads 46, the highway is impassable during high water and recently the Chamber of Commerce circulated a petition, requesting removal of the dips.

Before the petition was completed highway engineers started a survey of the road for possible elimination of the dips. The Chamber, however, went ahead and completed the petition and it was forwarded to the highway commission last Saturday.

There are two principal dips on Road 46. Water from White river during floods crosses the road at the dip farthest from Columbus and then crosses back again at the dip nearest the city.

The Chamber of Commerce highway committee, which circulated the petition for action on the improvement, is composed of Earl C. Booth, chairman, Arthur Givens, William H. Scott, Lee Wendel, E. A. Welmer and Harry Davis.

To Bulld New 252.

The state highway commission is slated to open pids Sept. 15 for construction of a new route for Road 252 between Amity and Trafalgar in Johnson county.

The old route of Road 252 was closed because of Camp Atterbury.

Bids also will be opened Sept. 15 for new road from the re-

closed because of Camp.

Bids also will be opened Sept.

15 for a new road from the rerouted Road 252 to the north entrance of Camp Atterbury.

Both highways may be of con-

crete.
The new route of Road 252 will meet Road 31 about one mile south of Amity.

Two Colored Men In Draft Call Today

Two colored men, one of them married, left here today for Indianapolis and their final draft physical examinations. If they pass they will be inducted for selective service.

They are Creed Frazier Bey, 32, of 1213 Ninth street and Ray Thompson, 35, of 712 Jackson street.

Thompson is married and is employed with the city street department.

Bey has been employed at Camp Atterbury.

The two men left here by bus and will return home today on furloughs if they pass their examination and are inducted.

Get the Dough

Another payday for Johnny Doughboy is coming up Monday at Camp Atterbury and this morning the Army moved the payroll money from the Irwin-Union Trust company bank here, while a large crowd of onlookers stood by.

Armored scout cars, bristling with machine guns, replaced the jeeps used in the first transportation of money to the camp about a month ago.

While soldiers in the scout cars stood by the machine guns, others were on the street and in front of the bank with the Army's new .45 calibre submachine guns.

Look Again

Officers' Insignia Moved
Off Shoulder Onto
Neck.

Just when Columbus residents had found out you can tell the rank of an Army officer by the gadgets on his shoulders, War Secretary Henry L. Stimson announces that from now on the insignia of grade will be placed on the collar of the shirt instead of the shirt shoulder.

The insignia will be worn where the letters "U. S." have been displayed, when worn without the service coat. Such insignia also will be worn on the garrison cap and will continue to be worn on the shoulders of the service coats.

The shift from the shoulders of shirts and field jackets to the collars was ordered because the insignia has been found to interfere with the use of gas masks, carbines and other military equipment.

Men With Families May Not Have to Go to War

Bartholomew county men and other selectees the country over with dependent wives and children should not be drafted for a year and one-half and 'possibly not at all," Chairman Andrew J. May, chairman of the House military affairs committee, revealed today after studying a survey of selectee service manpower requirements.

The local men drafted thus far have had only collateral dependents such as brothers, sisters, parents, or wives and children with whom they were not living at the time of induction.

Yesterday Maj. Gen. Hershey, national draft director, issued an order to the state state headquarters to re-allocate their calls in order to the several state headquarters to re-allocate their calls in order to place the heaviest loads on boards now having the greatest number of single men or with collateral dependents only.

Huge Army Possible.

The survey of the manpower requirements of the selective service, as revealed to Chairman May by General Hershey, disclosed:

1. An army of 6,296,000 men

Bartholomew county men and can be raised before the draft age ther selectees the country over is lowered from 20 to 18.

2. After that the armed forces can be increased to 9,000,000 before men with dependent wives and children are called.

Sen. Chan Gurney of South Dakota will introduce a bill in the Senate tomorrow to lower the draft age to 18. He said deafting of 18 and 19 year olds "should have started Dec. 8—24 hours after Pearl Harbor."

May said his committee would start similar legislation in the House "by the end of the year," but that he is determined to prevent drafting 18 and 19 years olds until the Army makes it clear that it is necessary.

More Than 2,000,000.

May said Hershey's agures showed that the reclassification of registrants now going on would yield between 2,296,000 and 2,766,000 men for immediate induction. In addition 2,000,000 more are expected to measure up to physical requirements from the present group of 18 and 19 year olds.

10,000 Bibles for Camp Received by Gideons

Ten thousand New Testaments, made available through the Gideons, have arrived in Columbus for distribution to the soldiers stationed at Camp Atterbury.

E. Ray Gress, city clerk-treasurer, president of the local camp of Gideons and vice-president of the state organization, announced today that a special service would be held at 2:30 o'clock the afternoon of Oct. 11 at First Methodist church to dedicate the books to the use of the Army.

Mr. Gress now has the big stock of testaments stored in his garage. He has arranged a display in the Irwin-Union Trust company window which has been attracting attention.

Program Started at Once.

The Gideons is an interdenominational Christian business men's association, whose early activities consisted of placing Bibles in hotel rooms and later in penal institutions and schoolrooms.

At the start of the present war emergency the organization embarked upon a program of helping arm the freops with testaments. Ten days before the bombing of Pearl Harbor the organizations dedicated 40,000 testaments to the men of the southern Pacific.

Stored Here By Ray Gress
Until Dedication Week
From Sunday.

There is no blanket distribution.
This avoids duplication of testaments from other sources. The need being so great, the Gideon testaments have to be distributed to the distributed with care so they will reach as many persons as possible, it was many persons as possible, it was explained.

explained.

The chaplains like the Gideon testaments which contain identification, the Lord's prayer, hymns, national anthems; aids, the King James version of the New Testament, the salms and other features.

The book is well bound and printed, fits the pocket, and in lots of 1,000,000 cost the Gideons 25 cents each.

cents each.

Scratch Match to See If Tank Empty—Is Now

struck a match last night to see if there was any oil left in a railroad tank car and the report could be heard more than a mile away.

The blast sent two workmen, Orvin Hammond, 54, of Cloverdale route 1, and Elroy Martin, Horse Cave, Ky., to the Bartholomew county hospital, suffering foot injuries sustained when they leaped from the tank car to the ground below, a distance of about 15 feet. The two, employes of the Rock Road Construction company, which is putting down the oil streets and roads at Camp Atterbury, were running road oil about 10 o'clock from a tank car at the company's plant, which has been set up west of Road 31 north of Edinburg. Strikes Match to See.

They believed the tank car was empty and while both were standing on the walks along the top of the tank car, one on each side, Martin struck a match over the 4, while Hammond lives in a trailtop opening to inspect the interior, er parked in the Driftwood trailer

Camp Atterbury workman | car, but it was full of fumes and they ignited with a big swish, flames shooting into the air from the tank's opening. The men leaped backward to the ground and escaped burns.

Both of Martin's ankles were injured and Hammond's right ankle hurt when they hit the ground below. They were brought to the local hospital in an ambulance from the Mutz Funeral home at Edinburg. Both were getting along satisfactorily at the hospital today.

"It was just like a bomb going off," said Martin from his hospital bed today. "There was a swish and then a big bang.

"Luckily there weren't enough fumes in the car to blow it apart or we wouldn't be here now."

Fumes from the tank car were still burning when they left the scene, Martin said.

Martin has been staying with his uncle, Bradley Martin on Route There was no oil in the tank camp on Road 31.

Early Winter Brings Wools to Atterbury

From The Atterbury Crier, Camp Atterbury Newspaper.

It may be cold today and warm tomorrow, but O. D.'s are the order of the day.

By an order effective Tuesday, officers and enlisted men at Camp Atterbury donned their wool uniforms. The original date set for the change was Oct. 11, but weather conditions made it advisable to move it forward to Sept. 29. The 83rd Division changed the next day.

The rules are: Khaki colored neckties will be

worn with the wool uniforms on all occasions. Black ties will not be worn.

officers and enlisted men may wear the wool garrison (overseas) cap at any time. Officers and enlisted men assigned to the Service Command may wear wool service caps (visored) when coats are worn. This does not apply to men of the 83rd Division.

Wool shirts will be worn as outer garments, but cotton khaki shirts may be worn under the service coats.

Wool trousers will be worn at all times. This does not apply to the 83rd Division.

Tan socks will be used when low shoes are worn.

Rules concerning shoes are not effected by the change to wool uniforms.

Field jackets may be worn in the camp when wool shirt is worn as an outer garment; but enlisted men may not wear field jackets off the post unless they maintain quarters outside the post. Those maintaining quarters outside the post may wear field jackets to and from duty. For the 83rd Division, no jackets will be worn off the post unless on duty.

Enlisted men will wear service coats when off the post on pass. No leather belts will be worn.

Officers may wear service coat, O. D., with cloth belt.

Officers may wear either the long or short overcoat or trench coat; and the service hat may be worn in inclement weather.

Enlisted men may wear short overcoats on the post; but will wear the army overcoat issued to them when off the post. Mackinaws will not be worn by 83rd Division enlisted men.

Tan colored gloves may be used as dress gloves any time.

NEW ATTERBURY SHOW TO OPEN

'It's Time for Taps' Will Make Debut Thursday Night Over WISH.

Camp Atterbury, Ind., Oct. 7—(Special)—"It's Time for Taps," the 83rd Division's first radio show, makes a unique debut over WISH, Indianapolis, at 9:15 o'clock Thursday night. Although the program has never been broadcast, the idea has received favorable comment both in this country and in England

Advance scripts have been sent to the British Broadcasting company, where arrangements are being made for Quentin Reynolds, famous war correspondent, to narrate the show for American soldiers in Britain. The scripts also have received commendable reaction from Washington and radio criftics in other parts of the country.

critics in other parts of the country.

"It's Time For Taps" will attempt to present a new phase of Army life. Instead of the usual musical variety show heard from most Army camps, this program will portray the inner thoughts of the soldier at the end of a day's work—his thoughts, his problems, a general survey of all phases of his life in the Army, centrasted by his environment before entering the service.

The program will be conducted in the 83rd Division chapel, with an all-soldier cast consisting of a narrator, a singer and an organist. It is being written and produced by Lt. C. J. Allen, pre.s and radio officer of the 83rd Division.

Leppert to Start Service Monday, Taking Workers to Local Project.

The Columbus air base, under construction north of the city, will have a bus line to take workers back and forth to the project, starting Monday.

A temporary permit to put in the line was granted Friday afternoon by the Public Service commission to James Leppert, operator of the Columbus city bus line.

There probably will he two trips daily to the air base, at least for a time. One of these will be early in the morning to take the first shift of workers to the project and the second in the afternoon to take the other shift to the job.

The fare will be 15 certs and the busses will go from the downtown terminal to the field offices inside the air base area.

Lack of transportation for workers has been one of the project's problems, owing to the tire shortage.

Sign for Gas Books Nov. 9

Washington, Oct. 13 (A)—Registration for gasoline; rationing will begin Nov. 9 in all parts of the country except the already rationed East.

The Office of Price Administration, announcing this today, said, however, car owners in the East like the rest of the country would be required to furnish additional information concerning the tires they own.

In gearing the gasoline rationing more closely to the tire conservation program, OPA made these innovations in the plan now operating in the East:

- Periodic tire inspection as a requirement for any renewal of rationing books as well as for applications for tires and recaps;
- Certification that applicant owns no more than five tires for any one vehicle;
- 3. Revocation or reduction of rations for drivers who exceed the 35-mile-an-hour speed limit.

The registration beginning Nov. 9 will be for "A" coupon book, with rationing planned to go into effect Nov. 22.

Each applicant will be required to list the serial numbers for all tires he owns.

OPA said it would announce shortly details of the periodic tire inspection program.

Lay 10,000 Yards of Paving Daily at Base

Laying of concrete at the new of dirt. Columbus air base has hit 10,000 Many square yards a day-equivalent to in the a strip 25 feet wide and two-thirds of a mile long—and it is understood that the local project is leading the Louisville Army engineer dison the site of the Walesboro Job Expands. trict in speed of progress.

Work of pouring the enormous amount of concrete to be used at the base—enough to make a 20foot highway 40 miles long—was started less than four weeks ago, but four 25-foot strips, almost a mile long, have been put down for-one runway and work is well under way on a second.

. Each of the field's four runways will be 150 feet wide, consisting of six 25-foot strips. In addition, there will be 50-foot wide taxi strips and at least one huge concrete apron, around 500 feet wide and 1,000 feet

Want More Speed.
The Army also is looking to the future and the base's plans provide of the site will be graded room for two more, big aprons and the dirt piled into the should they be needed at a later places at other points.

Engineers Set up Office.

Despite present speed work, which is rapidly turning to shovels are at work excavers. 2,000-acre Hawpatch area north of shovels are at work excavers. Columbus into a \$5,000,000 war into laying of concrete sewers. The laying of concrete sewers stallation, officials in charge of the project have set up a temporary project have a tempora project are calling for more speed and are aiming at laying 15,000 square yards of concrete — nine inches thick-a day.

Four giant cement mixers are in operation at the field and a fifth until Oct. 19 to vacate their houses is to be added, with another crew and many are completing plans for of men to be put to work.

Actual work got under way on the air base Aug. 19—less than two months ago-but the Hawpatch area already has lost most of its former appearance as spring into being and shove aside thousands

Many of the former farm homes area are now being razed

Construction work is expanding on the site of the Walesboro auxiliary flying field, south of Columbus.

The Highland Construction company of Louisville moved in more of its equipment Tuesday and was preparing to set up offices in the former residence of Ralph J.

Approximately 1,000,000 yards of dirt will have to be moved for the Walesboro project, which will be part of the Seymour flying school set-up.

Two concrete runways are be constructed at Walenboro and the entire 800-acre area is to be graded level so that planes can

land at practically any point.

The rolling hills at the westend of the site will be graded away and the dirt piled into the low

Grading work already has start-

basement of the Herbert Evans home.

The residents of the area have moving. Mr. and Mrs. Allen Pruitt were moving their household furnishings Tuesday afternoon and preliminary work was being done on three houses which will be buildings moved out of the area. These are buildozers the homes of A. T. Dishinger, of yards Lloyd Stader and Jettie Olmstead.

DEMAND FOR ROOMS GROWS

Calls for Sleeping Accommodations Reach Highest Number Yet.

The influx of air osas construc-tion workers on both the Colum-bus and Walesborn fields is creat-ing a demand for sleeping rooms here greater than that when Camp Atterbury construction was at its peak.

ing a demand for sleeping rooms here greater than that when Camp Atterbury construction was at its peak.

Attaches of the Chamber of Commerce rental service office today reported the big increase in calls for sleeping rooms, but pointed out that the No. 1 reed is still for apartments and houses.

The rental office is receiving five to ten calls a day for apartments and houses.

The increased demand for sleeping rooms is due largely to the tire shortage and future gasoline rationing which is causing the workers to seek quarters as near the war projects as possible.

Few Apartments Found.

The rental office urged Saturday that persons who have listed quarters with it inform the office when the quarters are rented so that prospective frenters will not be sent to the already rented property.

A number of persons have been placed in sleeping rooms in the last week, but only a few new persons have been able to find apartments, houses or light house-keeping rooms. In some cases persons seeking apartments have taken sleeping rooms temporarily in the hope that other quarters will become available.

Those placed here recently include the following:

Recent Rentals.

Model Planes Made by Schoolboys Aid Soldiers

Some Fabricated Here May Be in Use in Instruction At Atterbury.

Camp Atterbury's soldiers have got to learn to distinguish a U.S. plane from an enemy plane and in a hurry—the difference may mean life or death.

To learn the various types-pursuits, bombers and all other varieties-the soldiers are using hundreds of model airplanes made by Indiana schoolboys.

Approximately 100 of the "spotter planes" were made last year by Columbus high school boys and 200 more are to be made this year.

Some of the planes made here may be among those now in use at Atterbury. Most of the planes bear the names and addresses of their makers.

Hundreds on Hand. terbury from the Indiana department of public instruction and

over to the various units and the men will be given lessons enabling -in combat only a helmet or boot them to distinguish the planes by may be visible.

their different characteristics. The models also will be on display in some of the camp day rooms so that each soldier can have a chance to inspect each one during his leisure time.

The models are painted black and made to scale so that when suspended in the air from a short distance they look like the silhouette of a real plane approach-

Want Enemy Uniforms. If it were a real enemy plane, the soldier would have but seconds to swing his gun into action or take cover. If it were a U. S. plane approaching, the Army wants to be sure that its soldiers aren't going to make a mistake and fire at it.

Plans also are under way for acquainting the Camp Atterbury soldiers with the uniforms worn by German, Italian and Japanese soldiers. Posters showing the various uniforms have been distributed throughout the camp and it is hoped that enemy uniforms can The "spotters" were sent to At- be obtained so that the men can see the real thing.

Officers in charge point out that several hundred are now on hand, it is vitally important for the men The planes are being turned quickly to recognize, even at night, every part of the enemy uniforms

O. K. 14 EATING PLACES IN CITY

on Plan to Keep Men from Those Unapproved.

Only one additional Columbus eating place has been approved recently for serving military personnel, bringing to 14 the total number approved here.

Two more establishments at Seymour have been approved and that city now has six.

Camp Atterbury officials have put into operation a plan for periodic re-inspections of the approved establishments, but Dr. Milton S. Ross, director of the Columbus health district, pointed out today that persons wishing to obtain inspections for approval are to apply to the district health office in the Bassett building, as in the past.

The military has not yet made any widescale effort to keep soldiers out of establishments which do not have approval, but it is understood that a program of enforcement is being worked out at the present time.

This program likely wil call for the taking by the military police of the names and company addresses of the men found eating in unapproved places and reporting them to their company commanders.

Camp Branch Threatens To Outgrow Postoffice

side Men as Columbus

Does.

The Camp Atterbury branch of the Columbus postoffice bids soon to outgrow the home office and already as many people are em-ployed at the branch as are work-ing inside the postoffice here.

But it probably will never equal, the dollars and cents business of the parent office, as the bulk of the thousands of pieces of mail which flow through the camp branch daily goes free.

branch daily goes free.

Revenue from the Atterbury branch is mainly on air mail and parcel post. The soldiers mail their regular letters free of postage, but must pay for air mail.

"And the soldiers go in for air mail in a big way," Clarence A. Thompson, Columbus postmaster, said today. As head of the local office he also directs the Atterbury branch.

ranch.

V-Mail Popular.

The Victory mail is becoming popular with the soldiers who are using it to send letters to their buddies overseas, accrding to Wilbur O. Elliott of this city, who is superintendent of the Atterbury branch office.

Elliott asked that it be pointed out to the public again that the "V-mail" is for use only in sending letters to men stationed outside the United States.

"Some people still think that the V-mail can be used fcr sending letters to soldiers inside the United States," Elliott sald.

The Atterbury branch office now has 12 employes, including seven from Columbus and one from Hope.

from Hope.

YOU CAN "hear" anything these days what with rumors as thick as bugs in the middle of July and you can't always depend on what you hear. But I heard—now don't you dare pass this on to a soul—something that caught my interest the other day.

Someone in Franklin who rented rooms to Camp Atterbury construction workers during the rush period found some blueprints in the man's room after he pulled out.

And on these said blueprints was printed "Plans for Camp Atterbury, August, 1941." Definite word that the camp was to be and what the name was were not announced until around the first of the year. Was somebody holding out on us—or was that just a misprint. That's the trouble with rumors—you can't depend on it.

Bagpipe Artist At Atterbury Is Pro Entertainer

Camp Atterbury, Nov. II—(Special)—The skirl of the bagpipe was heard in tife 83rd Infantry Division headquarters barracks the other day, as surprised soldiers gathered around Private Alex S. ("Sandy") MacPherson to hear "The Campbells are Coming" and "Annie Laurte."

It was noontime and, returning from a morning at drill, he reached into his foot-locker, drawing out an cruate bagpipe and a little feathered, blue tam. He donned the latter, tucked the bagpipe into position and puffed mightily — filling the barracks with the shrill Scottish tunes.

Sandy played with professional skill—and well be might—for he has appeared in theaters and night clubs in most of the large cities of the United States. England, Ireland, Scotland and Australia, beginning when he was 10 years old.

His father, the late Jock Mac-Pherson, was "Pipe Major" of the 48th Highlanders and was killed in World War I. Sandy related proudly. "Pipe Major." he explained, is similar to bandmaster and signifies the leader of the bagpipe players.

Then the 28-year-old former entertainer showed his fellow-soldiers his Scottish costume, complete with plaid kilt, woolen socks, spats and dancing shoes.

MacPherson was inducted in Philadelphia where he has lived with his mother, Mrs. Bessie MacPherson, 5901 Palmetto street, since shortly after the last war. However, he was born in Dundeen, Scotland.

Asked how the Scottish people received his playing, "They're pretty critical naturally, of the art, but I got by all right."

MacPherson was performing in theaters and night clubs in the East when called into service.

"I brought my bagpipe along," he said, "so I would be able to entertain the boys a little after the day's work was done."

He also sings—even in Italian – dances and tells jokes.

COMPANY GETS 4 STREAMERS

83rd Signal Unit Adds To Guidon Decorations With Four Silver Bands

Camp Atterbury, Nov. 18—Four battle streamers adorned the 83rd Signal Company's guidon today — commemorating the company's participation, as part of the 83rd Infantry Division, in four major offensives of World War I.

They were Oise-Aisne, Champagne, Meuse-Argonne, and Aisne-Marne. Awarded by the War Departmet, the four silver bands, bearing the names of the campaigns, were received Tuesday.

This makes the company one of the most-decorated units in the division. Capt. Melvin A. Zazzi is the present commanding officer.

The unit was known as the 308th Field Signal Battalien in the first World War. It was designated as the 83rd Signal Company, Sept. 10, 1936

Assigned as Corps Signal Battalion of the Third Army Corps, the old 308th performed active duty in the Aisne-Marne operation, August 4-6, 1918; served in the Vesle sector (Champagne) August 7-17; and in the Oise-Aiane operation August 18-September 2. The battalion participated in the Mouse-Argonne operation as Corps Signal Battalion from September 26 to the armistice, Nov. 11, then continued on duty with the Third Army Corps in the march into Germany and in the Army of Occupation.

CAMP SALVAGE STILL ON SALE

Buildings And Other Articles In Atterbury Area Are Still Available

More Camp Atterbury buildings, consisting mainly of houses and barns, are for sale through the salvage office at Columbus, it has been announced.

Sale of the buildings, most of them occupied by contracting companies after the owners moved out, will wind up the bulk of the salvage sales.

The buildings now for sale are located in the cantonment area and their removal will take the final traces of the former farm community from the Atterbury building area. Prospective buyers are asked to contact the salvage office at once. The office is located in the land acquisition offices on the third floor of the Bassett building at Columbus.

A number of used articles which maye be of interest to Johnson county farmers also are for sale at Camp Atterbury and will be sold by sealed bids. They include egg crates, bushel baskets, half bushel baskets, fruit crates, hampers, hand baskets, newspapers, books, corrusated boxes and used tractor oil.

TINY HILL TO PLAY IN CAMP

"Big Name Band" Scheduled
To Open Last Completed
Atterbury Theater

Camp Atterbury, Nov. 24 (Special)—The 83rd Division's three infantry regiments will get their first musical treat Monday night when "Tiny" Hill takes time out from his engagement at the Indiana Roof to entertain the men at their newly opened theater. This theater is the last to be completed at Camp Atterbury and Hill will be the first "live" talent to appear there.

"Tiny" proved himself an Army man at heart last summer when he volunteered for service, but the doctors found him a wee bit overweight—some 175 pounds to be exact. However, he's still trying to do his bit and is doing the work of two men to keep the men in the service happy—both of him.

The Hill band has taken great strides during the past year and has just completed a successful stay at Chicago's famous Trianon ballroom The musical organization gained its first national recognition several seasons back with the recording "Angry."

ATTERBURY CONTRACTORS USE 200,000 KWH'S OF ELECTRICITY

Since February 28, 1942, the Johnson County REMC has been furnishing power for contractors during the construction of Camp Atterbury in this locality. Two hundred thousand KW hours of electricity have been consumed by these contractors, it was learned today.

War services of Indiana's 43 REA-financed rural electric cooperatives were described in a report to L. Marshall Vogler, chairman of the state USDA War Board.

The Johnson county REMC, serving 1140 farms in Johnson and Morgan counties, joined in the report.

REA systems in Indiana now furnish electricity to 67,709 farms and other rural consumers in 77 counties, according to the report, making it possible for farmers to increase production with less farm labor. The report urged that state and county USDA War Boards and similar groups sponsoring programs devoted to the war effort make use of the services of the REA co-operatives.

He said that they can act effectively as units in performing vital war services, especially by supporting various campaigns such as the scrap drive and the "Food for Freedom" program. The 850 REA systems in the country have been named by the War Production Board as official agencies for co-operation with the War Boards and other groups,

Aid Labor Problem.

The Indiana co-operatives are helping to alleviate the farm labor shortage by encouraging their members to make the fullest use of electricity, according to the report, and "ever since the present war emergency began, farmers who receive electric service from the co-ops have carried on a process of converting their farms to electrified production units where equipment could be obtained."

A member of the Johnson County REMC who owns and operates one of the largest and probably the best equipped dairy farms in Johnson county says.: "Electrical equipment saves me the labor of one man in my dairy barn."

The REA co-operatives are furnishing power to vital war establishments, among which are a Navy ammunition depot, an Army motor repair shop, airports, and aviation beacons.

INTERURBAN TRACK SALV AGING PROGRAM BEGINS IN FRANKLIN

Work began this morning on the removal of the remainder of the city's interurban tracks by a Chicago concern which estimated in contracting the job that it would take about 30 days to complete the task of taking up all the rails left in city streets.

All tracks north of Graham street and south of the Monroe street entrance to Pioneer Park have already been removed and the present renoval operations will commence

at the south terminal of Graham following removal of the switch street and extend southward.

Present plans, according to Street Commissioner Charles "Buck" Childs, call for the Chicago comtrack on all the line north of the old interurban station and then to resurface the center portion at street

South of the old interurban station, only the tracks will be removed and no bricks will be taken out. At the present time, only the tracks that were laid outside city streets have been taken up.

New Curbing Planned,

Also scheduled to go is the switch that extends southward toward the court house on Main street in front of the Willard hotel and The Star office. Curbing will be replaced around the old interurban station

track there up to the property line. Since the interurban line was abandened, the station has been purchased by a private individual and pany to remove both bricks and track on that property will not be removed.

> Removal of the remaining city tracks will take away the last remaining vestige of the once proud line that was abandoned sometime ago following a fatal accident scuth of Columbus.

Tracks through the town of Edinburg have been in the process of removal during the past couple of weeks, and the fact that work has been started in Franklin apparently indicates that the Edinburg remeval has been completed. Streets were blocked off there for several days while the slow process of removing the tracks took place.

HOPE PAYS SURPRISE CALL AT SERVICE CLUB AFTER 2 SHOWS

Camp Atterbury, Dec. 2 .- It was Bob "Camp Atterbury" Hope here last night as the nationally famous radio comedian brought his whole troupe, including levely Frances Langford, Jerry Colonna, Vera Vague and Skinnay Ennis and his band to broadcast from this army training center and give two stage shows at Post Theater No. 2 for over 2,400 soldiers.

To packed houses in shows beginning at 8:45 and 10:30 o'clock, Bob and his gang, with their antics as well as their gags, kept the soldiers he wling with laughter.

Miss Langford, deep-voiced South- more men at Service club No. 2. ern beauty, wowed the boys with a number of songs, including "You tan Serenade." Miss Vague's comedy sketches, both on and off the air, kept the audiences laughing constantly. Mr. Colonna showed the boys how to play the trombone, after giving samples of his ability as e singer, and Ennis and his band played their specialty, "I've Got a Date With an Angel."

Bob and Jerry and the band. starring Guitar Player Tony Rooverticw crowd of several hundred

More than the usual number of Made Me Love You" and "Manhat- Bob Hope radio fans in and around Franklin tuned in at 9 o'clock last night to hear the "localized" theme of the NBC Pepsodent show, Hope kept the radio fans howling, too, with wisecracks about Indiana and Indianapolis.

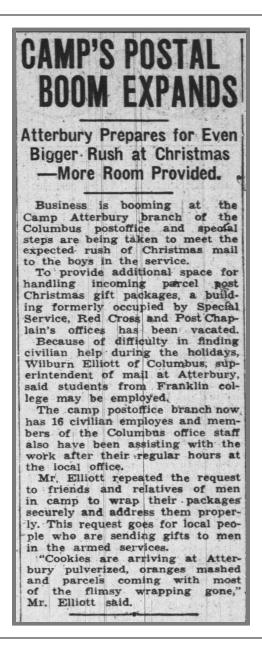

Wendell Willkie and Paul V. Mc-Nutt, and Sonja Henie, who is playing a personal appearance engagement in the ice revue at Indianapolis, came in for a bit of humorcus mano, also paid a surprise visit to an mention by Hope in his myriad of "gags."

CAMP ADDITION TAKES 1 CHURCH

2 Cemeteries Also Included in Brown County Area to Be Added.

The 3,500-acre expansion of Camp Atterbury, all but 10 acres in Brown county, includes one church, established in 1877, two cemeteries, a few residences and hill after hill of second and third growth timber.

The hilly and for the most part rough Brown county land included in the addition is comparatively sparsely populated. It has around eight residents who reside on their own property. In addition, there are several renters and tenants through the area, all of whom will have to move following filing of a condemnation suit.

Some parts of the area are almost isolated now by the closing of roads leading to the east. These roads were closed by the taking of Camp Atterbury.

Camp Atterbury.

The one church which is in the area is the Christian Bethel church on the Mary Stillabower tract in Brown county. The church is located on the former road to Kansas and Edinburg, which was closed by Camp Atterbury.

Closed by Camp Atterbury.

The land was deeded to the church in 1877 by the Stillabower family, which then spelled the name Stilgenbauer, according to the transfer records.

A cemetery of approximately 150 graves is located by the church. There are also several graves on the Robert- Meulen tract of land nearby.

Need 1,700 More Civilian Workers at Atterbury

Between 1,200 and 1,300 civilian another 1,700 to 1,800 will be needfound.

The most critical need at the present time is for women laundry workers and overshadows shortages in other departments, although it is feared that finding workers for other departments will become harder and harder as the manpower problem becomes worse.

It is estimated that approximate ly 350 pre-Atterbury residents of the Columbus area are now employed at Camp Atterbury, while an estimated 100 new residents of the city are working there. In recent weeks several local residents have left jobs at Atterbury and taken employment in Columbus because of the difficulty in getting back and forth to the camp.

However, a large number of Atterbury workers are moving in from other sections and more than 50 new women employes at Atterbury have rented sleeping rooms recently through the Chamber of Commerce rental office. During the last two weeks the office also has had inquiries from at least 21 male employes at the camp who wish living accommodations for their

Practically every nearby town is supplying workers for the camp, including Franklin, Greenwood, Edin-burg, Indianapolis, Morgantown, Shelbyville, Martinsville and Seymour.

workers commute to the These camp daily and gasoline and tire rationing has aggravated the worker shortage.

It is understood that for a time employes are now working at Camp camp officials considered attempt-Atterbury and it is expected that ing to erect buildings to house the workers on the camp reservation, ed, but no one is certain where but so many said they would not these new workers are going to be be satisfied with such an arrangement that the idea was abandoned.

Camp Atterbury jobs are drawing persons from other states than Indiana and a number of persons from Illinois, Ohio and Kentucky are on the payroll. A number of the soldiers' wives also are working at the camp,

While Atterbury worker demands grow and Columbus factories call for more and more workers most all types to replace men lost to the armed forces, still another labor problem is just around the corner.

It is estimated that between 100 and 200 civilian workers will be needed at the Columbus air base and approximately 500 at the Seymour Army Flying field.

May Have to Move In.

Nearby counties will be called up-on to provide these workers and if they are unable to do so workers will have to move in from points more distant, creating more of a demand for housing facilities.

From what, figures are available, it appears that, although Columbus, Franklin and Edinburg are in the middle of a housing shortage now, the situation is due to become much worse unless new housing facilities are found.

New persons are arriving in Co-lumbus daily, calling at the Chamber of Commerce office and then walking the streets in search of living quarters. A number of the mar ried couples are taking sleeping rooms in the hope that apartments or houses will turn up later.

POST EXCHANGE IS REMODELLED New Departments Added-Atterbury Soon to Have

Camp Atterbury's main post ex-change has been remodelled and an officers' uniform department, shoe section and special order office added.

First Christmas Tree.

Beachwood fixtures and modern fluorescent lighting also have been installed, completely changing the appearance of the building's interior. The main, post exchange was the first of Atterbury's exchanges to be opened when the troops ar-rived at camp last July. Christmas decorations have been

put up and the camp's first Christmas tree will be put in the build-

ing within the next few days.

The exchange's new off officers' clothing department, equipped with triple mirrors and modern wall racks, sells official QMC uniforms. Shoes may be purchased by enlisted men as well as officers.

The exchange has 14 employes, headed by B. A. Drake, manager, and B. E. Callon, assistant manager.

ager.

The Atterbury bus station has been moved to Building 115, across from the main post exchange and the bus loading zone moved to the large parking space opposite the new station. All busses to and from Indianapolis, Columbus, Edinburg and Franklin will operate from the new loading zone. An express office is being installed in the new station.

It has been announced that the fare on the busses operating in-side the camp has been increased from five to ten cents.

PAPER TELLS OF BUILDINGS

Greensburg News Reports Firm Gets Contract To Add To Camp Hospital Cluster

The Greensburg Daily News said Wednesday that the firm of Platt & Schneider, composed of George Schneider of Millhousen and F. M. Platt of Aurora, has received a government masonry contract for the construction of two new hospital buildings at Camp Atterbury, each of two stories and approximately 300 by 40 feet in size.

Located on the west side of the camp in the present station hospital area, one will be a part of the general hospital, the paper said. Work is expected to start by the first of the new year, the article said.

The general contractors are the Pearson Construction Company of Benton Harbor, Michigan. Platt & Schneider, when the camp was being constructed did the brick work on barracks and other structures.

WILL ADD TO CAMP HOSPITAL

2 New Buildings Planned at Atterbury—To Be 300 by 40 Feet.

Two new hospital buildings are to be erected at Camp Atterbury, bringing to 46 the number of buildings in the big hospital area of the camp.

The two new buildings will be 2story structures, approximately 300 feet long and 40 feet wide. One of the new buildings will be a part of the general hospital.

A ward hospital building already has been added since completion of the hospital group's original 43 buildings. The original plans provided space for future buildings and it is presumed that the two buildings now planned are to go in those sections.

The firm of Platt and Schneider, composed of George Schneider of Milhousen and F. M. Platt of Aurora, has received a masonry contract for the new buildings, according to the Greensburg News. The Pearson Construction company of Benton Harbor, Mich, which has the buildings contract at the Columbus Air base and for other work at Atterbury, is the general contractor on the hospital project. Work is expected to start by the first of next year.

The Platt and Schneider firm did the brick work and

OFFICER TRIO IS PROMOTED

Post Hospital Attaches, Two
Of Them Franklin Residents, Advanced

Camp Atterbury, Dec. 19.—Three promotions of officers at the Post hospital here were announced this week. Colonel Guy A. Karr was promoted from the rank of lieutenant colonel, and Lieutenant Colonel Ora B. Bodkey and Gerald W. Townsend were promoted from the rank of major.

Colonel Karr is camp dental surgeon. He came here from Camp Forrest, Tenn., July 1. A former National Guard efficer, Colonel Karr was commissioned a first lieutenant in 1917. He is a graduate of the University of Illinois and the Chicago College of Dentistry. He now resides with his family in Franklin, his former home having been in Ottawa, Ill.

Lieutenant Colonel Gerald W. Townsend is chief of the divisional dental clinic, having come here on July 1. He is a former National Guard officer, first being commissioned in 1924. He served as corporal in World War I, participating in the St. Mihiel engagement, the battle of De Argonne (Verdun), and the battle of the Meuse. Twice he was decorated for bravery in action.

Lieutenant Colonel Townsend is a native of Chicago and was graduated from Northwestern University. He now resides with his family at Eginburg.

Camp Atterbury's Boast Is Champion Eater of All Time

Camp Atterbury, Dec. 21.—
It is not what you eat—it is how much! At least that is the theory of Pvt. Cyrus Gingrich who practices some very unusual habits in the realm of "Eat Everything in Sight Or You Cannot Be Champion."

Cyrus has won eating championships by consuming the oddest things. His most cherished accomplishments was making 144 goldfish disappear by way of the gullet in 37 minutes. The goldfish were not G. I.

Other contests were won by eating 120 eggs (fresh) in 33 minutes; 300 cysters (in season) in 40 minutes; and 100 frankfurters (skins and all) in 52 bites.

To prepare himself for these strenuous events, he trains by chewing glass to enhance his appetite, and he sharpens his teeth by using them to bend coins at right angles. For dessert, he loves to sip vanilla extract.

Pvt. Gingrich, now attached to 72nd General Hospital, is a veteran of World War I. He served with a machine gun battalion in the 28th Division, and saw action in the Argonne offensive and the battles of Verdun, Metz and Chateau Thierry. He suffered wounds in action.

And to top off the unusual performances of Pvt. Gingrich, he also is the grandfather of three lovely children.

HOOSIER FIRM IS INDICTED

Russians' Complaint Leads
To Charge Of Conspiracy
Against Wire Company

Washington, Dec. 21—(INS)—A complaint by the Russian government that wire shipped to it under the lend-lease administration failed when it was used in actual combat today led to the indictment of an American wire company and five officials for conspiracy to defraud the United States government.

Calling it "one of the most reprehensible" cases of war frauds on record, Attorney General Francis Biddle announced a Federal grand jury at Fort Wayne, Ind., had returned an indictment against the Anaconda Wire and Cable Company, of Marion, Ind., as a result of an investigation made after the complain was received.

The company not only was accused of delivering defective wire to the U.S. armed forces but it was alleged to have faked conditions under which it was tested.

585 Packages Wrapped by Mrs. Hart and Corps of Volunteers.

Mrs. F. M. Hart, chairman of the Red Cross committee in charge of the collection of Christmas gifts to be distributed among soldiers confined to the Camp Atterbury hospital on Christmas day, announced this morning that she was still short approximately 100 gifts.

Either \$50 in cash or 100 gift packages are needed to reach the county's quota of 750 gifts for the hospital project.

Assisted by a group of high school girls and other volunteers, Mrs. Hart supervised the wrapping of 585 gift packages at the Red Cross Saturday. Additional contributions received over Sunday added about sixty-five more gifts to the list, leaving only one hundred needed to reach the quota.

Any individual desiring to provide gift packages or to donate funds for the purchase of gifts should contact Mrs. Hart.

Company C Bakes Bread Out in Wide, Open Spaces

Company C, 100th Quartermaster battalion at Camp Atterbury, composed of Negro soldiers, bakes its bread by the hundreds of loaves right out in the wide, open spaces.

The company is one of the specialized units attached to the Second army and its recruits are being taught only one job, but it's a big one—the baking of white bread in the field for up to 40,000 troops.

The baking is done in large outdoor ovens which are portable and are carried by company trucks. The soldiers dig holes in the ground into which are fitted the fire boxes on the bottom of the ovens. Wood provides the fire.

Bread That, Can Take It.

And if it's bread you want, these are the boys that can turn it out. It comes in big, round 4-pound loaves with a thick crust. This bread can take it and can stand for some time before becoming stale. It may be a little hard to get inside a loaf after it has been baked several days, but it still tastes good and doesn't crumble.

However, Company C plans to get the bread to the men right after it is baked, wherever the troops may be. The company sees to that by going right along.

Even if the field ovens are de-

Company C, 100th Quartermaster stroyed in battle, the company can attalion at Camp Atterbury, com- still bake bread.

They can do it by building their own ovens and the men have been trained for such an emergency.

First You Dig Hole.
Soldiers dig holes in the ground and two wood barrels with bottoms knocked out are placed end to end on top of a base of bricks or rocks.

The men cover the barrels with mud, leaving the front they build large fires barrels and on top of them. That burns out the barrels and bakes the mud, giving them an oven of barrel circumference and two barrels in length.

To bake the bread, the men build bonfires on top and inside the ovens. When they are good and hot, the inside fires are raked out and the bread dough slipped in for the baking.

Here's the Recipe.
The dough is mixed in special tanks, somewhat resembling a bathtub.

Here is the recipe:

One hundred pounds of flour, 51 pounds of water, two pounds of salt, three pounds of sugar, two pounds of powdered skim milk and one pound of yeast.

If you follow it closely, you will get about 144 one-pound loaves.

JONES IS NEW POST OFFICER

Second Lieut. Wesley Jones, formerly of Hutchinson, Kan., wno is well-known to many Noblitt-Sparks salesmen, has been named post public relations officer at Camp Atterbury.

He succeeds Capt. LeRoy Wahle, who has been made special services officer. Maj. James T. Nelson, former special services officer, has been assigned to new duties with the 1537th Service unit.

Lieutenant Jones is a native of Denver, Cal., and became acquainted with a number of Noblitt-Sparks employes while handling Arvin products in a wholesale business at Hutchinson.

He later was publisher and editor of a newspaper in Tennessee.

A veteran of World war I, he returned to service last April, received basic training at Camp Roberts, Calif., and then attended Infantry school at Fort Benning, Ga.

Lieutenant Jones is married and has two married daughters and a small son.
