

Nazis Helped 9th Army To Find' Reds

U. S. 9TH ARMY, April 30—(AP)
—After two weeks trying to locate the Russians, Ninth army patrols found them today with help from the Germans.

The 12th cavalry, a part of the Thunderbolt (83rd) division, captured an enemy map showing Russian positions. A patrol was sent out and there were Marshal Stalin's men—just as the enemy mapped them.
