6 Allied Armies Attack in West; Ninth Hurled In North of First

Weatherman's a Good Nazi

While a heavy blanket of snow on the Western Front presages a bitter winter campaign. U.S. troops thread their way through whitened forests and over slushy trails, moving up cautiously to the line. This sequence shows a machine-gun unit moving through ankle-deep snow, up hill and down, to provide relief for men at the front. In last photo, two have reached the line to set up their gun.

We Hereby Invite Stilwell to Spamland

CARMEL, Calif. Nov. 6—When Gen. Joseph L. Stilwell gave newsmen his first interview here since returning from China, his left breast was com-

pletely bare of ribbons. He explained his lack of "fruit salad," saying:

"I have only two ribbons that mean anything—the Distinguished Service Cross and the Distinguished Service Medal—and I didn't preserve them. Ribbons should be left to the guys who take it day and night and get shot up."

Ike's Juggling 'Hid' the 9th

WITH THE NINTH ARMY, Nov. 16 (UP)—The U.S. Ninth Army, commanded by Lt. Gen. William Hood Simpson, attacked at 12.45 PM today, ending the mystery of where it had got to. The Germans went on several "fishing expeditions" for information about the Ninth, but, incredible as it may appear, the presence of a whole army at the front line remained a secret. It had been operational in this war theater since September.

September.

Although the Ninth had never before been committed in a major attack, its units—many, if not all—are seasoned ones. The way in which Gen. Eisenhower shuffled them probably contributed to the defeat of the German intelligence. There are actually units in the Ninth which have been shifted from one army to another four times since D-Day.

The Ninth arrived in England soon after D-Day. It was originally the Eighth Army, but Gen. Eisenhower changed its number so that it should not be confused with the fame as British Eighth Army.

It was originally planned to keep the Ninth in England till October, but the speed of the Allied advance after the Normandy breakthrough speeded up the time-table. The Ninth took over the Brittany operation and the siege of Brest from Sept. 5.

from Sept. 5.
After taking Brest the Ninth moved into Luxemburg for a time before taking up its present position. It is now between the British Second and U.S. First Armies.

He is a thorough planner, and ordered at least 40 plans of the present operation before he was satisfied. Every inch of wall space in his office became lined with

Ex-Gob Murders, Mutilates 2 Women

LOS ANGELES, Nov. 16 (AP)—Otto Wilson, 31, a recent Navy dischargee, confessed today to the mutilation killing of two women in separate local hotels.

The first victim, Vergie Griffin, was found lying disemboweled in a cupboard

by a hotel maid. Her torso was slit from neck to abdomen, the right leg severed and the right shoulder hacked through. On the blood-soaked carpet police found a butcher knife with a nine-inch blade and razor blades.

Almost at the same time the second victim, Mrs. Lillian Johnson, was found in another hotel a few streets away. Slashed from chest to abdomen, she died

Entire West Front Aflame After Giant Blow by Bombers

Rumblings of the long-expected "big push" to crush Germany shook the Western Front yesterday as both the U.S. First and Ninth Armies opened strong offensives in Germany and Holland, going over to the attack in the wake of a 1,200-heavy-bomber assault.

attack in the wake of a 1,200-heavy-bomber assault.

Six great forces, four of them American, are now hammering the Germans on the Reich's frontier regions—the U.S. Third, under Lt. Gen. George S. Patton; the Seventh, under Lt. Gen. Alexander M. Patch; the British Second Army, under Gen. Miles Dempsey; the French First Army, which, serving under Patch, also began an offensive yesterday, and the First and Ninth. These armies were striking all along the front from Holland to the Vosges Mountains in southern France.

The Ninth Army, under command of "Texas Bill" Simpson—Lt. Gen. William H. Simpson—broke out of the two-month mystery surrounding its whereabouts by thundering into action in Holland. Front-line dis-

William H. Simpson—broke out of the two-month mystery surrounding its whereabouts by thundering into action in Holland. Front-line dispatches revealed that the Ninth, which had moved into Luxemburg after cleaning up Brest, was between the First Army and the British Second in Holland, in the Dutch panhandle above Aachen.

It was in this general area that both the First Army, under Lt. Gen. Courtney H. Hodges, and the Eighth Air Force Fortresses and Liberators struck, taking advantage of the first break, in bad weather which had bogged operations for

And also during the day over 1,150 RAF heavies, escorted by upward of 250 fighters, pounded three towns east and northeast of Aachen.

announced.

Yesterday's blow was the Eighth's second large-scale tactical assault in a week, comparable to the crushing bombardment which preceded the Normandy breakthrough at St. Lo and Caen, as well as the Metz offensive of Sept. 9.

Many thousands of 260-pound fragmentation bombs were spread over an area north of Eschweiler and south of the village of Langerwehe, west of Duren. German defense included flak and barrages from field-gin batteries, as well as "anti-aircraft" fire from troops in foxholes, and from strongpoints.

and barrages from field-gan batteries, as well as "anti-aircraft" fire from troops in foxholes, and from strongpoints. There was no fighter opposition.

On the way home, two Mustang groups, led by Capts, Henry S. Ville, of Paradise, Calif., and Dale E. Shafer, of Dayton, Ohio, strafed rail targets in the vicinity of Frankfurt and Giessen, shooting up 20 locomotives, 92 freight cars and three trucks.

Report Plasma Is 'Sold' Wounded a Lie-FDR

WASHINGTON, Nov. 16 (Reuter)—
President Roosevelt today nailed as "an unqualified falsehood" the rumor that "blood plasma given so spontaneously and patriotically to the Red Cross by millions of Americans is being sold to our wounded fighting men." People who spread this story should be reported to the FBI, the President declared.

weather which had bogged operations for the last week.

Strike North of Aachen

The airmen's targets were the Germans' defensive positions on an arc between Duren and Eschweiler, northeast of Aachen. Both these towns are in the direct path of any major thrust for the important rail center of Cologne, one of the chief cities of the Rhineland, the war industrial area which may be the goal of the First and Ninth Armies.

The Ninth Army, which the Germans had frantically reported all over the Western Front in an effort to smoke out

its whereabouts, was last heard of two months ago, when it captured Brest. Since, Simpson has moved his troops over three countries—France, Belgium and Holland—an 800-mile leapfrog operation which will be one of the best strategy yarns when it can be told.

The Ninth opened up its drive at 12:45 PM, an hour and 45 minutes after the First had thrust from its positions around the Aachen area. Both moves were pre-

Unworthy GI Guests

Nov. 13, 1944 Dear Stars and Stripes,

Why is it that after some Yanks accept hospitality in an English home, instead of showing appreciation, they make unworthy remarks about the home they visited? In comparing the lack of certain conveniences in an English home with those in the States, the GI should remember that England has had over five years of war and even if the family needed additional or newer fixtures they could not buy them, because furniture

is rationed. There is also the scarcity of "house-Back home a mother may have

work. Back home a mother may have several children between the ages of 14 and 18 helping her with chores. Over here, when children reach 14, it's "off to work we go." In spite of this lack of help, the average English home is quite neat—perhaps much neater than the homes of some of those Yanks who withing. criticize.

So, remember, you freedom-loving guys, respect the privacy of an English home just as you would want other fellows to respect your home. It some English family does something to make your stay here more enjoyable, show your appreciation. If you don't intend to, let some other more deserving Yank be the guest.—T/5 Andy F. Kisacky.

As Low as They Make 'Em Nov. 12, 1944

Dear Stars and Stripes,

I am an ex-infantry Joe who was evacuated from Holland while I was unconscious, and I believe I have a gripe that goes for many other GIs in the same condition.

The medics do a swell job on the lines and I'm not taking anything away from them. But why is it that many GIs who are out turn up-robbed? I had my are out turn up—robbed? I had my paybook, dog tags, wallet and dough, as well as souvenirs, lifted, and would like to know who in the evacuation hospitals wants to retire young by stealing from Joes who are out—straight from the lines?—A GI who is wondering.

Fighter Support or DFCs? Nov. 11, 1944

Dear Stars and Stripes,

That letter in regard to DFCs (in the Nov. 11 B-Bag) is a lot of tripe. At the time when the Eighth AF gave DFCs the missions were so hard that most of the boys were "damn good and dead" by the time they got their awards. Naturally as the conditions improved, the "auto-matic awards" of the DFC were discon-

Dear Stars and Stripes,

In reply to the two poor, poor browned-off co-pilots' plaint in the issue of Nov. 11 there are units overseas, issue of Nov. If there are units overseas, in combat, who've seen ten times as many days combat as you. Yet they keep going, without asking for medals and clusters for each additional objective taken or counter-attack repulsed. Also, they expect to stick to the job till it's over, without a 50 per cent bonus either.

And ask the P47 boys who've been on laison assignments with the tanks whether or not it's rough in the AGF. Why don't these co-pilots grow up?—A Combat Officer—now in a Hosp. Plant.

Volunteer' MPs Didn't

Dear Stars and Stripes,
This is before.

This is being written in re of an article which appeared in your paper, under the heading, "Combat Airmen, Tours Over, Take MP Beats in London." In this article quite a few of us were surprised to see that we had "volunteered." It seems that you, or other parties, are running under a misapprehension, or that you quite possibly had been misinformed. you quite possibly had been misinformed.

The truth is the majority of us were drafted with the promises, of high ranking officers, that we would have priority on shipping home after we finished our 30 days as MPs. Well, those promises were laid away on a shelf. Or should I say they were "volunteered" away. Just writing this to let you know the facts.—

— An Editorial ——

Are You a Parochial Xenophobe?

N a recent editorial, Life magazine expressed the fear that the American soldier may return from the war a parochial xenophobe.

We didn't know what parochial xenophobe meant either-so we looked it up. What it means, roughly, is a guy who hates foreign peoples.

We've been listening to a lot of Joes sound off about the British, the French, the Belgians and other folks from other lands in which this Army has trained and fought.

Some of these birds would make you think Life's fear was fact. These guys see no good in anybody and no beauty anywhere. They hate the British for being British. They hate the French for being French. They hate the Ay-rabs for being dirty. They hate the Dutch for being clean. They just don't give a damn about anybody or anything except the good old U.S.A. "Just wait till we get back there and try and pry us loose again" just about expresses their point of view.

We don't think those guys talk the language of the average GI.

We think they talk the loudest, but we don't think they talk for the most. From the letters we get -from the things we see-from the memories we cherish-we

think most Americans aren't parochial xenophobes.

Most of us realize for the first time what a small world this is. That all of us are neighbors. That something rotten in Denmark stinks like hell in the U.S.A. Lots of us sense for the first time that our big, strong, young country is married to the rest of the world -for better or worse.

We think some of our worst parochial xenophobes will change their tune when they get back home. Twenty years from now they'll be telling their kids about the dart game in the pub at Little Piddlehinton. About the cheers and beers they garnered in Brittany and Belgium. About the little old woman who came out of the rubble at St. Lo and murmured "Nos liberateurs!"

Fresh from ETO, a Reporter Finds:

Japs Fight a Quieter War, But It's Just as Deadly

NEW YORK, Nov. 16 (ANS)-Here | dwindles into a forest track several miles are some impressions of contrasts in fighting in the Philippines and the ETO, as reported by Homer Bigart, New York Herald Tribune correspondent at Gen. MacArthur's headquarters.

Bigart reported the Britain-based air war against Germany and the Italian campaign before shifting to the Pacific, Coming from the European fronts, he has been impressed by the weakness of Japanese artillery, and their failure to employ mines with anything like the diabolical thoroughness of Field Marshal Kesselring's army in Italy.

The first Japanese Imperials have perhaps four 75s on the Ormoc Road. Their fire has been woefully ineffective except against an easy pointblank target such as the Americans presented in the first seizure of Breakneck and before they were dug in

Can't Haul Them Out

The Japanese are said to have heavier guns at Ormoc, but have not succeeded in hauling them over the road, which short of Breakneck.

Moreover, both Ormoc and the entire length of the Japanese-held Ormoc Road are under the harassing fire of American Long Toms. Few mines, anti-tank or anti-personnel, have been encountered. In eight days of action on the Ormoc Road the Americans lost only one tank. That happened when a Japanese jumped out of a ditch and placed a magnetic mine on the tracks of a tank which was blasting enemy machine-gun positions on the reverse slope of Breakneck

Here you can drive up to the front line in broad daylight without drawing a storm of artillery or getting blown sky high by Teller mines. And that is preeisely why more correspondents have been killed here than in any comparable period in the ETO.

The newcomer gets a false sense of security. Hearing none of the usual din of battle, he comes jeeping along, admiring the scenery, when—ping—a sniper's bullet shatters his daydreams.

You have only to make one excursion to the front to realize that this is a different kind of war, and that Japanese bullets and "knee mortars" can kill just as surely as Col. Gen. Von Mackensen's railway guns at Anzio. The knee mortar has been the most effective weapon of the Japanese in the Ormoc drive. It is a 40-mm, job used for close-in work at 40

It's Silly to Generalize

Of course, it is silly to generalize on the fighting quality of the Japanese as compared with the Germans. Both are masters of camouflage and infiltration. Perhaps one generalization is permissible.

The German is perceptibly more civilized, and rarely tries suicide tactics. When a mission becomes hopeless the German gives up. The Japanese never does. It is the First Division's custom to send nightly patrols through the American lines. These attempt to reach artillery and other installations far to the rear. Even at this correspondent's billet, five miles from the Japanese lines, all ranks carry earbines outside the inclosure, even when venturing only as far as the latrine.

The Japanese basic infantry weapon is a light automatic rifle. It is inferior to our own Garand, but the Imperials have enough of them, plus 30-cal, machine-guns, to put up a respectable volume of fire. Like the Germans, the Japanese favor reverse slopes, digging spider holes some distance below the crest as protec-tion against direct fire. They seldom use bunkers except in marshy terrain.

As long as there are Army and Navy trainees, the east and midwest will have the cream of the crop, since that's where they all seem to be going. Pro Grid Boom After War

NEW YORK, Nov. 16—A boom in professional football after demobilization was predicted by former heavyweight champion Gene Tunney. Tunney, now a commander in charge of the Navy's physical fitness program, said that professional stars of the immediate future would graduate from Army and Navy gridirons and battle fronts without previous varsity experience.

"Many youths like you who had no chance to go to college and display your athletic talent have demonstrated the ability in Army and Navy athletic programs," he told the Sampson Naval Station football players.

Army-Navy Tilt Decision Rests With President

WASHINGTON, Nov. 16—The final decision upon whether the Army-Navy football game will be played "in secrecy" as scheduled at Annapolis Dec. 2, or moved to a big city and tied in with the Sixth War Loan Drive, now rests with President Roosevelt. And there are a few million football fans who are sweating out "just a few well-chosen remarks" from the big boss as they never sweated out a fireside chat. So far he has made no statement one way or the other.

As is usually the case in matters of this sort, Washington is crawling with "authoritative sources" who are, needless to say, "highly reliable." The only thing definitely known, how-

ever, is that the President said Tuesday that he would confer with Secretary of War Stimson on the matter and that he talked with Stimson on the telephone Tuesday night.

Agencies Divided

Bowl Bid Race NarrowsDown To 5 Elevens

LOS ANGELES, Nov. 16-The Rose LOS ANGELES, Nov. 16—The Rose Bowl committee announced today that the New Year's Day opponent of the Pacific Coast Conference champions will not be selected until after Nov. 25, when Southern California meets UCLA in a game that will probably decide the coast conference representative.

"There have been no conditional in-vitations extended because there are too many important games coming up within the next few weeks to decide now," said Arnold Eddy, California athletic manager and chairman of the selection committee.

united Press reported, however, that the committee has narrowed the field down to five teams—Ohio State, Georgia Tech, Alabama, Tennessee and Missispipi State—and that if Southern Cal wins a southern team would be selected.

Congress May Add a Star To Generals? Burdens

WASHINGTON, Nov. 16 (ANS)-Legislation to add a fifth star to the shoulder clusters of a group of four-star generals and admirals marched

toward the top of Congress' list today. It was shoved ahead after Speaker Sam Rayburn (D.-Tex.) and Chairman Andrew J. May (D.-Ky.) of the House Military Affairs Committee disclosed that President Roosevelt would like to see the measure

Current plans provide for the designation of two generals and two admirals as "General of the Army" and "Admiral of the Fleet," respectively.

These designations presumably would be bestowed on Gen. George C. Marshall and Gen. Eisenhower and on Adm. Ernest J. King and Adm. William D. Leahy. Gen. John J. Pershing is "General of the Armies" by act of Congress.

Stork Is Willing, but He's Gotta Have Help

Mrs. GI Joe Soon May Give Out With a Plaintive Mating Call

NEW YORK, Nov. 16 (ANS)—The desire of British wives to get their husbands home on "baby furloughs" may spread to the U.S. if the war lasts beyond this year, D. Kenneth Rose predicted today, but he doubted the advisability of such a plan from the standpoint of "planned parenthood,"

Rose, national director of the Planned Parenthood Federation of America, Inc., said that the petition of 3,000 British wives to the British War Office was an outgrowth of the normal desire for parenthood. The proposed plan of giving men furloughs, however, for the purpose of raising a family was impractical both as a military proposition and as a sound sociological premise, he said.

Nevertheless, Rose believes the pro-blem should be faced in the U.S., as "un-doubtedly the same type of agitation will develop among our men in the armed forces and the women at home if the war lasts beyond 1944."

"One of the many complexities of problem concerns the state of fertility

in both men and women," Rose said.
"You can't send GI Joe home for a couple of weeks and expect Mrs. GI Joe to become pregnant, just like that."

The shock of battle experience is a contribution force. The shock of battle experience is a contribution force.

tributing factor, he said.

"Fertility of married couples is known to be temporarily decreased by reason of a husband's battle experience. This is particularly true of those engaged in combat flying." Rose emphasized, however, that infertility induced by such shock was only temporary. only temporary.

Rose explained why Planned Parenthood would not indorse any plan for the armed forces to begin having children en masse. The purpose of his organization, he said, is parenthood if the mother has proper medical care, if the family's economic resources are sufficient for rearing of the child, and if the family is "sound."

All in all, Rose said, the primary task at hand is winning the war. After that he believes speedy demobilization of married men is a sounder idea than grant-ing of "baby leaves."

95th Division, New in Battle, Rivals Veterans in Heroism

By Earl Mazo

Stars and Stripes Staff Writer
WITH THE U.S. THIRD ARMY, Nov. 16—The 95th "Victory" Division, announced as a unit of the Third Army advancing in Lorraine, has a record of heroism that rivals many veteran divisions in Europe.

A lieutenant, leading a platoon in one of the division's first attacks, was wounded, paralyzed from the hips down. He asked a couple of his men to hold him up while he led the unit on to its objective. Later, at the aid station, he requested that all the other wounded of the platoon be taken care of before the medics attended to him. One of the division's first patrols, led by a sculptor from Alaska and a policeman from New York, took five hours to clean out a comparatively large town. During the fight the policeman, Lt. U.S. troops Wednesday invaded the Mapia Islands, 145 miles northwest of Biak on the northern New Guinea coast and pushed inland against slight Jap re-sistance, it was announced yesterday at Gen, Douglas MacArthur's headquarters in the Philippines.

The islands have been used by the Japanese as warning stations to report flights of American planes.

In the Philippines the U.S. Sixth Army tightened its triangular trap around five Jap divisions and moved closer to Ormoc, on the northern coast of Leyte. American troops were reported to be ten miles south and 14 miles east and north of Ormoe, last Jap-held base on the island.

CHUNGKING, Nov. 16 (AP)—Maj. Gen.
